1. PRODUCT OVERVIEW

This manual provides instructions for the VECELO Twin Over Twin Bunk Bed with Trundle. This bunk bed system is designed to maximize space, offering two twin-sized sleeping surfaces and an additional pull-out trundle bed. Constructed from durable metal, it includes safety features such as full-length guardrails and integrated ladders. Please read all instructions carefully before assembly and use.

2. SAFETY INFORMATION

Always assemble the bed frame according to the provided instructions to ensure stability. Secure the bed frame to the wall using the provided anti-tipping hardware to prevent tipping. Be cautious when using the upper bunk to avoid falls, and keep the guardrails in place at all times. Handle all hardware and tools carefully during assembly to prevent injury.

- Ensure all bolts and screws are tightened securely before use.
- Do not allow children under 6 years of age on the upper bunk.
- Use only mattresses that meet the recommended dimensions and thickness to ensure guardrail effectiveness.
- Periodically check all connections and hardware for tightness.
- Do not use substitute parts. Contact customer support for replacement parts.

3. PRODUCT FEATURES

3.1. Twin Bunk Bed with Trundle

This bunk bed features a pull-out trundle bed underneath the bottom bunk, providing an additional sleeping space. This design is ideal for maximizing space in smaller rooms or for accommodating guests.

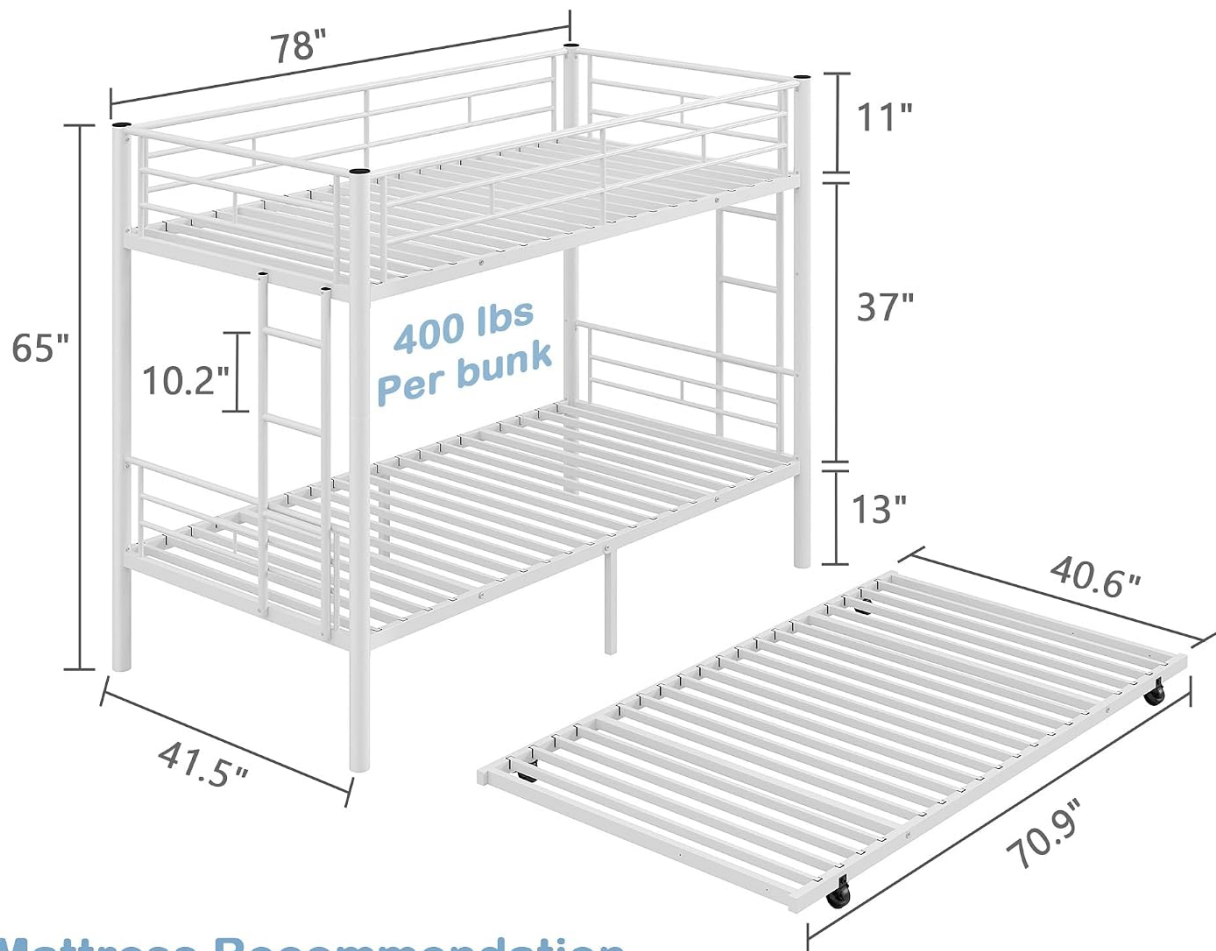

Image 3.1: The bunk bed with the trundle bed fully extended, ready for use.

3.2. Sturdy Metal Construction

Crafted from heavy-duty metal, this bunk bed is designed for durability and stability. It includes 20 metal slats for reliable mattress support. Anti-tipping accessories are provided to enhance stability and prevent wobbling.

3.3. Safety Guardrails and Ladders

The upper bunk is equipped with 11-inch high full-length guardrails to ensure safety and prevent accidental falls during the night. Two integrated side ladders provide convenient access to the top bunk.

Mattress Recommendation

Thickness: Less than 5"

The mattress surface of the upper bed must be at least **5" (127mm)** below the top edge of the guardrail.

Image 3.2: Detail of the full-length guardrail and one of the two side ladders.

3.4. Noise-Free Design

Custom plastic buckles are incorporated to securely fasten the slats, minimizing noise and movement for a quiet sleeping environment. The slats also ensure even weight distribution for mattress support.

3.5. Trundle with Brakes and Headboard/Footboard

The trundle bed is equipped with wheels that include brakes, allowing for flexible movement and secure positioning. Both the main beds feature headboards and footboards to prevent mattresses from sliding.

Safety Device

Fix it to the wall to ensure the bunk bed is more stable.

With Headboard & Footboard

Prevent the mattress from sliding for a comfortable sleep!

4. ASSEMBLY INSTRUCTIONS

The VECELO Twin Over Twin Bunk Bed with Trundle is designed for straightforward assembly. All necessary hardware and user-friendly instructions are included in the package. It is recommended to have at least two adults for assembly.

1. Unpack all components and verify against the parts list provided in your assembly kit.
2. Follow the step-by-step diagrams and instructions to connect the frame sections.
3. Attach the metal slats to both the upper and lower bunks, ensuring the plastic buckles are securely fastened.
4. Assemble the trundle bed frame and attach its wheels.
5. Secure the anti-tipping device to the wall as instructed to prevent accidental tipping.
6. Ensure all connections are tight before placing mattresses on the bed frames.

5. OPERATING INSTRUCTIONS

5.1. Using the Trundle Bed

To use the trundle bed, simply pull it out from underneath the lower bunk. The wheels allow for smooth movement. To secure the trundle in place, engage the brakes on the wheels. To store, disengage the brakes and push the trundle back under the main bed.

5.2. Using the Ladders

The bunk bed features two side ladders for easy access to the upper bunk. Always use the ladders to climb to and descend from the top bunk. Do not jump on or off the bunk bed.

6. MAINTENANCE

- **Cleaning:** Wipe down the metal frame with a damp cloth and mild detergent. Avoid abrasive cleaners that may damage the finish.
 - **Regular Checks:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten if necessary.
 - **Mattress Care:** Ensure mattresses are kept clean and dry. Rotate mattresses regularly to prolong their lifespan.
-

7. TROUBLESHOOTING

- **Wobbling Bed:** If the bed feels unstable, check all bolts and screws for tightness. Ensure the anti-tipping device is properly installed and secured to the wall.
 - **Noise from Slats:** Verify that all plastic buckles securing the slats are correctly in place and fully engaged.
 - **Trundle Not Moving Smoothly:** Check the trundle wheels for any obstructions or debris. Ensure the brakes are disengaged.
 - **Missing Parts:** If any parts are missing or damaged upon arrival, contact VECELO customer support immediately for assistance.
-

8. SPECIFICATIONS

Full-length Guardrail

11" height, increase security and prevent accidental falls.
