BeFree Strategy & Financial Literacy Board Game Instruction Manual

Model: BeFree Classic

Brand: BeFree

1. INTRODUCTION TO BEFREE

The BeFree Strategy & Financial Literacy Board Game offers an interactive and educational experience designed to teach fundamental financial concepts. Players embark on an investment journey to financial freedom, learning about income generation, cash flow management, and strategic investments in a simulated real-world environment. This game is suitable for families and teens, fostering critical thinking and decision-making skills related to personal finance.

Description: An animated trailer providing an overview of the BeFree board game and its financial literacy focus.

2. GAME COMPONENTS

The BeFree game includes all necessary components for an immersive financial learning experience:

- 1 Game Board
- 6 Game Tokens (player pieces)
- 1 Die
- Banknotes (various denominations: \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, \$100,000, \$200,000, \$500,000)
- Game Cards: Loans (Small, Medium, Large), Investments (Small, Medium, Large), Question, Spending, Expenses with Bonus, Years
- Instruction Manual
- Bonus Book: "BeFree: How to Live and Invest to Become Free"

Description: A visual representation of all game components, including the board, cards, money, and player pieces.

3. SETUP

1. Place the game board on a flat surface.
2. Arrange banknotes by denomination and designate a banker to manage the money.
3. Shuffle each type of game card (Loans, Investments, Question, Spending, Expenses with Bonus, Years) and place them face down in their designated areas on or next to the board.
4. Each player selects a game token and places it on the 'Start' space.
5. The youngest player starts the game and proceeds in a clockwise order.

4. GAME OBJECTIVE

The primary goal of BeFree is to achieve financial independence. Players aim for one of the following objectives:

- Generate an annual passive net income of \$120,000 (equating to an average monthly income of \$10,000).
- Build up total capital of \$2,500,000 (this is the net value of all assets minus any outstanding loans). This level of capital should be sufficient to facilitate substantial investments and provide a monthly passive income of \$10,000.

Note: For the purposes of the game, 'net income' refers to the amount remaining after all expenses and taxes have been deducted.

5. OPERATING THE GAME (GAMEPLAY)

Players take turns rolling the die and moving their token around the pentagon-shaped board. Each side of the pentagon represents one year of game time, with eight spaces per side. Completing a full circuit around all five sides is equivalent to five years in the game.

Turn Sequence:

1. Roll the die and move your token the corresponding number of spaces.
2. Follow the instructions on the landed space.
3. If you pass or land on a 'Years' space, collect your annual income and pay any loan interest due.

Space Types and Cards:

- **Investment Spaces:** Draw an Investment card. These cards represent opportunities to invest in various

assets (e.g., real estate, stocks, businesses). Each card details potential passive income, upside at sale, and crisis-related loss. Players decide whether to invest based on their financial strategy.

- **Loan Spaces:** Draw a Loan card. These represent opportunities to take out loans to fund investments or cover expenses. Cards specify the loan amount and annual interest repayment.
- **Spending Spaces:** Draw a Spending card. These represent various personal expenses that players must pay.
- **Expenses with Bonus Spaces:** Draw an Expenses with Bonus card. These are expenses that may come with an additional benefit or cost.
- **Question Spaces:** Draw a Question card. These cards present financial literacy questions. Answering correctly can provide benefits, while incorrect answers may have consequences.
- **Years Spaces:** As mentioned, passing or landing on these spaces triggers income collection and loan interest payments.
