Keedal IAF-H-100C

Keedal IAF-H-100C Air Purifier Replacement Filter C Instruction Manual

1. PRODUCT OVERVIEW

The Keedal IAF-H-100C is a high-performance replacement filter designed for Idylis air purifiers. This filter system includes an H13 True HEPA filter and an Activated Carbon pre-filter, working together to improve indoor air quality by capturing various airborne particles and odors.

2. COMPATIBILITY

This replacement filter (IAF-H-100C) is compatible with the following Idylis air purifier models:

- **Idylis IAP-10-200 (IAP10200):** Requires two (2) Filter size C (IAF-H-100C).
- **Idylis IAP-10-280 (IAP10280):** Requires one (1) Filter size C (IAF-H-100C) and one (1) Filter size D (IAF-H-100D).

The product dimensions are approximately 6.75 inches x 11.75 inches x 1.5 inches. This filter is also comparable to old part numbers: 0302654, 302654, 0302655, 302655, 0302656, 302656, 0302650, 302650, 0412555, 412555, and LOWESRAPF-C-4.

3. PRODUCT FEATURES

The Keedal IAF-H-100C filter system is engineered to provide comprehensive air purification:

- **H13 True HEPA Filter:** This layer is designed to capture 99.97% of airborne particles as small as 0.3 microns. This includes fine dust, pet dander, pollen, and smoke particles.
- **Activated Carbon Pre-filter:** This pre-filter effectively absorbs common household odors such as pet odors, smoke, cooking smells, and adverse volatile organic compounds (VOCs). It also captures larger particles, which helps to extend the lifespan of the HEPA filter.

4. INSTALLATION AND REPLACEMENT

To ensure optimal performance of your air purifier, follow these general steps for filter replacement. Refer to your specific

Idylis air purifier manual for detailed instructions.

1. **Power Off:** Always unplug your air purifier from the power outlet before attempting any maintenance or filter replacement.
2. **Access Filter Compartment:** Locate and open the filter compartment on your Idylis air purifier. This usually involves removing a cover or panel.
3. **Remove Old Filters:** Carefully remove the used HEPA filter and carbon pre-filter. Dispose of them according to local regulations.
4. **Install New Filters:** Insert the new Keedal IAF-H-100C HEPA filter and carbon pre-filter into the designated slots. Ensure they are seated correctly and securely. Pay attention to the orientation of the filters as indicated by arrows or markings on the filter or purifier.
5. **Close Compartment:** Close the filter compartment cover or panel securely.
6. **Restore Power:** Plug the air purifier back into the power outlet.
7. **Reset Filter Indicator (if applicable):** If your air purifier has a filter replacement indicator, follow your device's instructions to reset it.

5. MAINTENANCE AND REPLACEMENT SCHEDULE

Regular filter replacement is crucial for maintaining the efficiency of your air purifier and ensuring clean air. Over time, filters accumulate particles and odors, which can reduce their effectiveness and potentially lead to secondary air pollution.

- **H13 True HEPA Filter:** It is recommended to replace the HEPA filter every 6-12 months.
- **Activated Carbon Pre-filter:** It is recommended to replace the carbon pre-filter every 3-6 months.

The actual replacement frequency may vary depending on air quality, usage duration, and the presence of pets or smokers in your environment.

6. SPECIFICATIONS

Brand	Keedal
Model Number	IAF-H-100C
Material Type	Activated Carbon Pre-filter, H13 True HEPA Filter
Product Dimensions	6.75"L x 11.75"W x 1.5"Th (approximate)
Compatible Devices	Idylis IAP-10-200, IAP10200, IAP-10-280, IAP10280
Item Weight	0.44 Kilograms (approximate)
Number of Items	Varies by package (e.g., 2 HEPA & 2 Carbon pre-filters)

7. TROUBLESHOOTING

If you notice a decrease in air purifier performance after replacing the filters, consider the following:

- **Filter Orientation:** Ensure the filters are installed in the correct direction. Check for arrows on the filter frame or within the air purifier's compartment.
- **Compartment Closure:** Verify that the filter compartment is fully closed and secured. Some air purifiers have safety switches that prevent operation if the compartment is not properly sealed.
- **Filter Indicator Reset:** Confirm that the filter replacement indicator (if present) has been reset according to your air purifier's instructions.
- **Airflow Obstruction:** Check for any obstructions around the air intake or output vents of the air purifier.

8. CUSTOMER SUPPORT

If you have any questions regarding the compatibility, installation, or performance of your Keedal IAF-H-100C replacement filters, please do not hesitate to contact our customer support. We are committed to providing assistance and ensuring your satisfaction.

For further assistance, please refer to the contact information provided with your purchase or visit the Keedal brand store online.
