BOXPUT iATV Q5

BOXPUT iATV Q5 Mini TV Box User Manual

Model: iATV Q5

1. Introduction

Thank you for choosing the BOXPUT iATV Q5 Mini TV Box. This device transforms your television into a smart entertainment hub, offering access to a vast array of streaming content, applications, and games. Powered by Android 10.0 and an Allwinner H313 processor, it delivers a smooth 4K UHD viewing experience with advanced connectivity options like Wi-Fi 6 and Bluetooth 5.2.

2. What's in the Box

- 1x iATV Q5 Mini TV Box
- 1x Bluetooth Voice Remote Control
- 1x HD Cable
- 1x User Manual
- 1x Power Supply

3. Product Overview

3.1 Device Ports and Features

The iATV Q5 Mini TV Box is designed with essential ports for easy connectivity to your television and other peripherals.

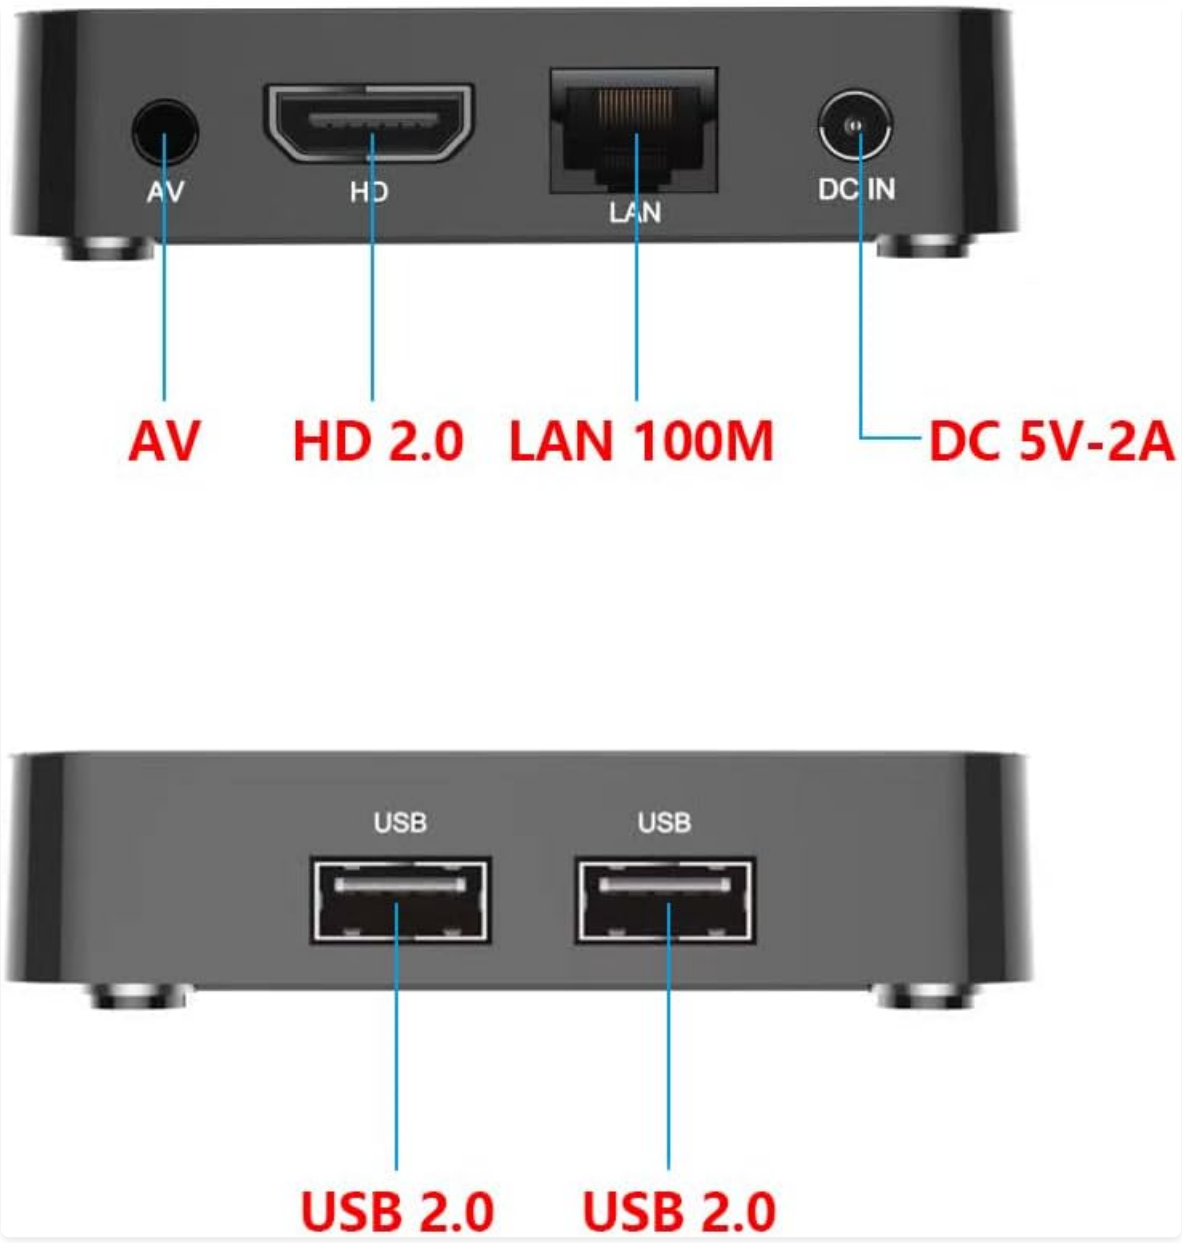

Image: Detailed view of the iATV Q5 TV Box, highlighting its AV, HD (HDMI 2.0), LAN (100M), DC IN (5V-2A), and two USB 2.0 ports.

- **AV Port:** For connecting to older televisions using an AV cable (not included).
- **HD (HDMI 2.0) Port:** For connecting to modern televisions or monitors for high-definition video and audio output.
- **LAN (100M) Port:** For wired internet connection via an Ethernet cable.
- **DC IN (5V-2A):** Power input port.
- **USB 2.0 Ports (x2):** For connecting external devices such as USB drives, keyboards, or mice.

3.2 Bluetooth Voice Remote Control

The included remote control features Bluetooth connectivity for wider range and responsiveness, along with a voice search function for convenient navigation.

Image: Front and back views of the Bluetooth Voice Remote Control, showing navigation buttons, dedicated Netflix and YouTube buttons, and microphone for voice commands.

4. Setup Guide

4.1 Connecting the TV Box

1. Connect one end of the provided HD Cable (HDMI) to the HD port on the TV Box.
2. Connect the other end of the HD Cable to an available HDMI input on your television.
3. Connect the Power Supply to the DC IN port on the TV Box, then plug the adapter into a power outlet.
4. Turn on your television and select the correct HDMI input source using your TV's remote control.

4.2 Network Connection

The iATV Q5 supports both Wi-Fi and Ethernet connections.

- **Wi-Fi Connection:**
  a. From the home screen, navigate to **Settings** > **Network & Internet**.
  b. Turn on Wi-Fi and select your desired network from the list.
  c. Enter the Wi-Fi password if prompted and select **Connect**.
- **Ethernet Connection:**
  a. Connect an Ethernet cable from your router to the LAN port on the TV Box.
  b. The TV Box will automatically detect and connect to the wired network.

4.3 Pairing the Bluetooth Voice Remote Control

The remote control is pre-paired for basic functions. For voice control and full Bluetooth functionality, follow these steps:

1. Ensure the TV Box is powered on and connected to your TV.
2. On the TV Box, navigate to **Settings** > **Connected devices** > **Pair new device**.

3. On the remote control, press and hold the **OK** button and the **Volume Down (-)** button simultaneously until the indicator light on the remote starts blinking.
4. Select the remote control from the list of available devices on your TV screen to complete the pairing process.

5. Operation

5.1 Navigating the Interface

Use the directional pad and OK button on your remote to navigate through the Android TV interface. The Home button returns you to the main screen, and the Back button goes to the previous screen.

5.2 Installing Applications

The iATV Q5 comes with pre-installed apps. You can download more applications from the Google Play Store:

1. From the home screen, select the **Google Play Store** icon.
2. Sign in with your Google account.
3. Browse or search for apps and select **Install** to download them to your TV Box.

5.3 Using Voice Control

With the paired Bluetooth voice remote, you can use voice commands:

1. Press and hold the **Voice** button (microphone icon) on your remote.
2. Speak your command clearly into the remote (e.g., "Open Netflix," "Search for action movies," "What's the weather?").
3. Release the button when you are finished speaking.

5.4 4K UHD and HDR Playback

The iATV Q5 supports H.265 4K output and HDR10+ technology, providing a high-quality visual experience. Ensure your television is 4K and HDR compatible for optimal viewing.

Image: Visual demonstrating the 4K HDR H313 capabilities, highlighting the enhanced detail and color range compared to SDR.

5.5 DLNA and Miracast

The TV Box supports DLNA and Miracast, allowing you to cast content from your compatible mobile devices to your television screen.

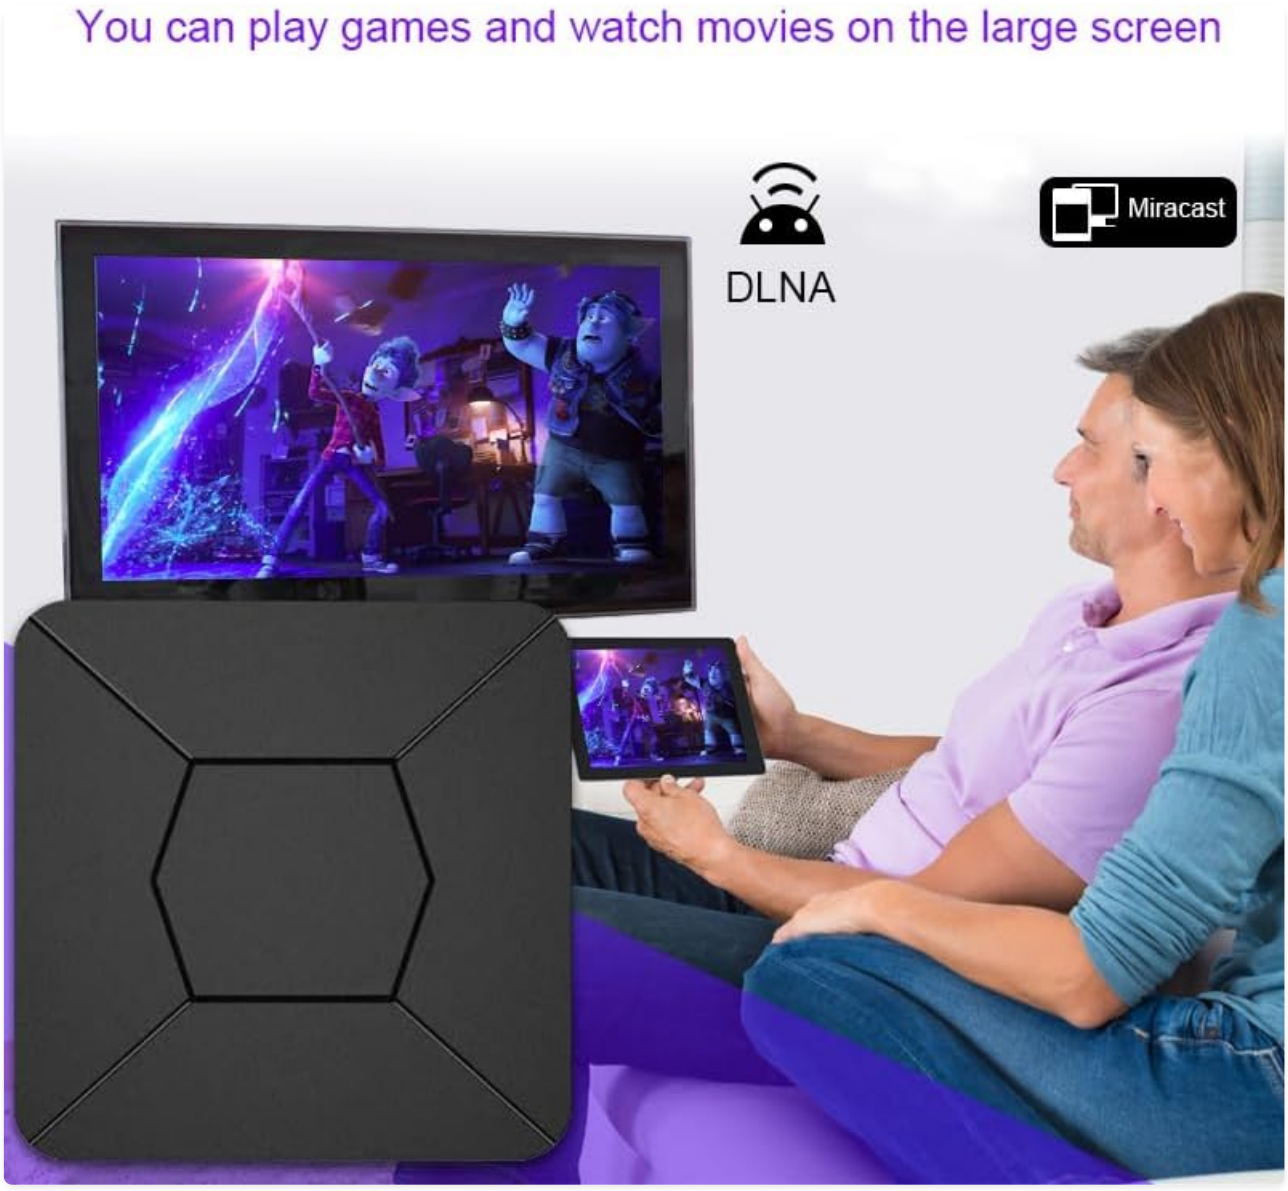

Image: A user enjoying content mirrored from a tablet to a large screen TV, illustrating the DLNA and Miracast functionality of the TV box.

6. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or aerosols.
- **Software Updates:** Periodically check for system updates in **Settings** > **Device Preferences** > **About** > **System update** to ensure optimal performance and access to new features.
- **Storage Management:** To maintain performance, regularly clear cache and uninstall unused applications from **Settings** > **Apps**.

7. Troubleshooting

Problem	Possible Cause	Solution
No power	Power adapter not connected or faulty.	Ensure power adapter is securely connected to the TV Box and a working power outlet. Try a different outlet.

Problem	Possible Cause	Solution
No picture on TV	Incorrect HDMI input selected or loose HDMI cable.	Check that your TV is on the correct HDMI input. Ensure the HDMI cable is securely connected to both the TV Box and the TV. Try a different HDMI port or cable.
Remote control not responding	Batteries low or remote not paired.	Replace batteries in the remote. Re-pair the Bluetooth remote control as described in Section 4.3.
Buffering or slow performance	Weak Wi-Fi signal, network congestion, or too many apps running.	Ensure strong Wi-Fi signal or use an Ethernet cable. Close unused apps. Restart the TV Box and router.
Voice control not working	Remote not properly paired for voice.	Ensure the Bluetooth voice remote is correctly paired as per Section 4.3.

Answered questions about this manual

My BOXPUT iATV Q5 remote was not connecting, so I used a phone app as a remote, but I mistakenly unpaired the phone. How do I pair the remote or phone again?

To resolve this, you need to re-pair your physical Bluetooth remote first so you can navigate the menus to reconnect your phone. Follow these steps for the BOXPUT iATV Q5: Connect a USB Mouse...
