Installation Guide

The Aquonderful Smart Bidet Toilet Seat is designed for easy DIY installation. Please follow these steps carefully. An electrical outlet is required near the toilet for operation.

Pre-Installation Checklist:

- Ensure your toilet is compatible (Elongated shape, refer to dimensions in Figure 4).
- Confirm an electrical outlet is available within reach of the bidet's power cord.
- Turn off the water supply to your toilet before beginning installation.

Installation Steps:

1. **Remove Fixing Plate:** Detach the fixing plate from the bidet seat by pressing the release button and sliding it off.
2. **Assemble Accessories:** Secure the mounting plate to your toilet bowl using the provided screws, gaskets, steel discs, and anchoring rubber. Ensure it is firmly in place.
3. **Install Toilet Bidet:** Carefully slide the bidet seat onto the mounted fixing plate until it clicks securely into position.
4. **Connect Hoses:** Connect the three-way valve to your toilet's water supply line. Then, connect the PE pipe from the bidet seat to the three-way valve. Use pipe thread tape on all connections to prevent leaks.
5. **Restore Water and Power:** Turn the water supply back on and check for any leaks. Plug the bidet seat into the electrical outlet.

Operating Instructions

The Aquonderful Smart Bidet Toilet Seat offers intuitive controls for a personalized experience. All primary functions are accessible via the wireless remote control.

Remote Control Functions:

- **Stop/Power:** Turns the unit on/off and stops current operations.
- **Rear Wash:** Activates the rear cleansing function.
- **Bidet Wash:** Activates the front cleansing function for feminine hygiene.

- **Drying:** Initiates the warm air drying cycle.
- **Kids Mode:** Provides a gentle wash and dry cycle suitable for children.
- **Auto Mode:** Automatically performs a pre-set wash and dry cycle.
- **Strength +/-:** Adjusts water pressure and air dryer intensity.
- **Backward/Forward:** Adjusts the nozzle position for optimal cleansing.
- **Water Temp:** Controls the temperature of the wash water (cold, warm, hot).
- **Seat Temp:** Adjusts the heated toilet seat temperature.
- **Drying Temp:** Adjusts the temperature of the warm air dryer.
- **Lighting:** Toggles the LED night light on/off.
- **ECO Mode:** Activates energy-saving mode.
- **Turbo Wash:** Provides a powerful, concentrated wash.

The bidet seat features an LCD display showing the current water temperature (e.g., 40°C) and a night light for visibility in the dark. A skin sensor ensures that wash functions only activate when a user is seated.

Maintenance

Regular maintenance ensures the longevity and optimal performance of your Aquonderful Smart Bidet Toilet Seat.

- **Cleaning:** Use a soft, damp cloth and mild, non-abrasive cleaner to wipe down the exterior surfaces. Avoid harsh chemicals or abrasive materials that could damage the finish.
- **Nozzle Cleaning:** The stainless steel nozzle has a self-cleaning function. For deeper cleaning, gently pull out the nozzle and clean it with a soft brush and mild soap. Ensure the nozzle retracts fully after cleaning.
- **Filter Maintenance:** Periodically check the water inlet filter for any debris. If clogged, turn off the water supply, disconnect the hose, and clean the filter screen.
- **Long-Term Storage:** If the bidet seat will not be used for an extended period, drain the water from the unit and disconnect it from the power supply.

Troubleshooting

If you encounter issues with your Aquonderful Smart Bidet Toilet Seat, refer to the common problems and solutions below. For persistent issues, please contact customer support.

Problem	Possible Cause	Solution
No water spray / Weak spray	Water supply valve closed; clogged nozzle; low water pressure.	Ensure water supply valve is fully open. Clean the nozzle. Check household water pressure.
Heated seat not working	Power not connected; seat sensor not activated; heating element issue.	Ensure unit is plugged in and power is on. Ensure you are properly seated to activate the sensor. If issue persists, contact support.
Remote control not responding	Dead batteries; remote out of range; interference.	Replace batteries in the remote. Ensure remote is within operating range. Remove any obstructions.
E7 Error / Purple blinking light	Internal heating element malfunction or other internal error.	This indicates a significant internal error. Disconnect power, wait a few minutes, then reconnect. If the error persists, contact Aquonderful customer support immediately.

Specifications

- **Model:** 225
- **Color:** White
- **Brand:** Aquonderful
- **Material:** Acrylonitrile Butadiene Styrene (ABS)
- **Style:** Contemporary
- **Shape:** Elongated
- **Product Dimensions:** 20"L x 15.91"W
- **Item Weight:** 10 Pounds
- **Operation Mode:** Automatic
- **Power:** Requires electrical outlet (Batteries for remote: Yes, Batteries for unit: No)
