6. Maintenance

6.1. Cleaning the Screen

To clean the screen, gently wipe it with a soft, dry, lint-free cloth. For stubborn marks, lightly dampen the cloth with water or a screen-specific cleaning solution. Avoid using harsh chemicals, abrasives, or direct spraying of liquids onto the screen.

6.2. Cleaning the Cabinet

Wipe the TV cabinet with a soft, dry cloth. Do not use abrasive cleaners or solvents.

6.3. General Care

- Avoid placing the TV in direct sunlight or near heat sources.
- Ensure adequate ventilation around the TV.
- Unplug the TV during lightning storms or when it will be unused for extended periods.

7. Troubleshooting

If you encounter issues with your TV, refer to the following common solutions. If the problem persists, contact TCL customer support.

7.1. No Power

- Ensure the power cord is securely plugged into both the TV and a working wall outlet.
- Check if the power outlet is functional by plugging in another device.
- Press the power button on the TV itself, not just the remote, to rule out a remote issue.

7.2. No Picture or Poor Picture Quality

- Verify the correct input source is selected (e.g., HDMI 1, TV).
- Check all cable connections between the TV and external devices.
- Adjust picture settings (brightness, contrast, color) in the TV menu.
- If using an antenna, rescan for channels.

7.3. No Sound or Poor Sound Quality

- Ensure the volume is not muted and is turned up.
- Check audio cables if using external speakers or a soundbar.
- Adjust audio settings in the TV menu, such as sound mode or Enhanced Dialogue Mode.

7.4. Screen Flickering During Video Playback

Some TCL Fire TV models may experience screen flickering during video playback due to a software-related issue. A temporary resolution involves performing a 'Deep Power Drain':

1. Unplug the TV from the power outlet.
2. Press and hold the power button on the TV (not the remote) for 30 seconds.
3. Release the power button and wait for 5 minutes.
4. Plug the TV back into the power outlet and power it on.

A permanent software update is expected to be delivered automatically to address this issue. Ensure your TV is connected to the internet to receive updates.
