PANTAZO US-PA905-X

PANTAZO Dog Ramp User Manual

Model: US-PA905-X

Brand: PANTAZO

1. INTRODUCTION

Thank you for choosing the PANTAZO Adjustable Dog Ramp. This ramp is designed to provide a safe and comfortable way for your small to medium-sized dogs to access elevated surfaces such as beds and sofas, reducing strain on their joints. Its adjustable height, non-slip surface, and safety features make it an ideal solution for pets, especially elderly or injured ones.

2. KEY FEATURES

- **Adjustable Height:** The ramp can be adjusted to 6 different heights: 3.2", 13.8", 19.0", 23.0", 26.1", and 28.5". This versatility allows it to be used with various furniture heights, including sofas and beds.
- **Detachable Safety Rails:** Equipped with 5 detachable safety side rails to guide and protect your pet, preventing accidental falls.
- **Non-Slip Surface:** Features a non-slip, rubber carpet material mat that provides excellent traction for your pet, minimizing slips and falls.
- **Enhanced Stability:** Includes wooden blocks and ropes to securely fix the ramp to the furniture (e.g., sofa or bed feet), preventing shaking and ensuring stability. The triangular design and horizontal support further enhance stability.
- **Durable Construction:** Made from solid wood material, designed to support pets up to 120 lbs.
- **Portable & Easy Storage:** The ramp is foldable, allowing for convenient storage under beds or sofas when not in use, saving space.

3. SAFETY INFORMATION

To ensure the safety of your pet and the longevity of the ramp, please observe the following guidelines:

- Always ensure the ramp is placed on a stable, level surface.
- Before each use, verify that all adjustable components are securely locked into place.
- Utilize the included wooden blocks and ropes to fasten the ramp to your furniture (bed frame, sofa leg) to prevent movement or tipping.
- Supervise your pet during initial uses to ensure they are comfortable and confident using the ramp.
- Do not exceed the maximum weight capacity of 120 lbs.
- Regularly inspect the ramp for any signs of wear, damage, or loose parts. Discontinue use if any damage is found and contact customer support.
- Ensure the chosen height adjustment provides a gentle enough incline for your pet, especially for those with joint issues.

Avoid Injury

- ✗ Too high height, affecting the joints
- ✗ Not friendly to older pets
- ✗ Multiple hidden dangers

More Stable & Safe

- ✓ Multiple height adjustments to reduce stress on joints
- ✓ Triangular design for more stability
- ✓ Horizontal support at the end, not easy to tip over

Image: Visual comparison showing the risk of injury from jumping versus the safety provided by using the ramp.

4. SETUP AND ASSEMBLY

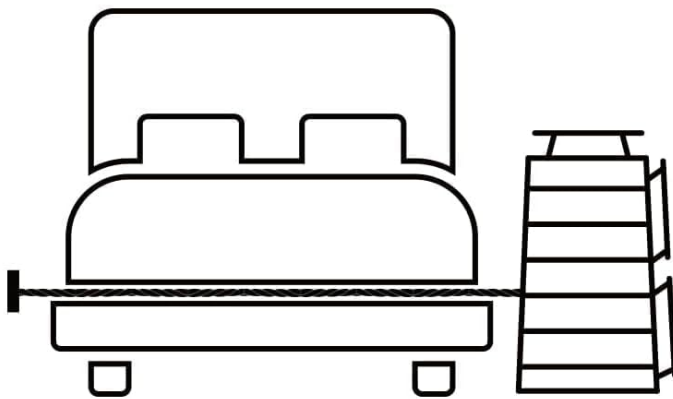

The PANTAZO Dog Ramp comes largely pre-assembled for your convenience. Follow these steps for quick setup:

1. **Unpack the Ramp:** Carefully remove the ramp from its packaging.
2. **Unfold the Ramp:** Gently unfold the ramp to its extended position.
3. **Adjust Height:** Locate the adjustable support mechanism on the underside of the ramp. Lift the ramp slightly and slide the support bar into the desired height slot. There are 6 height options available. Ensure the support bar is fully seated in the chosen slot for stability.
4. **Attach Safety Rails:** Insert the 5 detachable safety side rails into the pre-cut holes along the sides of the ramp. Ensure they are firmly in place.
5. **Secure the Ramp:** Use the provided wooden blocks and ropes to secure the base of the ramp to the legs or frame of your bed or sofa. This prevents the ramp from shifting during use. Refer to the "Wood block fastening" image for guidance.

Setup Video Guide:

Video: A comprehensive guide demonstrating the unboxing, assembly of guard rails, height adjustment, and securing the ramp for use.

Wood block fastening

Method 1:

Use wooden blocks to fix the bottom of the ladder and the feet of the sofa or bed to prevent shaking.

Method 2:

Pass the wooden block under the mattress and tie it to the ladder support frame to prevent shaking.

5. OPERATING INSTRUCTIONS

Once the ramp is set up and secured, you can begin training your pet to use it. Patience and positive reinforcement are key.

1. **Placement:** Position the pet ramp next to the couch or bed where your dog frequently rests or sleeps.
2. **Enticement:** Place your pet's favorite treats or toys on the ramp, gradually moving them closer to the top.
3. **Ascending Training:** Gently encourage your pet to climb up the ramp. Use verbal cues and positive reinforcement (praise, treats) as they make progress. Guide them if necessary, but allow them to explore at their own pace.
4. **Descending Training:** Once comfortable ascending, train your pet to walk down the ramp. Again, use treats and praise to encourage them. This helps them form muscle memory for safe use.
5. **Consistency:** Use the ramp consistently for all access to the elevated surface. This reinforces the behavior and makes it a natural habit for your pet.

6. MAINTENANCE

Proper maintenance will extend the life of your PANTAZO Dog Ramp:

- **Cleaning:** Wipe down the wooden frame with a damp cloth as needed. For the non-slip carpet surface, use a pet-safe cleaner or a mild soap solution and a brush to remove dirt and pet hair. Allow to air dry completely before next use.
- **Inspection:** Periodically check all screws, joints, and adjustable mechanisms to ensure they are tight and functioning correctly. Tighten any loose screws.
- **Storage:** When not in use for extended periods, fold the ramp flat and store it in a dry place, away from direct sunlight or extreme temperatures. It can be conveniently stored under a bed or sofa.

PROTECTS DOGS' JOINTS

Makes it easier for them to climb on or off the bed/sofa to be close to you

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Ramp feels unstable or wobbly.	Adjustable support not fully engaged; Ramp not secured to furniture; Loose screws.	Ensure the adjustable support bar is fully seated in its slot. Use the wooden blocks and ropes to fasten the ramp to the furniture. Check and tighten all screws.
Pet is hesitant to use the ramp.	Fear or unfamiliarity; Incline is too steep; Non-slip surface needs cleaning.	Refer to the "Operating Instructions" for training tips, using treats and positive reinforcement. Adjust the ramp to a lower, less steep height. Clean the non-slip surface to ensure maximum grip.

Problem	Possible Cause	Solution
Pet slips on the ramp.	Non-slip surface is dirty or worn; Incline is too steep.	Clean the non-slip carpet thoroughly. If the carpet is significantly worn, consider contacting customer support for replacement options. Adjust the ramp to a less steep incline.

8. SPECIFICATIONS
