Video: This video provides a step-by-step guide on how to correctly wire the Jingsyde car radio for installation.

2. OPERATING INSTRUCTIONS

2.1. Basic Functions

Power On/Off & Screen Control

To power on the unit, ensure it is correctly installed and your vehicle's ignition is on. To turn off the screen, press and hold the power button on the unit's side panel. To reactivate the screen, simply tap the power button.

Touch Screen Calibration

If the touch screen responsiveness is inaccurate, calibration may be required. Access the 'Factory Settings' menu (password: 000000), then navigate to 'Touch Learning'. Follow the on-screen prompts to calibrate the touch points using five fingers simultaneously.

3. MAINTENANCE

To ensure optimal performance and longevity of your Jingslye Car Radio, follow these maintenance guidelines:

- **Screen Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or harsh chemicals.
- **Software Updates:** The system supports online updates. Regularly check for and install available software updates to ensure the latest features and security enhancements.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Cable Connections:** Periodically check all cable connections to ensure they are secure and free from damage.

4. TROUBLESHOOTING

If you encounter any issues with your Jingslye Car Radio, please refer to the following common troubleshooting steps. For more detailed solutions, consult the official troubleshooting video.

- **No Power:** Check all power connections and ensure the vehicle's ignition is on. Verify fuses if necessary.
- **No Sound:** Check volume levels, audio source selection, and speaker connections. Ensure the mute function is not activated.
- **Touchscreen Unresponsive:** Attempt a screen calibration as described in Section 2.1. If the issue persists, a system reset may be required.
- **Bluetooth/CarPlay/Android Auto Connectivity Issues:** Ensure Bluetooth is enabled on both the unit and your smartphone. Try unpairing and re-pairing the devices. Check for software updates.
- **GPS Signal Loss:** Ensure the GPS antenna is properly installed and has a clear view of the sky.
