JUNICHY JS-21FB

JUNICHY 2.6Gal/10L Humidifier User Manual

Model: JS-21FB

Product Overview

The JUNICHY 2.6-gallon (10L) Humidifier is designed to provide optimal humidity levels for large rooms up to 1000 sq.ft. It features a convenient top-fill design, quiet operation, and multiple customizable settings including a 24-hour timer and essential oil diffuser.

Image: The JUNICHY 2.6-gallon humidifier in white, shown with its remote control. The humidifier features a digital display and touch controls on its upper section, and a visible water level indicator on the lower tank.

Important Safety Precautions

- Always place the humidifier on a firm, flat, and waterproof surface.
- Do not place the humidifier directly on carpet or a rug.

- Keep out of reach of children and pets.
- Unplug the unit before filling, cleaning, or moving.
- Do not immerse the base in water or other liquids.
- Ensure the power cord is not damaged or placed under heavy objects.
- This humidifier has a water shortage alarm and automatic shut-off function for safety.

Product Components

- **Top-Fill Tank:** 2.6 Gallons (10 Liters) capacity for extended operation.
- **Control Panel:** Touch-sensitive buttons for On/Off, Timer, Humidity, Mist/Sleep modes.
- **LED Display:** Shows current humidity, timer, and mist settings.
- **360° Adjustable Nozzle:** Directs mist in any desired direction.
- **Essential Oil Box:** For adding essential oils to diffuse aroma.
- **Water Level Window:** Visual indicator for water level.
- **Ceramic Stone Filter:** No replacement needed.
- **Remote Control:** For convenient operation from a distance.

First-Time Setup

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a stable surface.
2. **Separate Components:** The top section of the humidifier can be easily lifted off the base for access to the water tank.
3. **Fill Water Tank:** Pour clean, cool water directly into the top opening of the tank. Do not exceed the 'MAX' fill line. The 10L tank allows for up to 90 hours of continuous operation.
4. **Add Essential Oils (Optional):** Locate the essential oil box on the back of the unit. Press to open, add a few drops of your favorite essential oil to the pad, and close the box.
5. **Connect Power:** Plug the power cord into a suitable electrical outlet.

Using Your Humidifier

Power On/Off

Press the "On/Off" button on the control panel or the power button on the remote control to turn the unit on or off.

Setting the Timer

Press the "Timer" button to set the operating duration from 1 to 12 hours. The humidifier will automatically shut off once the set time expires.

Image: A hand pressing the timer button on the humidifier's control panel, indicating the adjustable timer function.

Adjusting Humidity Level

Press the "Humidity" button to select your desired humidity level, ranging from 45% to 75%. The humidifier will automatically adjust its mist output to maintain this level.

Image: The humidifier's display showing various humidity settings (40% RH, 55-70% RH, >75% RH) and how the auto mode adjusts mist output or shuts off to maintain the target humidity.

Mist Output and Sleep Mode

Press the "Mist/Sleep" button to cycle through different mist output levels (Low, Medium, High). Press and hold for Sleep Mode, which turns off the LED display for undisturbed rest.

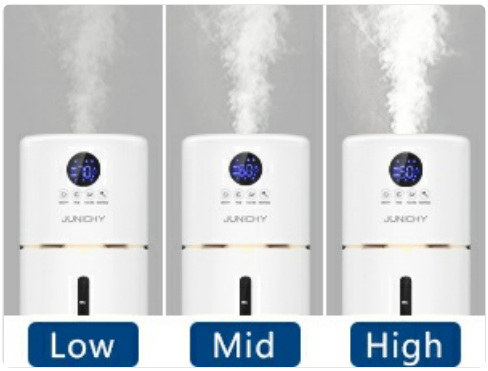

Image: Three humidifiers demonstrating the visual difference in mist output for Low, Mid, and High settings.

Night Light

The soothing night light provides a soft glow. It can be turned on or off via the remote control.

Image: A lightbulb icon next to the humidifier, indicating the presence of a night light feature.

Maintenance

Cleaning and Care

- **Daily Cleaning:** Empty the water tank daily and wipe it dry to prevent mineral buildup.
- **Weekly Cleaning:** For thorough cleaning, lift the top section off the base. The wide tank opening allows for easy access. Wipe down all surfaces with a soft cloth.
- **Ceramic Filter:** The ceramic stone filter does not require replacement. Clean it periodically by rinsing under running water.
- **Essential Oil Box:** Clean the essential oil pad as needed to prevent residue buildup.

Image: A hand reaching into the wide opening of the humidifier tank with a cloth, illustrating the ease of cleaning.

Troubleshooting

Problem	Possible Cause	Solution
No Mist Output	Low water level; Unit not plugged in; Mist nozzle blocked.	Refill water tank; Check power connection; Clean mist nozzle.
Unusual Noise	Unit not on a flat surface; Water tank not properly seated.	Place on a stable surface; Re-seat the water tank.
Water Leakage	Tank not properly sealed; Overfilled tank.	Ensure tank is correctly assembled; Do not overfill.

Technical Specifications
