SAFETY INFORMATION

Warning:

- Children should only use the air pump under the direct supervision of an adult.
- Do not operate the pump in wet conditions or near water.
- Ensure the correct nozzle is used for the item being inflated to prevent over-inflation or damage.
- Do not point the nozzle at eyes or face when operating.

PACKAGE CONTENTS

- 1 x Bestway Air Hammer Inflation Air Pump
- 3 x Valve Adapters
- 1 x Flexible Hose

FEATURES

- **Dual Action:** Designed for maximum airflow, pumping air on both the up and down strokes.

- **Versatile Nozzles:** Includes 3 valve adapters for compatibility with various inflation items.
- **Flexible Hose:** Provides ease of use and maneuverability.
- **Foot Plate:** Sturdy foot plate for stability during operation.
- **Compact Design:** Easy to store and transport.

SETUP

1. **Attach the Hose:** Securely screw the flexible hose onto the pump's air outlet.
2. **Select Nozzle:** Choose the appropriate valve adapter for the item you wish to inflate. The pump comes with three different sizes to fit most common valves.
3. **Connect Nozzle:** Firmly insert the selected valve adapter into the end of the flexible hose.

OPERATING INSTRUCTIONS

Inflation:

1. **Insert Nozzle:** Insert the connected nozzle firmly into the valve of the item to be inflated.
2. **Stabilize Pump:** Place your feet on the foot plate at the base of the pump to stabilize it.
3. **Pump Air:** Hold the handle with both hands and move it up and down in a steady motion. The dual-action design inflates on both strokes, speeding up the process.
4. **Monitor Inflation:** Continue pumping until the item is firm. Avoid over-inflation.

Deflation:

To deflate an item, simply remove the nozzle from the item's valve to allow air to escape. For faster deflation, some items may allow the pump to be used in reverse by connecting the hose to the deflation port (if available) and operating the pump. Consult the item's specific instructions for deflation methods.

MAINTENANCE

- **Cleaning:** Wipe the pump clean with a damp cloth after each use. Ensure it is dry before storage.
- **Storage:** Store the pump and its accessories in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check the hose and nozzles for any signs of wear or damage. Replace if necessary.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No air flow / Slow inflation	Hose or nozzle not securely attached; incorrect nozzle size; pump mechanism obstruction.	Ensure all connections are tight. Select the correct nozzle. Check for debris in the pump or hose.
Air leakage	Loose connections; damaged hose/nozzle; faulty item valve.	Tighten all connections. Inspect hose and nozzles for damage and replace if necessary. Check the item's valve.
