## SAFETY INFORMATION

---

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always assemble the product strictly according to the provided instructions.
- Ensure the umbrella's weighted base is fully filled (180 lbs when filled with sand) to prevent tipping, especially in windy conditions.
- Keep all small parts and assembly hardware away from children to prevent choking hazards.
- Do not exceed the specified weight capacity for the dining table (180 lbs/80 kg) and each armchair (400 lbs/180 kg).
- Regularly inspect all connections and fasteners to ensure they remain tight and secure.

## COMPONENTS AND PARTS LIST

---

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support.

## SETUP AND ASSEMBLY

The Tangkula patio dining set is delivered in multiple boxes (typically 5). Assembly is required for the table, chairs, and

umbrella base. It is recommended to have at least two people for assembly.

### Chair Assembly:

Each armchair requires assembly. Follow the specific instructions provided in the chair assembly manual. Ensure all screws are tightened securely, but do not overtighten to avoid damaging the rattan or wood components.

## Rustic Acacia Wood

### Table Assembly:

Assemble the dining table according to the separate instructions. Pay attention to the orientation of the legs and the tabletop to ensure proper alignment. The table includes a 1.96-inch umbrella hole designed to perfectly fit the provided umbrella pole.

### Umbrella and Base Assembly:

The umbrella base requires assembly and filling for stability. The base is designed to be filled with sand, weighing 180 lbs

when fully filled. This weight is crucial for preventing the umbrella from tipping over.

1. First, assemble the metal frame of the umbrella base.
2. Place two fully filled sandbags (sand not included) into the proper position within the base.
3. Finally, add the external cover to enclose the sandbags and complete the base assembly.

## OPERATING INSTRUCTIONS

### Using the Double-Sided Umbrella:

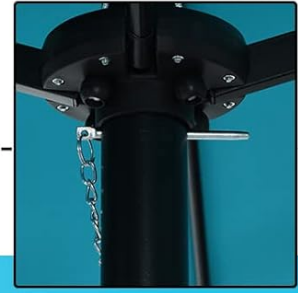

The 15-foot double-sided umbrella provides extensive shade. To open and close the umbrella, use the crank mechanism located on the pole. Ensure the umbrella is fully open and secured with the safe metal stopper before use. When not in use or during strong winds, always close the umbrella and secure it with the convenient fixation strap to prevent damage.

## MAINTENANCE

Proper maintenance will extend the life and appearance of your patio dining set.

- **Cleaning:** Wipe surfaces with a dry cloth for general cleaning. For more thorough cleaning, wipe with a damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the rattan, wood, or fabric.
- **Cushion Care:** The cushion covers are removable and washable. Follow the care instructions on the cushion label. Allow cushions to dry completely before storing or re-attaching to prevent mildew.
- **Wood Care:** The acacia wood components (tabletop and armrests) may benefit from periodic treatment with wood oil to maintain their appearance and protect against weathering, especially if exposed to direct sunlight and rain for extended periods.
- **Rattan Care:** Clean PE rattan with mild soap and water. Rinse thoroughly and allow to air dry.
- **Winter Storage:** During off-season or prolonged periods of non-use, especially in harsh weather conditions, it is

recommended to store the furniture indoors or cover it with a weather-resistant furniture cover to protect it from extreme temperatures and moisture.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your patio dining set.

Problem	Possible Cause	Solution
Screws do not fit or align during assembly.	Misalignment of parts; manufacturing tolerance.	Ensure parts are correctly oriented as per instructions. Apply gentle pressure or slightly adjust alignment. If persistent, contact customer support for replacement parts.
Umbrella is unstable or tips over.	Umbrella base not sufficiently weighted; strong winds.	Ensure the umbrella base is fully filled with sand (180 lbs). Close the umbrella during strong winds or when not in use.
Wood components (tabletop, armrests) show signs of aging or warping.	Prolonged exposure to sun and rain without protection.	Regularly apply a suitable outdoor wood sealant or oil. Consider using a furniture cover when not in use or during harsh weather.
Rattan appears to be flaking or deteriorating.	Exposure to extreme weather; physical damage.	Ensure proper storage or covering during off-season. Avoid sharp objects that could damage the rattan.
