6. MAINTENANCE AND CARE

Proper care will ensure the longevity and appearance of your bunk bed.

- **Cleaning:** Wipe surfaces with a damp cloth. For stubborn marks, use a mild, non-abrasive cleaner. Dry immediately with a clean cloth.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, abrasive cleaners, or polishes that may damage the melamine finish.
- **Hardware Check:** Periodically check all screws, bolts, and connectors to ensure they remain tight. Retighten as needed to maintain structural integrity.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.
- **Moisture:** Protect the furniture from excessive moisture and humidity. Wipe up spills immediately.

7. TROUBLESHOOTING

If you encounter any issues with your bunk bed, consider the following common solutions:

- **Wobbling/Instability:** This is usually due to loose hardware. Re-check and tighten all screws and bolts, ensuring the bed is on a level surface.
- **Drawer Sticking:** Check the drawer runners for any obstructions or misalignment. Ensure the drawer is not overloaded.
- **Noise (Squeaking):** Tighten all connections. A small amount of silicone spray on metal-to-metal or wood-to-wood contact points (avoiding visible surfaces) can sometimes help.
- **Missing Parts:** If you find any parts missing upon unpacking, please contact Vente-unique customer

support immediately with your purchase details.
