1. **Prepare the Workspace:** Clear a spacious area and lay down a blanket or cardboard to protect both the desk components and your floor.

Care and Maintenance

- **Cleaning:** Wipe the desk surface and frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the engineered wood.
- **Heat Protection:** Use coasters or protective pads under hot beverages or dishes to prevent heat marks.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure, which can cause fading or discoloration over time.
- **Regular Checks:** Periodically inspect all screws and fasteners to ensure they remain tight. Re-tighten if necessary.

Troubleshooting

Desk Wobbles After Assembly

Ensure all screws and cam locks are fully tightened. Check that the desk is placed on a level surface. If the floor is uneven, consider using furniture pads or shims under the legs to stabilize it.

Drawers Do Not Slide Smoothly

Verify that the drawer slides are installed correctly and are not obstructed. Check for any debris in the tracks. Ensure the drawers are not overloaded, which can cause them to stick.

Missing or Damaged Parts

If you discover any missing or damaged parts upon opening the package, please do not proceed with assembly. Contact Halitaa customer service immediately for assistance.
