Aeitto CB23D

Aeitto Nugget Ice Maker Countertop User Manual

Model: CB23D

INTRODUCTION

This manual provides important information regarding the installation, operation, and maintenance of your Aeitto Nugget Ice Maker Countertop. Please read this manual thoroughly before using the appliance and retain it for future reference.

The Aeitto Nugget Ice Maker produces chewable nugget ice, also known as pebble ice or Sonic ice. This type of ice is known for its soft, chewable texture and ability to cool drinks quickly without melting as rapidly as crushed ice.

Image: Front view of the Aeitto Nugget Ice Maker Countertop, showing its stainless steel housing and a clear window displaying nugget ice inside. A glass with a blue drink and cherry is next to it.

Safety Instructions

Please observe the following safety precautions to reduce the risk of fire, electric shock, or injury:

- Ensure the ice maker is connected to a grounded power outlet.
- Do not immerse the appliance, power cord, or plug in water or other liquids.
- Keep the ice maker away from heat sources and direct sunlight.
- Supervise children when the appliance is in use.
- Unplug the ice maker before cleaning or when not in use for extended periods.
- Do not operate the appliance with a damaged cord or plug.
- Use only potable water in the ice maker.

WHAT'S IN THE BOX

Upon unpacking, please verify that all items listed below are present and undamaged:

- Nugget Ice Maker x 1
- Ice Scoop x 1
- Tray x 1
- Water Inlet Tube x 1
- Faucet Connector x 1

PRODUCT OVERVIEW

Familiarize yourself with the components and control panel of your ice maker.

Image: Close-up of the Aeitto Nugget Ice Maker's control panel, showing buttons for POWER, SOFT ICE, CLEAN, and indicator lights for POWER, ADD WATER, and FULL.

Control Panel Functions:

- **POWER Button:** Turns the ice maker on or off.
- **SOFT ICE Button:** (If applicable, not explicitly mentioned but implied by "Soft Ice" on panel) Adjusts ice softness.
- **CLEAN Button:** Initiates the self-cleaning cycle (hold for 3 seconds).
- **POWER Indicator:** Illuminates when the unit is powered on.
- **ADD WATER Indicator:** Illuminates when the water reservoir needs refilling.
- **FULL Indicator:** Illuminates when the ice basket is full.

SETUP

1. **Unpacking:** Remove all packaging materials and inspect the ice maker for any damage.
2. **Placement:** Place the ice maker on a stable, level surface, away from direct sunlight and heat sources. Ensure adequate ventilation around the unit.
3. **Initial Cleaning:** Before first use, it is recommended to clean the interior of the ice maker. Refer to the "Maintenance" section for detailed cleaning instructions.
4. **Power Connection:** Plug the ice maker into a grounded electrical outlet.

OPERATING INSTRUCTIONS

1. Adding Water:

Your Aeitto ice maker offers two methods for adding water:

- **Manual Refill:** Open the water reservoir lid and pour potable water directly into the reservoir until it reaches the MAX fill line.
- **Automatic Refill:** Connect the provided water inlet tube to the ice maker's water inlet port and to a suitable water source using the faucet connector. Ensure all connections are secure to prevent leaks.

2 Ways To Add Water

Manual Water Refill

Automatic Water Refill

Image: Illustration showing two methods of water refill: manual pouring into the top reservoir and automatic connection via a hose to a water source.

2. Starting Ice Production:

1. Ensure the water reservoir is filled.
2. Press the **POWER** button to turn on the ice maker. The POWER indicator light will illuminate.
3. The ice maker will begin the ice-making cycle. The first batch of nugget ice can be produced within approximately 5 minutes.

Rapid Ice Release

Release Ice In
5Mins **3X**
Faster Ice Release

Image: Dynamic illustration showing nugget ice rapidly being released from the ice maker, highlighting the "Release Ice In 5 Mins" and "3X Faster Ice Release" features.

3. Automatic Cycle Ice Production:

The ice maker features an automatic cycle ice production system. It will continuously make ice until the ice basket is full. An infrared sensor detects the ice level:

- When ice is above the infrared sensor, the machine will temporarily stop making ice.
- After approximately 30 minutes, if the ice level drops below the sensor (due to ice melting or removal), the machine will automatically resume ice production.

Note: The ice maker does not have a refrigeration function for storing ice long-term. It is recommended to transfer ice to a freezer for storage if not used immediately.

Auto Cycle Ice Making

Always Available

Always have ice ready for you, no need to wait to start.

Induction Infrared

Ice making stops when ice is above infrared and resumes after 30 minutes when it is below infrared.

Note: Ice maker has no refrigeration function. It is recommended to store ice in the refrigerator.

Image: Diagram illustrating the automatic cycle ice making process, showing an infrared sensor detecting ice levels and indicating that ice making stops when full and resumes when ice is low.

4. Ice Production Capacity:

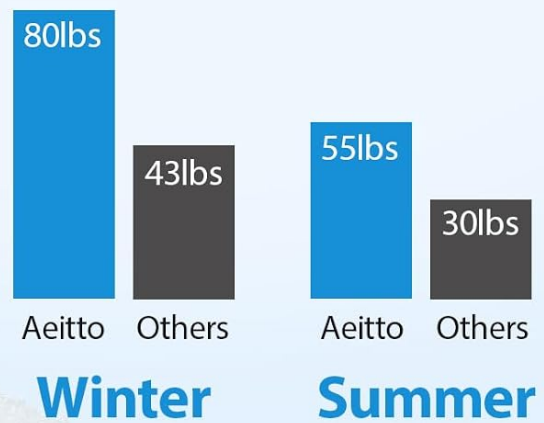

The ice maker has a strong ice production capacity, capable of producing up to 80 lbs per day in winter and 55 lbs per day in summer. The ice basket holds 3.3 pounds of nugget ice, and the reservoir has a 2.8-liter capacity.

Strong Ice-Making Capacity

Ice Making For 24 Hours
Increased By

83%

Data based on tests using different ice makers in a constant temperature environment.

Image: Bar chart comparing the ice-making capacity of the Aeitto ice maker (80lbs in winter, 55lbs in summer) against other brands, showing an 83% increase in 24-hour ice production.

5. Chewable Nugget Ice:

The Aeitto ice maker produces soft, chewable, and tooth-friendly nugget ice. This type of ice absorbs drink flavors well and provides a satisfying texture.

Chewable Soft Nugget Ice

Soft Nugget Ice

- ✓ Better Taste
- ✓ Tooth Friendly
- ✓ Faster Making

VS

- ✗ Difficult To Chew
- ✗ Hurt Tooth
- ✗ Slow To Make

Other Ice

Image: Comparison graphic showing soft nugget ice with mint leaves versus traditional hard ice cubes, highlighting benefits like better taste, tooth-friendliness, and faster making for nugget ice.

MAINTENANCE

Self-Cleaning Function:

To maintain the fresh taste of the ice and ensure hygiene, it is recommended to perform an automatic cleaning cycle at least once a week.

1. Ensure the water reservoir is filled with clean water.
2. Press and hold the **CLEAN** button for 3 seconds to activate the automatic cleaning function.
3. The machine will run a cleaning cycle. Once complete, drain the water from the reservoir and dry the interior.

Note: Descalers may be needed to remove limescale buildup, especially in areas with hard water. Follow the descaler product instructions for use.

Remove Limescale

Keep Healthy

Descalers are needed to remove limescale

Image: Diagram illustrating the auto-cleaning function of the ice maker, showing water circulating within the unit and icons representing ease of handling, fresh ice, limescale removal, and health benefits.

General Cleaning:

- Unplug the appliance before cleaning.
- Wipe the exterior with a soft, damp cloth.
- Remove the ice basket and wash it with mild soap and water. Rinse thoroughly.
- For the interior, use a diluted solution of vinegar and water or a food-grade cleaning solution. Rinse thoroughly with clean water.
- Ensure all parts are completely dry before reassembling and using the ice maker.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; power not connected; ambient temperature too high.	Fill water reservoir; check power connection; ensure unit is in a cool environment.
"ADD WATER" indicator is on.	Water reservoir is empty or low.	Refill the water reservoir.
"FULL" indicator is on.	Ice basket is full.	Remove ice from the basket.
Ice tastes strange or has an odor.	Unit needs cleaning; water quality issue.	Perform a self-cleaning cycle; use purified or filtered water.
Ice production is slow.	High ambient temperature; poor ventilation; mineral buildup.	Ensure proper ventilation; clean the unit to remove mineral buildup.

SPECIFICATIONS

Feature	Detail
Model Name	CB23D
Brand	Aeitto
Product Dimensions	13.2"D x 9.6"W x 15.8"H
Weight	34.2 Pounds
Ice Production Capacity	Up to 80 lbs/day (winter), 55 lbs/day (summer)
Ice Basket Capacity	3.3 Pounds
Water Reservoir Capacity	2.8 Liters
Wattage	240 watts
First Available Date	May 20, 2024

WARRANTY AND SUPPORT

Aeitto provides a one-year after-sales service for this ice machine. If you encounter any questions or issues with your product, please contact Aeitto customer support for assistance.

For support, please visit the official Aeitto website or refer to the contact information provided with your purchase documentation.
