7. Troubleshooting

If you encounter any issues with your camera, please refer to the following common troubleshooting steps:

- **Camera not turning on:** Ensure the battery is correctly inserted and fully charged.
- **Cannot take photos/videos:** Check if a memory card is inserted and has sufficient free space. Ensure the battery has enough charge.
- **Blurry images:** Verify that autofocus is enabled and the lens is clean. Ensure adequate lighting.

- **Webcam not recognized:** Ensure the USB cable is securely connected and 'PC Camera' mode is selected on the camera.
- **Poor video quality:** Check lighting conditions and ensure the camera is set to 4K UHD resolution in the settings.

If problems persist, please contact Zunate customer support for further assistance.

8. Maintenance

Proper care and maintenance will extend the life of your camera:

- **Cleaning the Lens:** Use the provided cleaning cloth or a soft, lint-free cloth specifically designed for camera lenses. Avoid using harsh chemicals.
- **Cleaning the Screen:** Gently wipe the screen with a soft, dry microfiber cloth.
- **Cleaning the Camera Body:** Use a soft, dry cloth to wipe the camera body. Avoid moisture.
- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. Remove the battery if the camera will not be used for an extended period.
