Sprleaf Car Play Sreen with 4K Dash Cam

Sprleaf Wireless Car Play Screen with 4K Dashcam (9.26 Inch) User Manual

Model: Car Play Sreen with 4K Dash Cam

Brand: Sprleaf

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Sprleaf Wireless Car Play Screen with 4K Dashcam. This device integrates wireless Apple CarPlay and Android Auto functionality with a high-resolution dual camera system, offering enhanced connectivity and safety features for your vehicle.

WHAT'S IN THE Box

Verify that all components are present before proceeding with installation.

- 1 x CarPlay/Android Auto Screen with 4K Dash Camera (Included a 64GB card)
- 1 x 1080P Backup Camera and Rear Camera cable
- 1 x 9.8 ft Car Charger Cable
- 1 x 4.65ft Aux cable
- 1 x User Manual
- Wire Buckles
- Crowbar (for cable routing)

Crash Lock

Built-in Crash Lock for emergency locking the current file from being overwritten in case of collision.

Loop Recording

Automatically overwrite the oldest video and save the current one when the SD card is full.

Connectivity Technology	Wireless
Special Feature	Touch Screen
Video Capture Resolution	1080p, 4K/ 2.5K/ 1080P/ 720P
Mounting Type	Dashboard Mount or Windshield Mount
Color	Black
Control Method	App, Touch, Voice

SETUP AND INSTALLATION

The Sprleaf Car Play Screen is designed for easy installation in various vehicle types (cars, trucks, vans, buses, pickups) without modifying the car's console. You can choose between dashboard bracket or suction cup mounting.

Installation Steps:

- Mounting the Screen:** Secure the CarPlay screen to your dashboard using the provided bracket or suction cup mount. Ensure it does not obstruct your view or interfere with vehicle controls.
- Power Connection:** Connect the car charger cable to the screen and plug it into your vehicle's 12V power outlet.
- Rear Camera Installation:**
 - Mount the 1080P backup camera at the rear of your vehicle.
 - Route the rear camera cable from the back of the car to the CarPlay screen. Use the provided crowbar and wire buckles to neatly tuck away cables.
 - Connect the rear camera cable to the designated input on the CarPlay screen.
 - Connect a wire from the rear camera cable to your vehicle's reverse taillight. This enables automatic display of the rear image when shifting into reverse.
- Audio Connection (Optional):** Use the provided AUX cable to connect the screen to your car's AUX input for audio output, or utilize the FM transmitter function.

OPERATING INSTRUCTIONS

1. Wireless CarPlay / Android Auto Connection

The device supports wireless Apple CarPlay and Android Auto. After the initial setup, the device will auto-connect to your smartphone.

For Apple CarPlay:

1. Turn on Apple CarPlay on the device.
2. On your iPhone, turn on Wi-Fi and Bluetooth.
3. Find the device's Bluetooth name (e.g., "T86 xxxx") and connect.
4. Confirm the connection on your iPhone.

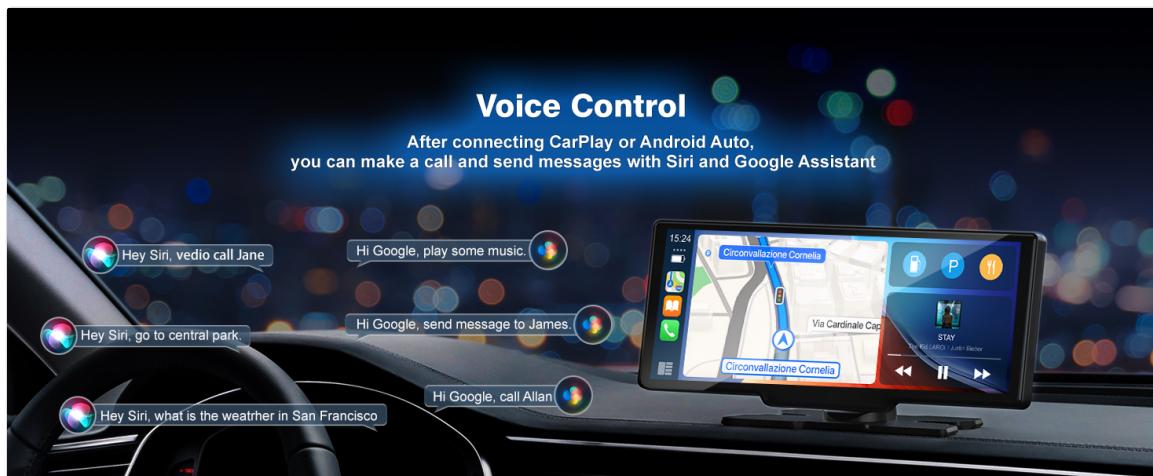

Image: Instructions for wireless Apple CarPlay connection.

For Android Auto:

1. Turn on Android Auto on the device.
2. On your Android phone, turn on Wi-Fi and Bluetooth.
3. Find the device's Bluetooth name (e.g., "T86 xxxx") and connect.
4. Confirm the connection on your Android phone.

2. Dual Camera System (4K Dashcam & 1080P Backup Camera)

The integrated dual camera system provides a front 4K dashcam and a waterproof HD 1080P rear camera for recording and parking assistance.

- **Front Dashcam:** Records in 4K resolution, capturing road details.
- **Rear Backup Camera:** Displays clear 1080P rear views on the 9.26-inch screen when reversing, with parking assistance lines.
- **Crash Lock:** Automatically locks the current video file to prevent overwriting in case of a collision.
- **Loop Recording:** Continuously records, overwriting the oldest files when the 64GB SD card is full.

UPGRADED DUAL CAMERA

4. Voice Control

After connecting CarPlay or Android Auto, utilize voice commands (Siri or Google Assistant) to make calls, send messages, navigate, and control music, allowing you to keep your hands on the wheel.

5. Audio Output Modes

The device offers multiple audio output options to integrate with your vehicle's sound system:

- **Bluetooth:** Connect wirelessly to your car's Bluetooth system.
- **AUX Input:** Use the provided 4.65ft AUX cable to connect to your car's auxiliary input.
- **FM Transmitter:** Transmit audio to your car's FM radio by tuning both devices to an unused FM frequency.
- **Built-in Speaker:** The device has its own built-in speaker for direct audio output.

Image: Four audio output options.

6. Screen Features

- **9.26-inch IPS Touch Screen:** Provides a clear, responsive display for all functions.
- **Automatic Brightness Adjustment:** Features a light-sensitive camera for auto-adjustment of screen brightness, enhancing safety during day and night driving.
- **Mirror Link:** Allows mirroring of your smartphone screen to the device.

Four Expressive Audio Channels

MAINTENANCE

To ensure the longevity and optimal performance of your Sprleaf Wireless Car Play Screen, follow these maintenance guidelines:

- Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents that could damage the surface.
- Temperature:** Avoid exposing the device to extreme temperatures (hot or cold) for extended periods, as this can affect battery life and screen performance.
- Cable Management:** Periodically check all cables for wear and tear. Ensure they are securely connected and not pinched or damaged.
- Software Updates:** Check the manufacturer's website or device settings for any available firmware updates to ensure optimal performance and access to new features.

TROUBLESHOOTING

If you encounter issues with your device, consider the following common solutions:

- No Power:** Ensure the car charger cable is securely plugged into both the device and the vehicle's 12V outlet. Check the vehicle's fuse for the power outlet.
- Connection Issues (CarPlay/Android Auto):**
 - Verify Wi-Fi and Bluetooth are enabled on your smartphone.
 - Forget the device in your phone's Bluetooth settings and re-pair.
 - Restart both your smartphone and the CarPlay screen.
- No Audio:**
 - Check the selected audio output mode (Bluetooth, FM, AUX, Speaker) on the device.
 - If using FM, ensure both the device and your car radio are tuned to the same, clear

frequency.

- If using AUX, ensure the cable is properly connected and your car's audio input is set to AUX.

- **Camera Not Displaying:**

- Ensure the camera cables are securely connected.
- For the backup camera, verify the connection to the reverse taillight is correct.

- **Screen Brightness:** Adjust the brightness settings on the device. If auto-brightness is enabled, ensure the light sensor is not obstructed.

WARRANTY AND SUPPORT

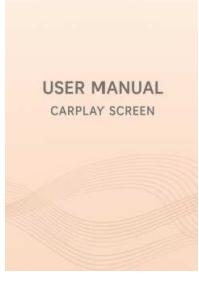

Sprleaf is committed to providing reliable products and customer satisfaction.

- **90-Day Guarantee:** Enjoy a 90-day guarantee for returns or exchanges with no questions asked.
- **Lifetime Support:** Sprleaf offers lifelong service for all its products.
- **24/7 Support:** Quick and professional responses are available anytime for your inquiries.

For further assistance, please refer to the contact information provided in your product packaging or visit the official Sprleaf website.
