SETUP AND INSTALLATION

Follow these steps to properly fit the harness to your pet and attach your Insta360 GO 3/GO 3S camera:

1. **Prepare the Harness:** Open the Neck Clips and adjust the Neck Straps to be wider than your pet's

head. Open the Belly Clips and adjust the Belly Straps to an equal length to fit around your pet's belly. Close the clips after adjustment.

2. **Position on Pet:** Unfasten the Belly Buckles and slide the harness over your pet's head.
3. **Secure the Harness:** Wrap the Belly Straps around your pet's belly and fasten the buckles.
4. **Adjust for Fit:** Adjust the Neck Straps according to the measurement marks, ensuring the straps are equal on both sides. Then, close the Neck Clips.
5. **Manage Excess Straps:** Tuck any long, excess straps into the Elastic Bands on either side to prevent snagging or discomfort.
6. **Attach Camera Mounts:** Securely attach the Back 3-Prong Base, Horizontal Action Mount, or Vertical Action Mount to the designated points on the harness using the provided Thumb Screws.
7. **Mount Camera:** Attach your Insta360 GO 3 or GO 3S camera to the desired mount. Ensure it is firmly secured before use.

OPERATING INSTRUCTIONS

The Pet Harness Mount allows for versatile camera placement to capture unique perspectives:

- **Back Mounting:** Utilize the back 3-prong base for an elevated, over-the-shoulder view of your pet's surroundings. The removable back support bar can be used for a wider field of view.
- **Collar/Chest Mounting:** Attach the camera to the front mount for a lower, immersive perspective from your pet's point of view.
- **Camera Operation:** Refer to your Insta360 GO 3 or GO 3S camera's instruction manual for specific

camera operation details, including recording, mode changes, and battery management.

PRODUCT FEATURES

- **Dual Mounting Options:** Offers both collar (chest) and back mounting positions for diverse filming angles.
- **Size Compatibility:** Designed to support small or medium-sized pets.
- **Easy Installation:** Features a snap-in design with adjustable and breathable straps for quick setup and removal.
- **Enhanced Field of View:** Includes a removable back support bar to achieve a wider camera angle.
- **Comfort and Security:** Constructed with a lightweight, soft rubber base that conforms to your pet's body while securely holding the camera.

MAINTENANCE

To ensure the longevity and hygiene of your Pet Harness Mount:

- **Cleaning:** Hand wash only. Use cold water and a mild detergent.
- **Drying:** Air dry completely before storing or re-using. Do not machine dry.
- **Storage:** Store in a clean, dry place away from direct sunlight.

Item Model Number	CINSBAVW
Color	Black
Item Weight	0.42 Kilograms (14.8 ounces)

Closure Type	Buckle
Specific Uses for Product	Outdoor
Manufacturer	Insta360
Date First Available	June 8, 2024

TROUBLESHOOTING

If you encounter issues with your Pet Harness Mount, consider the following:

- **Harness Fit:** Ensure all straps are adjusted correctly and evenly. A harness that is too tight can cause discomfort, while one that is too loose may shift during activity. Refer to the "Setup and Installation" section for proper adjustment.
- **Camera Stability:** Verify that the camera and its mounts are securely fastened with the thumb screws. Loose connections can lead to unstable footage or camera loss.
- **Pet Comfort:** Observe your pet's behavior while wearing the harness. If your pet shows signs of discomfort, re-adjust the straps or consider if the harness size is appropriate for their body shape.
