- **Tablet not powering on:** Ensure the tablet is charged. Connect it to the charger and wait a few minutes before attempting to power on again. If it still doesn't turn on, try holding the power button for 10-15 seconds.
- **Slow performance:** Close background applications, clear cache, restart the tablet, or free up storage space. Consider performing a factory reset if issues persist (back up data first).
- **Wi-Fi/Bluetooth connectivity issues:** Ensure Wi-Fi/Bluetooth is enabled. Restart the tablet and your router/Bluetooth device. Forget the network/device and reconnect.
- **Apps crashing or freezing:** Clear the app's cache and data (Settings > Apps > [App Name] > Storage > Clear cache/Clear data). Reinstall the app if necessary.
- **Battery draining quickly:** Reduce screen brightness, disable unnecessary background apps, turn off Wi-Fi/Bluetooth/GPS when not in use, and limit push notifications.
