K&F CONCEPT MS11

K&F CONCEPT MS11 Selfie Stick Tripod Instruction Manual

Your guide to setting up, operating, and maintaining your K&F CONCEPT MS11 Selfie Stick Tripod.

1. Product Overview

The K&F CONCEPT MS11 Selfie Stick Tripod is a versatile accessory designed for capturing photos and videos with various devices. It combines the functionality of a selfie stick and a tripod, offering flexibility for different shooting scenarios.

Image: The K&F CONCEPT MS11 Selfie Stick Tripod shown as a handheld selfie stick, an extended tripod with an action camera, a compact tripod with a DJI Osmo Pocket, and its Bluetooth remote control.

Key Features:

- **Wide Compatibility:** Equipped with an expandable cell phone clip, GoPro adapter, and 1/4 inch interface, compatible with cell phones, GoPro, DJI Osmo Action, Insta 360, and compact cameras.
- **Expandable Design:** Maximum height up to 23.6 inches (60cm) with 4-section foot tube adjustment for desired height and stability.
- **360° Panoramic Ball Head:** Rotates 360 degrees horizontally and tilts 90 degrees vertically, supporting up to 2kg for comprehensive shooting coverage.
- **Convenient & Portable:** Weighs only 147g with a closed length of 7.5 inches, making it easy to carry. Includes a Bluetooth remote control for capturing photos or videos up to 10 meters away.
- **Quality Materials:** Constructed from aircraft-grade aluminum alloy for durability and lightweight performance. Features a non-slip grip and widened fixed base with silicone pads for enhanced stability.

2. What's in the Box

- K&F Concept Selfie Stick Tripod x1
- Cellphone Holder x1
- Adapter Compatible with GoPro x1
- Bluetooth Remote x1

3. Setup

3.1 Attaching Your Device

1. **For Smartphones:** Attach the provided cellphone holder to the 1/4 inch screw on the ball head. Secure your smartphone firmly within the holder.
2. **For GoPro/Action Cameras:** Use the included GoPro adapter. Attach the adapter to the 1/4 inch screw on the ball head, then mount your GoPro or action camera to the adapter.
3. **For Compact Cameras:** Directly screw your compact camera onto the 1/4 inch screw on the ball head.

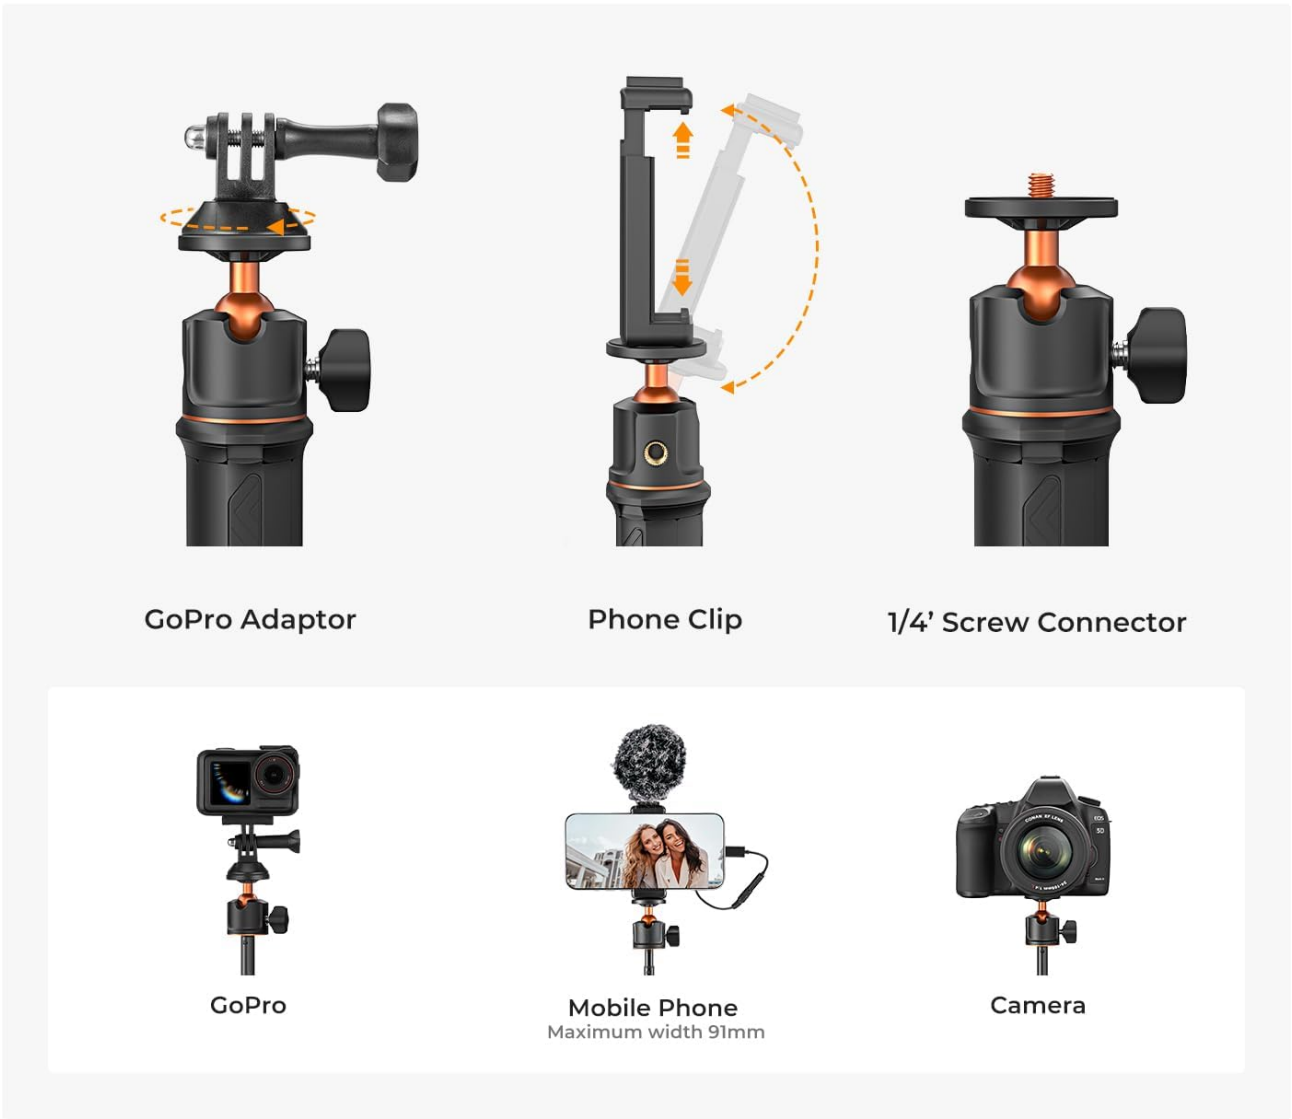

Image: Various device mounting options including GoPro adapter, phone clip, and 1/4 inch screw connector.

3.2 Bluetooth Remote Control Pairing

1. Ensure your smartphone's Bluetooth is enabled.
2. Turn on the Bluetooth remote control (usually by pressing and holding a button until an indicator light flashes).
3. On your smartphone, search for available Bluetooth devices and select the remote control (e.g., "AB Shutter3").
4. Once paired, the indicator light will stop flashing, and you can use the remote to trigger your camera's shutter.

Image: A smartphone mounted on the tripod, with the Bluetooth remote control shown in hand, highlighting its 10-meter range.

4. Operating Instructions

4.1 Using as a Selfie Stick

1. Ensure the tripod legs are folded and secured within the handle.
2. Extend the telescopic pole to your desired length by pulling it upwards.
3. Adjust the ball head angle to frame your shot.
4. Use the Bluetooth remote control to capture photos or start/stop video recording.

4.2 Using as a Tripod

1. Locate the release mechanism for the tripod legs at the base of the handle.
2. Gently pull out the legs until they fully extend and lock into place, forming a stable base.

3. Extend the telescopic pole to your desired height.
4. Adjust the ball head for precise camera positioning.
5. Place the tripod on a flat, stable surface.

4.3 Adjusting the Ball Head

1. Loosen the locking knob on the ball head.
2. Adjust your device to the desired horizontal (360°) or vertical (90°) angle.
3. Tighten the locking knob to secure the position.

Image: Multi-angle adjustment capabilities of the ball head, showing horizontal and vertical camera orientations.

4.4 Cold Shoe Design

The selfie stick tripod features a cold shoe design, allowing for easy installation of additional equipment such as fill lights or microphones. This enhances your content creation capabilities.

5. Compatibility

The K&F CONCEPT MS11 Selfie Stick Tripod offers broad compatibility with a range of devices:

- **Smartphones:** Compatible with most smartphones via the expandable cell phone clip.
- **Action Cameras:** Directly compatible with GoPro Hero series (13/12/11/10/9/8/7), DJI Osmo Action, Insta 360, and similar action cameras using the dedicated adapter.
- **Compact Cameras:** Any compact camera with a standard 1/4 inch screw mount.

6. Portability and Design

Designed for convenience, the MS11 is both compact and lightweight.

- **Weight:** Approximately 147g (0.32 lbs).
- **Storage Size:** Approximately 7.5 inches (19.2cm).
- **Material:** Constructed from durable aircraft-grade aluminum alloy.
- **Grip:** Soft, non-slip material for comfortable and stable handling.
- **Base:** Widened fixed structure with non-slip silicone pads for enhanced stability in tripod mode.

Compact and Lightweight

Image: The compact and lightweight design of the tripod, demonstrating its ease of transport in a bag.

Image: Product size variations from minimum (7.56 inches) to maximum (23.23 inches) extension.

7. Maintenance

- Clean the tripod regularly with a soft, dry cloth to remove dust and debris.
- Avoid exposing the tripod to extreme temperatures or harsh chemicals.
- Store the tripod in a dry, cool place when not in use.
- Ensure all locking mechanisms are clean and free of obstructions for smooth operation.

8. Troubleshooting

8.1 Remote Control Not Pairing

- Ensure the remote control has sufficient battery power.
- Verify Bluetooth is enabled on your smartphone and the remote is in pairing mode.

- Try unpairing and re-pairing the remote control.

8.2 Tripod Instability

- Ensure the tripod legs are fully extended and locked into place.
- Place the tripod on a flat, level surface.
- Do not exceed the maximum load-bearing capacity of 2kg.

9. Specifications

Product Dimensions	2.48 x 1.46 x 8.66 inches
