## Loop en-ex-slv-03

# Loop Experience 2 Ear Plugs Instruction Manual

Model: en-ex-slv-03

## 1. INTRODUCTION

---

The Loop Experience 2 Ear Plugs are designed to provide certified hearing protection while maintaining sound clarity. These high-fidelity earplugs offer 17 dB (SNR) of filtered noise reduction, making them suitable for environments such as concerts, festivals, live events, and nightlife. They are engineered to reduce overall volume without compromising the quality of the audio experience.

## 2. WHAT'S IN THE BOX

---

Your Loop Experience 2 Ear Plugs package includes:

- 1 set of Loop Experience 2 earplugs
- 4 sets of silicone ear tips (sizes XS, S, M, L - Medium comes pre-installed)
- 1 portable and convenient keychain Carry Case

Figure 2.1: Contents of the Loop Experience 2 Ear Plugs package, including the earplugs, various ear tip sizes, and the carrying case.

### 3. SETUP AND FITTING

Proper fitting is essential for optimal noise reduction and comfort. The Loop Experience 2 earplugs are designed to sit securely within your ear canal without protruding from the front.

#### 3.1 Choosing the Right Ear Tip Size

The package includes four sizes of silicone ear tips (XS, S, M, L). Experiment with each size to find the one that provides a snug, comfortable fit and effective seal. If the earplugs feel loose or do not provide sufficient noise reduction, try a larger size. If they feel uncomfortable or stick out, try a smaller size.

#### 3.2 Inserting the Earplugs

1. Gently pull your earlobe upwards and outwards to open the ear canal.
2. Insert the earplug into your ear canal.
3. Twist the earplug gently until it feels secure and comfortable. The circular outer ring should sit flush with the opening of your ear canal.

# Find your perfect fit

## 1. Insert and twist

Loop earplugs should never stick out or be visible from the front.

## 2. Try all ear tip sizes

Sticking out or uncomfortable?  
Try a smaller size.

Don't feel secure?  
Go a size up.

## 4. OPERATING AND USAGE

The Loop Experience 2 Ear Plugs are designed for environments where you need to reduce noise levels without sacrificing sound quality. The integrated acoustic channel and mesh filter work together to lower the volume by 17 dB (SNR), ensuring music and conversations remain clear and crisp.

### 4.1 Key Features

- **Filtered Noise Reduction:** Reduces sound by 17 dB (SNR) while maintaining sound fidelity.
- **Comfortable Fit:** Designed to stay in place during movement, with multiple ear tip sizes for customization.
- **Reusable:** Durable materials allow for repeated use and easy cleaning.

## 5. MAINTENANCE AND CLEANING

To ensure the longevity and hygiene of your Loop Experience 2 Ear Plugs, regular cleaning is recommended. The earplugs are designed to be reusable and easy to maintain.

### 5.1 Cleaning Instructions

- Gently remove the silicone ear tips from the earplug body.
- Wash the silicone ear tips with mild soap and warm water.
- Wipe the earplug body with a soft, damp cloth. For a more thorough cleaning, you may use an alcohol wipe.
- Ensure all components are completely dry before reassembling and storing.

Store your earplugs in the provided keychain carry case when not in use to protect them from dust and damage.

## 6. TROUBLESHOOTING

While the Loop Experience 2 Ear Plugs are designed for ease of use, here are some common issues and solutions:

- **Insufficient Noise Reduction:** Ensure you have selected the correct ear tip size for a snug seal. The earplug should not feel loose. Try a larger tip size if noise reduction is inadequate.
- **Discomfort:** If the earplugs feel uncomfortable or cause pressure, try a smaller ear tip size. Ensure they are inserted correctly and not pressing against your ear canal too tightly.
- **Earplugs Falling Out:** This often indicates an incorrect tip size. Try a larger ear tip size to ensure a more secure fit within the ear canal.
- **Muffled Sound:** While designed for clarity, ensure the earplugs are clean and free from debris that might obstruct the acoustic channel.

For further assistance, please refer to the support information in Section 8.

## 7. SPECIFICATIONS

Feature	Detail
Product Dimensions	3.07 x 3.07 x 0.75 inches
Item Model Number	en-ex-slv-03
Manufacturer	Loop
Item Weight	30 Grams (1.06 ounces)
Material Type	Acrylonitrile Butadiene Styrene, Silicone
Noise Attenuation	17 dB (SNR)
Reusability	Reusable
Color	Silver
Recommended Uses	Hearing Protection

## 8. WARRANTY AND SUPPORT

Loop Experience 2 Ear Plugs come with a standard return policy allowing for refunds or replacements within 30 days of purchase. For detailed warranty information and support, please refer to the official Loop website or contact customer service.

You can also scan the QR code included in your packaging for step-by-step guidance and warranty details.

**Choking Hazard Warning:** This product contains small parts and may present a choking hazard for children under 3 years of age. Keep out of reach of young children.
