VOPLLS Projector Instruction Manual

MODEL: EA8A63AA-741A-4A41-951E-95AE54809719

1. Introduction

Thank you for purchasing the VOPLLS Projector. This manual provides essential information for the safe and efficient operation of your device. Please read it thoroughly before use and retain it for future reference. This projector features Android TV, native 1080P resolution with 4K support, Wi-Fi, Bluetooth, autofocus, and keystone correction for an enhanced viewing experience.

2. Safety Information

To ensure safe operation and prevent damage, please observe the following precautions:

- Do not expose the projector to rain, moisture, or extreme temperatures.
- Avoid blocking ventilation openings to prevent overheating.
- Do not look directly into the projector lens when the lamp is on.
- Use only the power adapter supplied with the projector.
- Keep the projector away from sources of strong electromagnetic interference.
- Do not attempt to disassemble or modify the projector. Refer all servicing to qualified personnel.

3. Package Contents

Please check that all items are present in your package:

- VOPLLS Projector
- Power Adapter
- HDMI Cable
- Remote Control (with batteries, if included)
- User Manual

4. Product Overview

The VOPLLS Projector is designed for versatile home cinema and presentation use, offering high brightness and smart features.

Figure 4.1: Front view of the VOPLLS Projector, showing the projection lens and front ventilation. This image illustrates the compact design of the projector.

Key features include:

- **Native 1080P Resolution:** Delivers sharp and clear images.
- **4K Video Support:** Capable of playing 4K video content.
- **Android TV:** Integrated smart TV system for streaming apps and content.
- **Autofocus & Keystone Correction:** Automatic image adjustment for optimal clarity and shape.
- **Wi-Fi & Bluetooth Connectivity:** For wireless networking and audio connections.
- **High Brightness:** 22,000 lumens for vibrant projections.

5. Setup

5.1 Placement

Place the projector on a stable, flat surface. Ensure there is adequate space around the projector for ventilation. The optimal projection distance ranges from 3 to 7 meters, yielding an image size from 40 to 300 inches.

5.2 Power Connection

1. Connect the power adapter to the projector's power input port.
2. Plug the power adapter into a suitable electrical outlet.
3. Press the power button on the projector or remote control to turn on the device.

5.3 Initial Setup and Adjustment

- **Autofocus:** The projector will automatically adjust focus upon startup or movement. If needed, manual focus adjustment options are available in the settings.
- **Keystone Correction:** The projector features automatic keystone correction to square the image. Manual adjustments for horizontal and vertical keystone can be found in the display settings.

6. Operating Instructions

6.1 Navigation

Use the provided remote control to navigate the Android TV interface. The directional buttons, 'OK' button, and 'Back' button are essential for menu navigation and selection.

6.2 Input Sources

To select an input source (e.g., HDMI, USB, AV), press the 'Source' button on the remote control and choose from the displayed options.

6.3 Android TV Features

Access pre-installed streaming applications or download new ones from the Google Play Store. Ensure the projector is connected to Wi-Fi for internet-based services.

6.4 Zoom Function

The projector supports a 50% zoom function. This can be adjusted in the display settings to resize the image without moving the projector.

7. Connectivity

7.1 Wi-Fi Connection

1. Go to 'Settings' > 'Network & Internet'.
2. Select 'Wi-Fi' and choose your desired network.
3. Enter the password if prompted and connect.

7.2 Bluetooth Connection

1. Go to 'Settings' > 'Connected Devices'.
2. Enable Bluetooth and search for devices.
3. Select your Bluetooth audio device (e.g., speaker, headphones) from the list to pair.

7.3 Wired Connections

The projector supports various wired interfaces:

- **HDMI:** Connect to laptops, gaming consoles, Blu-ray players.
- **USB:** For playing media from USB drives or connecting peripherals.
- **AV:** For connecting older devices with composite video output.
- **Audio 3.5mm:** For connecting external speakers or headphones.

8. Maintenance

8.1 Cleaning the Lens

Gently wipe the projector lens with a soft, lint-free cloth specifically designed for optical surfaces. Do not use abrasive cleaners or excessive force.

8.2 Cleaning the Projector Body

Use a soft, dry cloth to clean the exterior of the projector. For stubborn marks, a slightly damp cloth can be used, followed by a dry one. Ensure no liquid enters the device.

8.3 Ventilation

Regularly check and clean the ventilation openings to prevent dust buildup, which can lead to overheating and reduced performance.

9. Troubleshooting

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No Power	Power cable not connected; power outlet issue.	Check power cable connection; try a different outlet.
No Image	Incorrect input source; cable not connected properly.	Select correct input source; check HDMI/AV cable connections.
Image is Blurry	Focus not adjusted; lens dirty.	Allow autofocus to engage or manually adjust focus; clean the lens.
Image is Distorted (Trapezoid)	Keystone not adjusted.	Allow auto keystone or manually adjust keystone in settings.
No Sound	Volume too low; incorrect audio output; external device muted.	Increase volume; check audio output settings; unmute source device.
Wi-Fi/Bluetooth Connection Issues	Incorrect password; device out of range; interference.	Re-enter password; move closer to router/device; restart projector.
White Spots on Screen (Dust)	Dust inside the optical path.	Contact customer support for cleaning instructions or service.
