SEHNLICH FLASH-V1-BLACK

SEHNLICH LED Rechargeable Flashlight (FLASH-V1-BLACK) User Manual

Model: FLASH-V1-BLACK | Brand: SEHNLICH

INTRODUCTION

The SEHNLICH LED Rechargeable Flashlight is designed to provide powerful and reliable illumination for various applications, from outdoor adventures to emergency situations. With its robust construction, high brightness, and convenient features, this flashlight is an essential tool for everyday carry.

Key Features:

- **Superior Brightness and Distance:** Delivers 1250 lumens with a beam distance of up to 270 yards (246 meters).
- **Rugged and Waterproof Design:** Constructed from A6063-T6 aluminum with a HAIII hard-anodized anti-abrasive coating and an IP68 waterproof rating.
- **Compact, Lightweight, and Durable:** Features an anti-slip, anti-roll housing and a removable pocket clip for easy portability.
- **Rechargeable for Efficiency and Convenience:** Equipped with a waterproof USB Type-C charging port and an LED battery level indicator.
- **5 Brightness Levels with Smart Memory Feature:** Automatically recalls your last brightness setting for quick access.

SETUP

1. Battery Installation

1. Unscrew the tail cap of the flashlight.
2. Insert the included 18650 Lithium Ion battery with the positive (+) end facing towards the flashlight head.
3. Securely screw the tail cap back on.

2. Initial Charging

Before first use, fully charge the flashlight to ensure optimal performance.

RECHARGEABLE

Battery level light is red while charging,
green - fully charged

OPERATING INSTRUCTIONS

Power On/Off

Press the power button located on the side of the flashlight to turn it on or off.

Brightness Modes

The flashlight features 5 brightness levels. While the flashlight is on, short press the power button to cycle through the modes: Low → Medium → High → Turbo → Strobe. The smart memory function will recall the last used brightness setting when the flashlight is turned on again.

Battery Level Indicator

The LED indicator near the charging port shows the battery level:

- Green: Fully charged or high battery.
- Red: Charging or low battery.

Maintenance

Charging

To charge the flashlight, open the waterproof cover of the USB Type-C port and connect it to any compatible USB power source (e.g., phone adapter, power bank). The LED indicator will show red during charging and turn green when fully charged. Charging typically takes 2-3 hours.

Cleaning

Wipe the flashlight body with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure the USB Type-C port cover is securely closed to maintain its IP68 waterproof rating.

Storage

Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, it is recommended to charge the battery periodically to maintain its health.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Flashlight does not turn on.	Low or depleted battery.	Charge the battery fully.
	Battery inserted incorrectly.	Ensure the battery's positive (+) end faces the head.
	Loose tail cap.	Tighten the tail cap securely.
Light is dim or flickers.	Low battery.	Recharge the battery.

Problem	Possible Cause	Solution
	Dirty contacts.	Clean battery and flashlight contacts with a cotton swab.
Flashlight not charging.	USB cable or power source issue.	Try a different USB cable or power adapter.
	Charging port obstruction.	Check the USB-C port for debris and clear if necessary.
