YEKKOPT YE-9025s

Travel Makeup Mirror with Lights User Manual

Model: YE-9025s | Brand: YEKKOPT

PRODUCT OVERVIEW

The YEKKOPT Travel Makeup Mirror with Lights (Model YE-9025s) is a portable beauty LED vanity mirror designed for convenience and optimal illumination. Featuring a 1200mAh rechargeable battery, dimmable touch screen, and a tabletop folding compact design, it is suitable for various cosmetic applications at home or while traveling.

SAFETY INFORMATION

Please read and understand the following safety guidelines before using your mirror:

- Handle the mirror with care, as it is made of glass.
- Ensure the mirror is placed on a stable, dry surface to prevent tipping.
- Do not expose the mirror to extreme temperatures or water to prevent damage and ensure normal functionality.
- Ensure the charging port is completely dry before connecting for charging.

PACKAGE CONTENTS

Upon opening the package, verify that all items are present:

- Travel Makeup Mirror with Lights

- USB Type-C Charging Cable
- Protective Pouch
- User Manual (this document)

SETUP

Initial Charging

Before first use, it is advised to fully charge the mirror for approximately 30 minutes. Use the provided USB Type-C cable to connect the mirror to a compatible power source (e.g., laptop, power bank, 5V1A adapter, car charger).

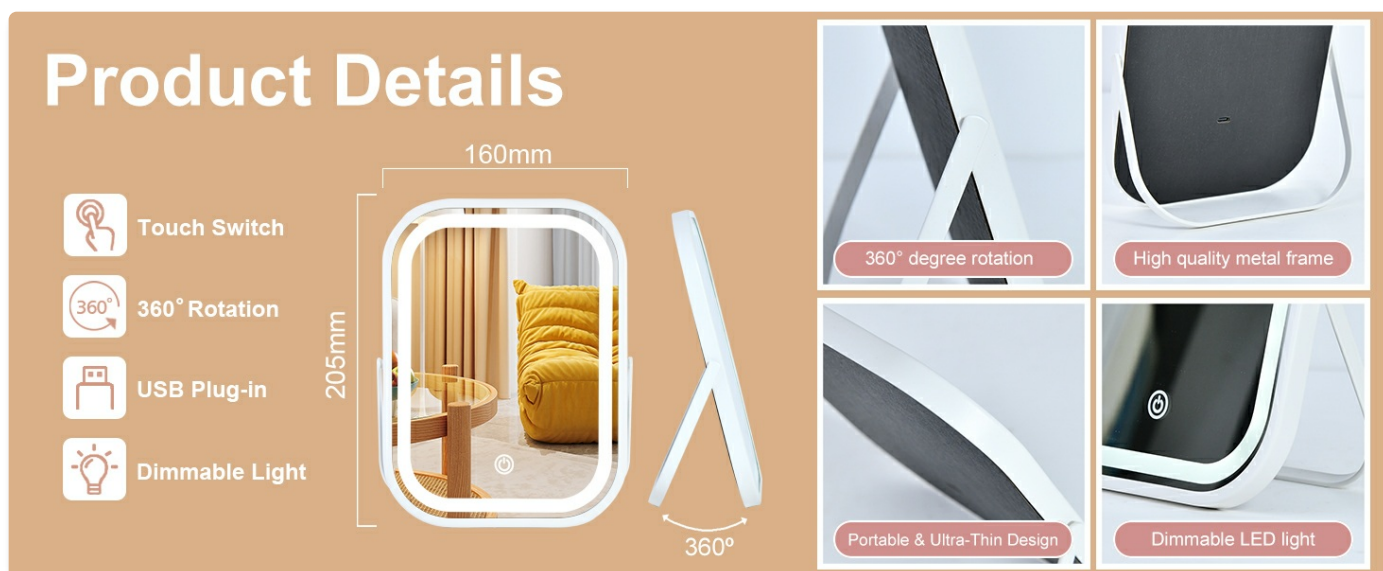

Figure 2: Charging the mirror. The indicator light will be red during charging and blue when fully charged.

Assembling the Stand

The mirror features a robust U-shaped stand for stability. Simply pull out the stand from the back of the mirror to position it for tabletop use. The stand allows for 360-degree rotation, enabling you to adjust the mirror to your desired angle.

OPERATING INSTRUCTIONS

Power On/Off and Brightness Adjustment

The mirror is equipped with a highly sensitive touch control sensor. Locate the power icon on the mirror's surface.

- To turn the light **ON** or **OFF**, short press the sensor switch.
- To adjust the **brightness**, long press the sensor switch. The brightness can be adjusted steplessly from 0% to 100%.

Light Color Modes

The mirror offers three distinct light color modes to suit different environments and makeup needs:

1. **Cold White Light:** Ideal for travel or outdoor settings, providing clear and bright illumination.
2. **Natural Light:** Suitable for office or dorm environments, mimicking natural daylight for accurate color representation.
3. **Warm Light:** Best for dressing rooms or bedrooms, offering a soft and comfortable glow.

MAINTENANCE

To ensure the longevity and optimal performance of your mirror, follow these maintenance tips:

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the mirror surface. For stubborn smudges, lightly dampen the cloth with water or a mild glass cleaner, then wipe dry immediately. Avoid abrasive cleaners or solvents.
- **Storage:** Store the mirror in a dry location away from direct sunlight and extreme temperatures. Utilize the provided protective pouch when traveling or not in use to prevent scratches and damage.
- **Charging Port:** Always ensure the charging port is completely dry before plugging in the USB cable.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror lights do not turn on.	Battery is depleted.	Charge the mirror using the provided USB Type-C cable. Ensure the charging indicator light turns red.
Lights are dim or inconsistent.	Low battery or incorrect brightness setting.	Fully charge the mirror. Long press the touch sensor to adjust brightness to 100%.
Mirror does not charge.	Faulty cable, adapter, or charging port.	Try a different USB Type-C cable or power adapter. Ensure the charging port is clean and dry. If the issue persists, contact customer support.
Stand is unstable.	Not fully extended or placed on an uneven surface.	Ensure the U-shaped stand is fully extended and locked into position. Place the mirror on a flat, stable surface.
