TEMEIKE 4-IN-1 Portable Air Conditioner

Model: DL3

User Instruction Manual

PRODUCT OVERVIEW

The TEMEIKE 4-IN-1 Portable Air Conditioner (Model DL3) is a versatile evaporative air cooler designed to provide personal cooling and humidity control. It functions as an air cooler, humidifier, and fan, offering a comfortable environment without excessive drying. This unit is particularly effective in dry climates and is suitable for small to medium-sized areas.

Key features include multiple operating modes, adjustable fan speeds, a large water tank for extended cooling, and convenient control options via a touch panel and remote control. Its portable design with swivel wheels allows for easy relocation.

TROUBLESHOOTING

If you encounter any issues with your TEMEIKE Portable Air Conditioner, please refer to the following common troubleshooting steps:

- **Unit not turning on:** Ensure the power cord is securely plugged into a working outlet. Check if the power button on the control panel or remote is pressed.
- **No cooling effect:** Verify that the water tank is filled and the cooling mode is activated. Ensure ice packs are frozen and placed correctly. Check if the cooling pad is clean and properly installed.
- **Weak airflow:** Clean the cooling pad and check for any obstructions in the air inlets or outlets. Ensure the fan speed is set to your desired level.
- **Unusual noise:** Check if the unit is on a stable, level surface. Ensure no foreign objects are inside the unit or water tank.
- **Water leakage:** Ensure the water tank is correctly seated and not overfilled. Check for any cracks or damage to the tank.

For persistent issues, please contact customer support.
