saschedross AC Adapter

AC Adapter User Manual

Model: AC Adapter for Audiobox ABX-214R

Brand: saschedross

PRODUCT OVERVIEW

This document provides essential information for the safe and effective use of your saschedross AC Adapter, designed as a replacement power supply for the Audiobox ABX-214R portable speaker and similar compatible devices. Please read this manual thoroughly before use.

Figure 1: The saschedross AC Adapter, showing the main unit and the 2-pin connector cable.

SETUP AND INSTALLATION

The AC adapter is designed for straightforward plug-and-play operation. Follow these steps for proper setup:

1. **Verify Compatibility:** Ensure your device, such as the Audiobox ABX-214R speaker, requires a 9VDC power supply and has a compatible 2-pin input port. This adapter is specifically designed for devices requiring 110 Volts (AC) input.
2. **Connect to Device:** Insert the 2-pin connector of the AC adapter firmly into the power input port of your Audiobox ABX-214R speaker or other compatible device.
3. **Connect to Power Outlet:** Plug the AC adapter's main plug into a standard 110V AC wall outlet. Ensure the outlet is functioning correctly.
4. **Power On Device:** Once connected, power on your device as per its own operating instructions. The adapter will begin supplying power or charging the device's battery.

Figure 2: The compact design of the AC adapter allows for easy portability.

OPERATING INSTRUCTIONS

The AC adapter functions by converting household AC power to the DC power required by your compatible device. No specific operational steps are required for the adapter itself beyond proper connection.

- **Continuous Power:** The adapter provides continuous power to your device when plugged into an active outlet.

- **Battery Charging:** If your device has a rechargeable battery (e.g., 7.4V 3600mAh Li-ion battery in the Audiobox ABX-214R), the adapter will facilitate charging. The charging status is typically indicated by your device's own indicators.

MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your AC adapter, follow these maintenance guidelines:

- **Keep Dry:** Avoid exposing the adapter to moisture, rain, or liquids.
- **Temperature:** Store and operate the adapter within normal room temperatures. Avoid extreme heat or cold.
- **Cable Care:** Do not bend, twist, or pull the cable excessively. Always grasp the plug when disconnecting from the wall outlet or device.
- **Inspection:** Periodically inspect the adapter and its cable for any signs of damage, such as frayed wires, cracks, or loose connections. Discontinue use if damage is observed.
- **Cleaning:** Disconnect the adapter from power before cleaning. Use a dry, soft cloth to wipe the surface. Do not use liquid cleaners.

TROUBLESHOOTING

If you encounter issues with your AC adapter, consider the following troubleshooting steps:

- **No Power to Device:**
 - Ensure the adapter is securely plugged into both the wall outlet and your device.
 - Test the wall outlet with another known working appliance to confirm it has power.
 - Check the adapter's cable and connector for any visible damage.
- **Device Not Charging (Battery-Powered Devices):**

Note: Rechargeable batteries typically last 1 to 3 years. If a battery is old or depleted, it may not charge, but this isn't necessarily the charger's fault.

 - To determine if the charger is working, use a voltmeter to check the output voltage of the adapter. It should provide approximately 9VDC.
 - If the adapter provides the correct voltage, the issue may lie with the device's battery or internal charging circuit.

SPECIFICATIONS

Detailed technical specifications for the saschedross AC Adapter:

Feature	Detail
Brand	saschedross
Manufacturer	Shenzhen Waweis Technology Co., Ltd
Connectivity Technology	Powerline
Connector Type	2-Pin
Compatible Devices	Audiobox ABX-214R ABX214R 7.4V 3600mAh Li-ion Battery Dual 12" PA Loud Deep Bass Portable Party Karaoke Speaker 9VDC
Included Components	2 x AC Adapter (as per product listing)
Special Feature	High Quality

Color	Black
Input Voltage	110 Volts (AC)
Number of Items	1 (This manual refers to a single adapter, though the product listing may include two)
Cable Length	Approximately 6.5 ft (2 meters)
Dimensions (Approx.)	2.7 in (Height) x 1.2 in (Width) x 1.6 in (Depth)
