# hoozoom Front Seat Covers Instruction Manual

MODEL: HZ-01

Brand: hoozoom

## 1. Product Overview

---

The hoozoom Front Seat Covers are designed to provide superior protection and comfort for your vehicle's interior. Crafted from high-quality faux leather, these covers feature a breathable design with air holes, high-resilience sponge, and a non-slip backing for durability and ease of maintenance.

Key features include:

- **Material:** High-quality faux leather with air holes, high resilience sponge, and non-slip backing.
- **Design:** Lumbar support for improved driving comfort, elastic fabric for a universal fit, and full-coverage protection.
- **Protection:** Shields seats from spills, stains, pet hairs, dust, scratches, and general wear.
- **Safety:** Designed to not interfere with airbag deployment, seat belts, or seat adjustments.
- **Fit:** Universal design suitable for most small and medium-sized autos, sedans, trucks, SUVs, and vans.

## 2. Material and Design Details

The seat covers are constructed with a 5-layer premium faux leather structure, ensuring both durability and comfort. This multi-layer design includes breathable Napa leather, rebound sponge, non-woven fabric, and an anti-slip backing.

### Compatibility Guide

- ▶ Airbag and seat belt buckle are compatible.
- ▶ Don't affect the original function of the seat.
- ▶ The front seat covers fit bucket seats with detachable headrests, but not applicable to non-detachable headrest, arm rest or built-in seat belt.
- ▶ **Please confirm your car seats or contact us if this car seat covers are suitable for your car seats before purchasing.**

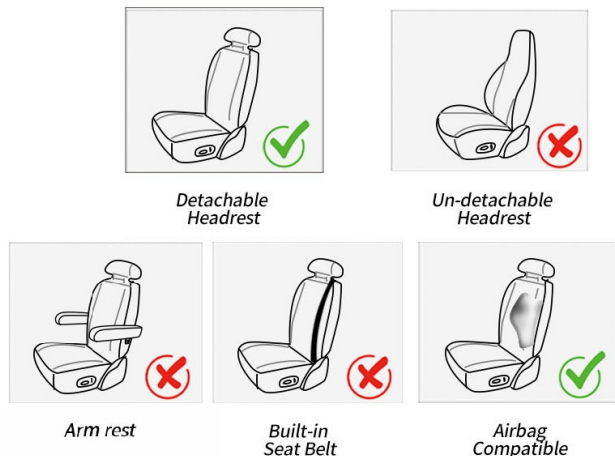

Image 2.1: Cross-section diagram illustrating the 5-layer premium faux leather structure, including breathable Napa leather, rebound sponge, non-woven fabric, and anti-slip backing.

The design incorporates delicate perforations for breathability and comfort, along with integrated lumbar support to reduce fatigue during long drives. Practical elements include front storage pockets and an edge-wrapped design that ensures original seat functions, such as buttons and controls, remain fully accessible.

Image 2.3: Visual representation of the seat covers' key attributes: non-slip backing, breathable leather, wear-resistant material, and easy-to-clean surface.

### 3. Installation Guide

---

The hoozoom Front Seat Covers are designed for straightforward installation. Follow the steps below for a secure and proper fit.

#### 3.1 Compatibility Check

Ensure your vehicle's seats are compatible with these covers. They are designed for bucket seats with detachable headrests. They are not applicable to non-detachable headrests, armrests, or built-in seat belts.

## Original Design

The design of this car seat cover is inspired by the concept of peace. Each letter of the word "PEACE" is incorporated into the design, materials, and stitching. The world needs Peace and Love. Although our ability is limited, we want to transmit a message of "PEACE" through our design.

### New "II" Technique

The edges of the cover are lined with "inlay item" technique - we call it "II" for short, which provides comprehensive support for the entire seat cover, making it resistant to deformation and being pressure-resistant, ensuring that it can withstand prolonged use without losing its shape, resulting in a more three-dimensional and comfortable car seat cover.

### Unique Patchwork Technology & Perforated Leather

We utilize stitching technology to precisely stitch together each piece of leather, creating various visual effects. This technique not only adds layered to the seat cover but also enhances its aesthetics. This car seat cover incorporates both small perforated leather and non-perforated leather. These holes promote air circulation, effectively relieving humidity and stiffness and keeping the seat breathable and comfortable.

### Lumbar Support Design

This car seat cover is made of leather and features a design with lumbar support, providing exceptional comfort for the driver. Not only does this design effectively reduce fatigue during long drives, but it also offers ample support for the driver, thereby alleviating pressure on the lower back. Furthermore, we employ the "S" curve quilting technique, which adds sophistication and richness to the seat cover, giving it a layered, luxurious, and unique appearance.

Image 3.1: Compatibility guide illustrating seat types that are suitable (detachable headrest, airbag compatible) and unsuitable (un-detachable headrest, armrest, built-in seat belt) for these seat covers.

## 3.2 Front Seat Installation

The front seat covers are installed by sliding a single piece over the car seat and securing it with snaps and clips. The headrest cover is then placed over the headrest and secured.

## 5 LAYER PREMIUM FAUX LEATHER STRUCTURE

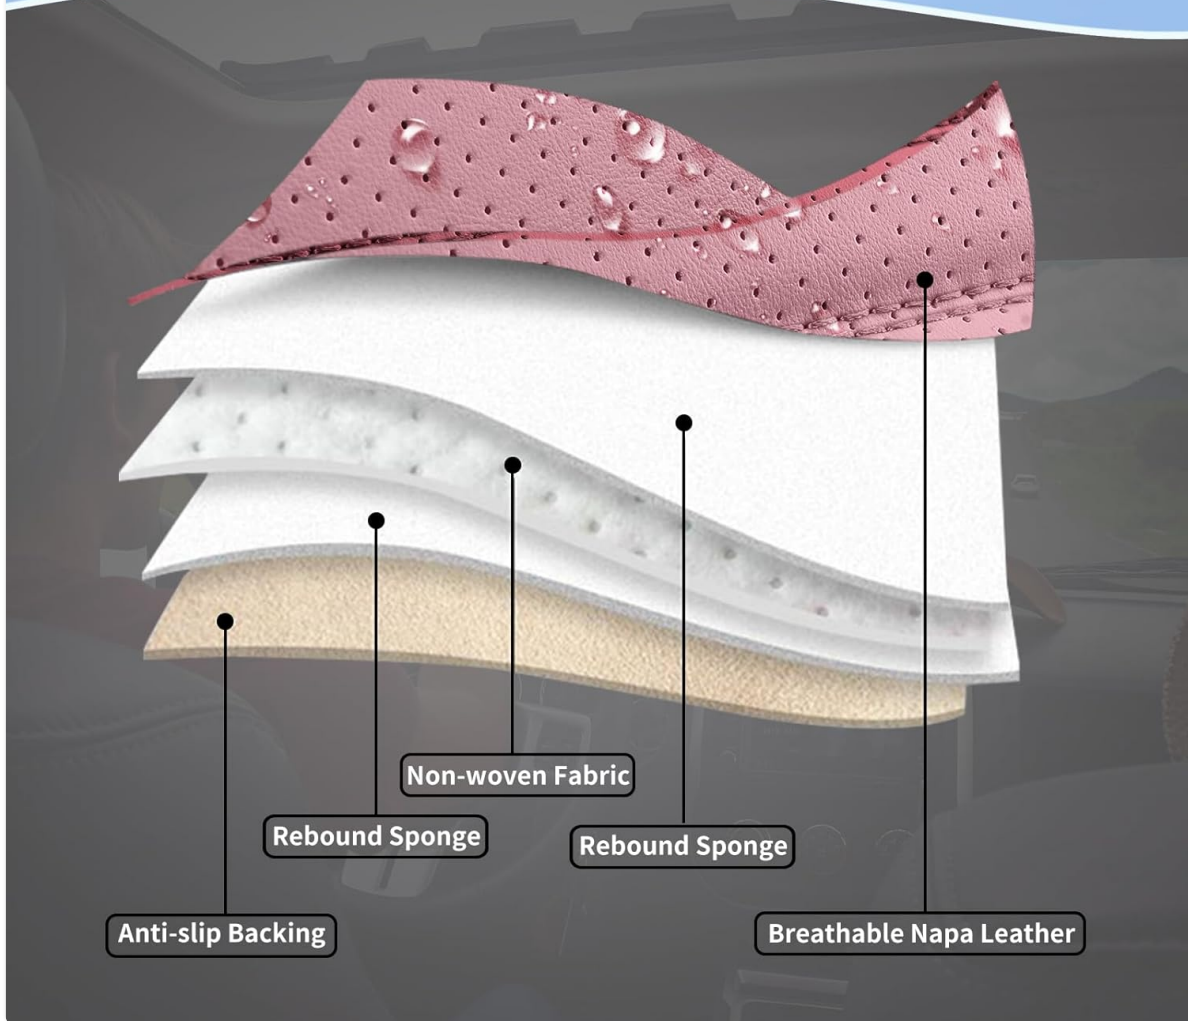

Image 3.4: A side-by-side comparison showing the original car seat (left) and the same seat with the hoozoom cover installed (right), highlighting the aesthetic improvement.

### 3.3 Rear Seat Installation (if applicable)

For full sets, the rear seat covers also feature a multi-piece design for a custom fit. The backrest and bottom seat covers are installed separately, often utilizing clasps and Velcro for a secure attachment. Headrest covers are then fitted over the rear headrests.

#### 4. Operating and Safety

---

The hoozoom seat covers are designed to integrate seamlessly with your vehicle's existing safety features and functionalities.

- **Airbag Compatibility:** The covers are engineered to allow for proper airbag deployment, ensuring safety is not compromised.
- **Seat Belt Access:** All seat belt buckles and anchor points remain fully accessible and functional.
- **Seat Adjustments:** The design ensures that all manual or power seat adjustment controls are not obstructed.
- **Lumbar Support:** The built-in lumbar support enhances comfort during extended periods of driving.

#### 5. Maintenance

---

Maintaining your hoozoom seat covers is simple due to their durable and easy-to-clean faux leather material.

- **Cleaning:** For spills or stains, simply wipe the surface with a damp cloth. Avoid harsh chemicals that may damage the faux leather.
- **Regular Care:** Periodically wipe down the covers to remove dust and dirt, preserving their appearance and longevity.

## 6. Troubleshooting

---

If you encounter any issues during installation or use, please review the following common concerns:

- **Loose Fit:** Ensure all clasps, hooks, and straps are securely fastened and tightened. Re-adjust if necessary.
- **Obstruction of Controls:** Double-check that the seat covers are not interfering with any seat adjustment levers or buttons. Adjust the cover position slightly if needed.
- **Wrinkles/Creases:** Minor wrinkles may be present upon initial installation. These typically smooth out with use and exposure to warmth.

For further assistance, please contact hoozoom customer support.
