Before installation, please verify your smartwatch model to ensure proper fit and function.

SETUP AND INSTALLATION

Follow these steps to attach your Lamshaw Rugged Nylon Sports Smartwatch Band to your compatible 3Plus smartwatch:

1. **Prepare your Smartwatch:** Ensure your smartwatch is powered off before beginning installation.
2. **Remove Existing Band (if applicable):** If your smartwatch has an existing band, carefully remove it according to your smartwatch's instructions.
3. **Identify Band Orientation:** The Lamshaw band has a specific orientation. Ensure the metal connector is aligned correctly with the smartwatch's lug holes.
4. **Attach the Band:**
 - Insert one end of the band's spring bar (located within the metal connector) into one of the lug holes on your smartwatch.
 - While holding that end in place, push the spring bar lever inward to retract the other end.

- Align the retracted end with the opposite lug hole and release the lever, ensuring the spring bar clicks securely into place.
- Gently tug on the band to confirm it is firmly attached to the smartwatch.

WEARING AND ADJUSTMENT

The Lamshaw Rugged Nylon Sports Smartwatch Band features a hook-and-loop clasp for easy and secure adjustment.

1. **Position the Smartwatch:** Place the smartwatch on your wrist, ensuring the sensor is in contact with your skin.
2. **Wrap the Band:** Wrap the band around your wrist.
3. **Secure with Hook-and-Loop:** Bring the end of the band through the metal loop and fold it back onto itself, pressing the hook-and-loop fasteners together to secure.
4. **Adjust for Comfort:** Adjust the tightness until the band feels snug but comfortable. It should not be too tight to restrict circulation, nor too loose to allow the smartwatch to move freely.

Premium Hardwares All Stainless Steel

Figure 4: The hook-and-loop closure allows for precise and comfortable adjustment.

The band is designed to fit wrists with a circumference between 6.7 inches (170mm) and 8.7 inches (221mm).

MAINTENANCE AND CARE

To ensure the longevity and appearance of your Lamshaw Rugged Nylon Sports Smartwatch Band, follow these care guidelines:

- **Cleaning:** Gently wipe the nylon band with a damp cloth and mild soap if necessary. Rinse thoroughly with clean water and allow it to air dry completely before reattaching to your smartwatch. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** The woven loop design is breathable, but ensure the band is fully dry after exposure to moisture (sweat, water) to prevent odor or material degradation.
- **Metal Connector:** The stainless steel connector is durable. If it becomes dirty, wipe it with a soft, dry cloth. Avoid prolonged exposure to saltwater or corrosive substances.
- **Storage:** When not in use, store the band in a clean, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your smartwatch band, consider the following:

- **Band Does Not Attach Securely:**
 - Ensure the spring bars are fully retracted and properly aligned with the lug holes on your smartwatch.
 - Verify that your smartwatch model is listed as compatible in the "Product Compatibility" section.
 - Check for any obstructions in the lug holes or damage to the spring bars.
- **Band Feels Uncomfortable:**
 - Adjust the hook-and-loop clasp to find a comfortable fit within the specified wrist fitting range (6.7"-8.7").
 - Ensure the band is not too tight, which can restrict circulation, or too loose, which can cause rubbing.
