Redragon M813 PRO

Redragon Rind Pro RGB Wireless Gaming Mouse M813RGB-PRO User Manual

Model: M813 PRO

1. Introduction

Thank you for choosing the Redragon Rind Pro RGB Wireless Gaming Mouse. This manual provides detailed instructions for setting up, operating, and maintaining your new gaming mouse. Please read this manual thoroughly before use to ensure optimal performance and longevity of your device.

The Redragon Rind Pro RGB Wireless Gaming Mouse, shown in black, features a sleek design with customizable RGB lighting along its base. A small USB wireless receiver is visible next to the mouse.

2. Key Features

- Equipped with a high-precision PAW3395 optical sensor.
- Infinite scroll wheel with lateral activation for extended page navigation.
- 10 programmable buttons for custom macros and shortcuts.
- Dynamic RGB illumination around the mouse base.

- Ergonomic design with dedicated finger rests for comfort.

An infographic highlighting the mouse's features: PRO Optical Sensor 3395, 26000 DPI Max, Dual Mode Scroll Wheel, 7 Programmable Buttons, 7 Backlit Modes, 20 Million Clicks, Advanced Software, and Ergonomic Design.

3. Package Contents

Please check the package contents upon unboxing:

- Redragon Rind Pro RGB Wireless Gaming Mouse
- USB Wireless Receiver (2.4GHz dongle)
- USB Charging/Data Cable
- User Manual

4. Setup Guide

4.1. Connecting Your Mouse

The Redragon Rind Pro mouse supports three connection modes: 2.4GHz Wireless, Bluetooth, and Wired USB.

The image illustrates the three connection modes of the Redragon Rind Pro mouse: Bluetooth, 2.4GHz wireless via a USB dongle plugged into a laptop, and wired connection via a USB cable.

4.1.1. 2.4GHz Wireless Connection

1. Locate the USB wireless receiver (dongle) in the package.
2. Plug the USB receiver into an available USB port on your computer.
3. Turn on the mouse using the power switch located on the bottom.
4. The mouse should automatically connect to your computer.

4.1.2. Bluetooth Connection

1. Ensure your computer's Bluetooth is enabled.
2. Turn on the mouse and switch it to Bluetooth mode (refer to the mouse's bottom switch for mode selection).
3. On your computer, go to Bluetooth settings and search for new devices.

4. Select "Redragon Rind Pro" from the list of available devices to pair.

4.1.3. Wired Connection

1. Connect the USB charging/data cable to the mouse.
2. Plug the other end of the cable into an available USB port on your computer.
3. The mouse will function as a wired mouse and charge simultaneously.

4.2. Charging the Mouse

The Redragon Rind Pro mouse is equipped with a built-in Lithium-ion polymer battery. To charge, connect the mouse to your computer using the provided USB cable. The RGB lighting may indicate charging status (refer to the software for specific indicators).

5. Operating Instructions

5.1. Button Functions

The mouse features 10 programmable buttons. Default functions are as follows:

- **Left Click:** Standard primary click.
- **Right Click:** Standard secondary click.
- **Middle Click (Scroll Wheel):** Activates middle click function.
- **Forward/Back Buttons:** Navigate web pages or folders.
- **DPI Cycle Button:** Adjusts mouse sensitivity (DPI).
- **Scroll Wheel Lateral Activation:** Allows for horizontal scrolling.
- **Infinite Scroll Mode Switch:** Toggles between stepped and free-spinning scroll modes.

A screenshot of the Redragon software, showing the 'Key Settings' tab where users can program the mouse's buttons and adjust other settings. The mouse itself is shown below the software interface.

5.2. DPI Adjustment

Press the DPI cycle button to switch between preset DPI levels. The mouse supports up to 26000 DPI. Each DPI level may be indicated by a specific RGB color on the scroll wheel or base (configurable via software).

A visual representation of the six adjustable DPI levels (1000, 2000, 4000, 8000, 13000, 26000) with corresponding color indicators, demonstrating how to customize sensitivity.

5.3. RGB Lighting Control

The mouse features customizable RGB lighting. Lighting modes and colors can be adjusted through the Redragon software. Some modes may also be cycled directly on the mouse using a dedicated button or key combination (refer to software for specific controls).

A side view of the Redragon Rind Pro mouse, highlighting the dynamic RGB lighting strip that runs along its bottom edge, illuminating the desk surface.

5.4. Software Customization

For advanced customization, download the Redragon Rind Pro software from the official Redragon website. The software allows you to:

- Program all 10 buttons with macros, key binds, and multimedia functions.
- Adjust DPI levels and polling rates.
- Customize RGB lighting effects and colors.
- Create and save multiple profiles for different games or applications.

6. Maintenance

6.1. Cleaning

- Disconnect the mouse from your computer before cleaning.
- Use a soft, dry cloth to wipe the surface of the mouse.
- For stubborn dirt, lightly dampen the cloth with water or a mild cleaning solution. Avoid harsh chemicals.
- Use a cotton swab or compressed air to clean around buttons and the optical sensor.

6.2. Storage

When not in use for extended periods, store the mouse in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the mouse is turned off to conserve battery life.

7. Troubleshooting

- **Mouse not responding:**
  Check if the mouse is powered on. Ensure the USB receiver is properly plugged in (for 2.4GHz) or Bluetooth is paired correctly. Try connecting via wired mode to confirm functionality.
- **Lag or erratic movement:**
  Ensure the mouse is fully charged. Move the mouse closer to the USB receiver or computer (for wireless connections). Clean the optical sensor. Test on a different surface or mouse pad.
- **RGB lighting not working:**
  Check software settings for lighting control. Ensure the mouse is connected and powered on.
- **Buttons not working as expected:**
  Check button assignments in the Redragon software. Reset settings to default if necessary.
- **Battery drains quickly:**
  Ensure the mouse is turned off when not in use. Reduce RGB brightness or disable lighting if not needed.

8. Specifications

Feature	Detail
Brand	Redragon
Model	M813 PRO
