GreenLife Nonstick 2-Piece Frying Pan Set (9.5" & 11") Instruction Manual

Model: CC008535-001

INTRODUCTION

This manual provides essential information for the safe and effective use of your GreenLife Nonstick 2-Piece Frying Pan Set. This set includes a 9.5-inch and an 11-inch skillet, both featuring our signature PFAS-free ceramic nonstick coating, sturdy die-cast bodies, and stay-cool, wood-print handles. Designed for versatility, these pans are suitable for all cooktops, including induction, gas, electric, halogen, and ceramic, and offer uniform heat distribution. The easy-release ceramic nonstick coating ensures effortless cooking and quick cleanup.

KEY FEATURES

- **2-Piece Set:** Includes a 9.5-inch frying pan and an 11-inch frying pan, suitable for various cooking needs from searing meats to preparing eggs.
- **Healthy Ceramic Nonstick Coating:** Derived from sand, this PFAS-free, PFOA-free, lead-free, and cadmium-free coating provides effortless food release and simplifies cleanup.
- **Induction Ready Base:** Features an innovative induction base for uniform heat distribution across all cooktops: induction, gas, electric, halogen, or ceramic.
- **Stay-Cool Wood-Print Handles:** Ergonomically designed handles provide a comfortable and secure grip, remaining cool during stovetop use.
- **Die-Cast Body:** Solid construction ensures extreme strength and quick, even heating.
- **Easy to Clean:** The nonstick surface allows for simple wiping or rinsing, saving water and energy.

SETUP

1. **Unpacking:** Carefully remove all packaging materials and labels from the frying pans.
2. **Initial Cleaning:** Before first use, wash the pans thoroughly with warm, soapy water and a soft sponge. Rinse well and dry completely.
3. **Conditioning (Optional but Recommended):** For optimal nonstick performance, lightly rub a small amount of cooking oil (e.g., vegetable, canola) onto the ceramic nonstick surface with a paper towel. Heat the pan over low heat for 30 seconds, then let it cool. Wipe off any excess oil. This step helps to maintain the nonstick properties.

OPERATING INSTRUCTIONS

- **Heat Settings:** Always use low to medium heat for cooking. High heat can damage the nonstick coating over time and is generally not necessary due to the pan's efficient heat distribution.
- **Suitable Cooktops:** These pans are compatible with all stovetops, including induction, gas, electric, halogen, and ceramic.
- **Utensils:** Use only wooden, silicone, or nylon utensils to protect the nonstick surface. Avoid metal utensils, as they can scratch and damage the coating.

- **Oil/Butter Use:** While the nonstick coating allows for cooking with minimal oil, a small amount of butter or oil can enhance flavor and browning. Avoid aerosol cooking sprays, as they can leave a residue that may affect nonstick performance.
- **Maximum Temperature:** The pans are safe for stovetop use up to 350°F (175°C). They are NOT oven safe.

DISHWASHER SAFE

MAINTENANCE AND CARE

- **Cleaning:** Hand washing is recommended to prolong the life of the nonstick coating. Use warm, soapy water and a soft sponge or cloth. For stubborn food residue, soak the pan in warm, soapy water for a few minutes before cleaning.
- **Dishwasher Use:** While the product description states "Is the item dishwasher safe?: Yes", hand washing is generally preferred for nonstick cookware to maintain its longevity and appearance. If using a dishwasher, use a mild detergent and avoid high-heat cycles.
- **Cool Down:** Always allow the pan to cool completely before washing to prevent warping and thermal shock to the nonstick surface.
- **Storage:** When storing pans, place a soft cloth or pan protector between them to prevent scratching the

nonstick surface.

- **Avoid Abrasives:** Do not use steel wool, abrasive scouring pads, or harsh chemical cleaners, as these can damage the nonstick coating.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Food sticking to the pan.	High heat, insufficient oil, or residue buildup from cooking sprays.	Use low to medium heat. Apply a small amount of cooking oil. Avoid aerosol cooking sprays. Re-condition the pan if necessary (see Setup).
Pan warping or deforming.	Sudden temperature changes (thermal shock) or excessive high heat.	Always allow the pan to cool completely before washing. Avoid using high heat settings.
Discoloration of the nonstick surface.	Overheating or residue buildup.	Ensure you are not using excessively high heat. Clean the pan thoroughly after each use.

SPECIFICATIONS

Feature	Detail
Brand	GreenLife
Model Number	CC008535-001
Material	Ceramic (Nonstick Coating), Die-Cast Aluminum (Body), Plastic (Handle)
Color	Granite Cream
Included Components	9.5" Frypan and 11" Frypan
Special Features	PFAS-Free, Nontoxic, Induction Suitable, Stay-Cool Wood-Print Handles, Even Heat Distribution
Compatible Devices	Electric Coil, Gas, Smooth Surface Induction, Halogen, Ceramic
