# KARACA GRINDMAESTRO Filter Coffee Machine User Manual

Model: 1000152758001

## 1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation, maintenance, and troubleshooting of your KARACA GRINDMAESTRO Filter Coffee Machine. Please read this manual thoroughly before first use and retain it for future reference.

## 2. SAFETY INSTRUCTIONS

- Ensure the appliance is connected to a grounded power outlet with the correct voltage.
- Do not immerse the appliance, power cord, or plug in water or any other liquid.
- Keep the appliance out of reach of children.
- Unplug the coffee machine from the power outlet before cleaning and when not in use.
- Do not operate the appliance if the power cord or plug is damaged, or if the appliance malfunctions or has been damaged in any way.
- Use only cold, fresh water in the water tank.
- Avoid contact with hot surfaces. Use handles or knobs.
- Do not place the appliance on or near a hot gas or electric burner, or in a heated oven.

## 3. PRODUCT OVERVIEW

Familiarize yourself with the components of your KARACA GRINDMAESTRO coffee machine.

This image displays the front of the KARACA GRINDMAESTRO filter coffee machine, showcasing its stainless steel and black design, the control panel with four buttons, and the glass carafe visible through the front window.

A detailed view of the control panel, labeling each button: Coffee Powder Brewing Function, Coffee Bean Brewing Function for 1-2 persons (2 coffee spoons), Coffee Bean Brewing Function for 3-4 persons (4 coffee spoons), and On-Off Button.

### Key Components:

- Integrated Coffee Grinder
- Water Tank with Level Indicator
- Control Panel with One-Touch Buttons
- Removable Filter Basket
- Glass Carafe
- Heating Plate (for Keep-Warm Function)
- Anti-Drip System

## 4. SETUP

### 4.1 Unpacking

1. Carefully remove all packaging materials from the coffee machine.
2. Check that all parts are present and undamaged.

### 4.2 Initial Cleaning

1. Before first use, wash the removable filter basket and glass carafe with warm, soapy water. Rinse thoroughly

and dry.

2. Wipe the exterior of the appliance with a damp cloth.
3. Run two full cycles with only water (no coffee) to clean the internal components. Discard the water after each cycle.

### **4.3 Placement**

Place the coffee machine on a stable, flat, heat-resistant surface, away from water sources and heat. Ensure adequate ventilation around the appliance.

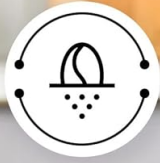

## **5. OPERATING INSTRUCTIONS**

---

### **5.1 Making Coffee with Whole Beans**

1. Fill the water tank with fresh, cold water up to the desired level, observing the water level indicator.
2. Open the lid of the integrated grinder and add whole coffee beans. For 1-2 cups, use approximately 2 coffee spoons of beans. For 3-4 cups, use approximately 4 coffee spoons of beans.
3. Place the removable filter basket into its position and ensure the glass carafe is correctly placed on the heating plate.
4. Plug the appliance into a power outlet.
5. Press the appropriate coffee bean brewing function button on the control panel (e.g., for 1-2 persons or 3-4 persons). The machine will automatically grind the beans and begin the brewing process.
6. Once brewing is complete, the machine will automatically switch to the keep-warm function.

Genießen Sie den Geschmack von frisch gebrühtem Kaffee dank der speziellen Kaffeebohnen-Mahlfunktion.

**Kaffeebohnen-  
Mahlfunktion**

The coffee machine is shown on a kitchen counter with fresh coffee beans and ground coffee, emphasizing its integrated coffee bean grinding function for fresh brewing.

A hand is shown pressing one of the control buttons on the KARACA GRINDMAESTRO, demonstrating the one-touch operation.

## 5.2 Making Coffee with Ground Coffee

1. Fill the water tank with fresh, cold water up to the desired level.
2. Add the desired amount of pre-ground coffee directly into the removable filter basket.
3. Ensure the glass carafe is correctly placed on the heating plate.
4. Plug the appliance into a power outlet.
5. Press the 'Coffee Powder Brewing Function' button on the control panel. The machine will begin brewing.
6. Once brewing is complete, the machine will automatically switch to the keep-warm function.

## Die automatische Abschaltfunktion bietet zusätzliche Sicherheit und spart Energie

This image highlights key features of the coffee machine: a keep-warm function (thermostat icon), an anti-drip system (water drop icon), and an automatic shut-off function (power icon).

## 6. CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and extends the lifespan of your coffee machine. Always unplug the appliance and allow it to cool completely before cleaning.

### 6.1 Daily Cleaning

1. Remove the glass carafe and wash it with warm, soapy water.
2. Remove the filter basket and discard any used coffee grounds. Wash the filter basket with warm, soapy water.
3. Wipe the exterior surfaces of the coffee machine with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.

### 6.2 Grinder Cleaning

To prevent blockages and ensure consistent grinding, regularly clean the integrated grinder. This may require careful removal of the top assembly. Consult the manufacturer's specific instructions for detailed grinder cleaning. Residual coffee grounds can be stubborn; using a small brush or a damp cloth (ensuring no water enters electrical components) can help. For stubborn residue, a small amount of water may be used to loosen grounds, but ensure

thorough drying before reassembly and use.

### 6.3 Descaling

Depending on water hardness, descaling may be required periodically (e.g., every 2-3 months). Use a commercial descaling solution suitable for coffee machines or a mixture of white vinegar and water (1:2 ratio). Follow the descaling product's instructions or run the solution through a brewing cycle without coffee, then rinse by running several cycles with fresh water.

## 7. TROUBLESHOOTING

If you encounter issues with your coffee machine, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Coffee does not brew.	No water in tank, machine not plugged in, power button not pressed.	Fill water tank, ensure plug is secure, press the On-Off button.
Coffee tastes weak.	Too little coffee, coarse grind, descaling needed.	Add more coffee, ensure correct grind setting (if adjustable), descale the machine.
Grinder not working.	No beans, grinder clogged, lid not properly closed.	Add beans, clean grinder thoroughly, ensure grinder lid is securely closed.
Water leaks from machine.	Water tank not seated correctly, overfilled water tank.	Ensure water tank is properly seated, do not overfill past max line.

If the problem persists after attempting these solutions, please contact customer support.

## 8. SPECIFICATIONS

Technical details for the KARACA GRINDMAESTRO Filter Coffee Machine (Model: 1000152758001).

**Brand:** KARACA

**Model Number:** 1000152758001

**Volume:** 0.56 Liters

**Power:** 600 W

**Material:** Stainless Steel

**Weight:** 3.24 Kilograms

**Dimensions (L x W x H):** 17 cm x 20 cm x 26.5 cm

**Special Features:** Integrated Coffee Grinder, Anti-Drip System, One-Touch Control, Removable Filter, Keep-Warm Function, Water Level Indicator

A side view of the coffee machine illustrating its dimensions: 26.5 cm height, 20 cm width, and 17 cm length. An icon for a 75 cm power cord is also shown.
