hoozoom Leather Car Seat Covers

Instruction Manual

Model: HZ-01 (Part Number: HZ-01-A1-01)

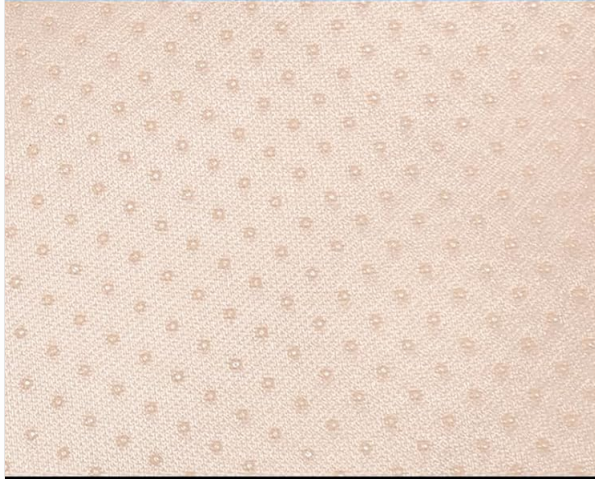

1. INTRODUCTION

Thank you for choosing hoozoom Leather Car Seat Covers. These covers are designed to provide superior protection, comfort, and an elegant aesthetic to your vehicle's interior. Crafted from high-quality faux leather with breathable air holes, high resilience sponge, and a non-slip backing, they offer durability, water resistance, and ease of maintenance. This manual provides essential information for installation, care, and troubleshooting to ensure optimal performance and longevity of your seat covers.

2. PRODUCT FEATURES

- **Premium Material:** Constructed from high-quality faux leather with air holes, high resilience sponge, and non-slip backing for breathability, softness, durability, water resistance, and wear resistance.
- **Elegant Design:** Features integrated lumbar support to alleviate fatigue and enhance driving comfort. The elastic fabric on the sides ensures a suitable fit for various car models.
- **Superior Protection:** Full-coverage design effectively shields your original seats from spills, stains, pet hair, dust, scratches, abrasion, and indentations.
- **Safety & Convenience:** Designed to not interfere with the original functional use of car seats, including airbags, seat belts, armrests, and seat adjustments.

3. COMPATIBILITY

These universal car seat covers are designed to fit most vehicles, including small and medium-sized automobiles, sedans, trucks, SUVs, vans, and pick-up trucks. They are specifically designed for front bucket seats with **detachable headrests**.

Important Compatibility Notes:

- Airbag and seat belt buckle functionality remain compatible.
- Do not affect the original function of the seat.
- Not applicable for seats with **non-detachable headrests**.
- Not applicable for seats with integrated **armrests**.
- Not applicable for seats with **built-in seat belts**.

Please confirm your car seat type before purchasing or installing to ensure proper fit and functionality.

4. INSTALLATION GUIDE

The hoozoom car seat covers are designed for easy installation using the provided hooks and chucks. For best results, it is recommended to watch an installation video if available, or follow these general steps:

1. **Prepare the Seat:** Ensure your car seat is clean and free of debris. Remove any items from the seat and seat back pockets.
2. **Position the Seat Back Cover:** Slide the seat back cover over the top of your car seat, ensuring the headrest portion is aligned.
3. **Secure the Seat Back:** Pull the cover down firmly. Use the provided hooks and chucks to secure the cover underneath the seat and around the back. For the hooks, a simple loop knot is often more effective than opening the clamps.
4. **Install the Seat Base Cover:** Place the seat base cover onto the seat cushion.
5. **Secure the Seat Base:** Fasten the seat base cover using the hooks and chucks, ensuring it is taut and wrinkle-free.
6. **Install Headrest Covers:** If your headrests are detachable, install the separate headrest covers.
7. **Adjust and Smooth:** Once all parts are installed, smooth out any wrinkles and adjust the covers for a snug and uniform fit.

5. CARE AND MAINTENANCE

To ensure the longevity and appearance of your hoozoom Leather Car Seat Covers, follow these care instructions:

- **Regular Cleaning:** The faux leather material is easy to clean. For daily maintenance, wipe the covers with a soft, damp cloth.
- **Spill Management:** In case of spills, wipe them immediately with a clean, dry cloth to prevent staining. The waterproof nature of the material helps in easy cleanup.
- **Deep Cleaning:** For more stubborn dirt, use a mild soap solution diluted in water. Apply with a soft cloth, gently wipe the affected area, and then wipe clean with a separate damp cloth. Dry thoroughly with a clean, dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the faux leather material.
- **Protect from Sharp Objects:** While wear-resistant, avoid contact with sharp objects like pens or keys

in pockets, as these can cause punctures or tears.

6. TROUBLESHOOTING

- **Issue: Covers do not fit due to armrests (e.g., Mini Vans).**

Solution: If your vehicle has armrests on the front seats, and the cover does not accommodate them, you may need to carefully make a small horizontal cut in the cover material on the inside side of the armrest. First, put the upper cover on over the armrest (in the upright position). Feel for the armrest hub. Carefully cut a small horizontal slit (approx. 2 inches) in the material to allow it to slide over the armrest tip. Remove the cover, then re-install, feeding the armrest through the cut hole and tucking the material around the hub. Extend the cut slightly if needed.

- **Issue: Unpleasant odor from the material.**

Solution: New products, especially those made of faux leather, may have a manufacturing odor. This typically dissipates over time with ventilation. Air out the seat covers in a well-ventilated area for a few days before installation. You can also use car air fresheners or odor absorbers in your vehicle.

- **Issue: Covers show signs of wear or small tears.**

Solution: While durable, continuous friction from sharp objects (e.g., pens, keys in pockets) can cause wear or small holes. Ensure pockets are empty of sharp items before entering the vehicle. For minor damage, repair kits for faux leather may be available.

7. SPECIFICATIONS

Brand	hoozoom
Model	HZ-01
Manufacturer Part Number	HZ-01-A1-01
Item Weight	8.83 pounds
Package Dimensions	26.05 x 21 x 3.03 inches
Color	Black3 (for this variant)
Fit Type	Custom Fit / Vehicle Specific Fit (Universal for compatible types)
Material	Faux Leather, High Resilience Sponge, Non-slip Backing

PRODUCT SIZE

PS: There is a measurement error of 1-2 cm/ 0.3-0.7 inch due to manual measurement.
