## Lisowod L02

# Lisowod Mini Projector User Manual

Model: L02

Image: Lisowod Mini Projector in use, highlighting its adjustable stand and projection capabilities.

## INTRODUCTION

Thank you for choosing the Lisowod Mini Projector. This portable projector is designed to provide a stunning home theater experience with its native 1080P resolution, advanced connectivity, and user-friendly features. Please read this manual carefully to ensure proper operation and maintenance of your device.

## WHAT'S IN THE BOX

- L02 Mini Projector x1

- Power Adapter x1
- Remote Control x1 (Batteries not included)
- HDMI Cable x1
- User Manual x1

## PRODUCT FEATURES

### 360° Adjustable and Removable Stand

The projector features a versatile 360° adjustable stand, allowing for flexible positioning to project onto walls or ceilings. The unique double-stent design makes installation and removal easy with a single screw, maintaining the projector's aesthetic.

Image: The projector's adjustable stand allows for versatile projection angles, including ceiling projection.

## Electric Focus & Auto Keystone Correction

Equipped with advanced electric focus and auto keystone features, the projector ensures a perfectly clear and rectangular image with simple remote control operation. It supports 4:3 and 16:9 aspect ratios and 70-100% zoom, allowing for suitable screen sizes without moving the projector.

Image: Visual representation of the projector's auto keystone and electric focus capabilities, ensuring a clear and aligned image.

## Native FHD 1080P Resolution

Experience stunning visuals with native 1080P resolution and 500 ANSI brightness. This LCD projector delivers naturally colorful images and crisp, clear details, ideal for home theater, outdoor movie nights, gaming, and presentations.

## SETUP GUIDE

- Unpack and Place:** Carefully remove the projector and all accessories from the box. Place the projector on a stable, flat surface or mount it using the adjustable stand.
- Power Connection:** Connect the power adapter to the projector's power input and then plug it into a power outlet.
- Insert Remote Batteries:** Open the battery compartment of the remote control and insert two AAA batteries (not included), ensuring correct polarity.
- Power On:** Press the power button on the projector or the remote control to turn on the device.
- Initial Focus and Keystone:** The projector features electric focus and auto keystone. Use the remote control to fine-tune the focus if needed. The auto keystone will adjust the image shape automatically.
- Connect Input Source:**
  - HDMI:** Connect your device (e.g., laptop, game console, TV stick) to the projector using the provided HDMI cable. Select the HDMI input source from the projector's menu.
  - USB:** Insert a USB drive into the USB port to play media files.
  - Wireless Mirroring (WiFi 6):** Navigate to the wireless mirroring option in the projector's menu. Connect the projector to your home WiFi network. Then, connect your smartphone or tablet to the same WiFi network and use its screen mirroring function (e.g., AirPlay for iOS, Miracast for Android) to cast your screen.
  - Bluetooth:** For audio output, go to the Bluetooth settings in the projector's menu to pair with external

Bluetooth speakers or headphones. The projector can also act as a Bluetooth speaker for your phone.

## OPERATING INSTRUCTIONS

### Basic Operation

- **Navigation:** Use the arrow keys and OK button on the remote control to navigate through the projector's menu.
- **Input Source Selection:** Press the "Source" button on the remote to switch between HDMI, USB, and wireless mirroring inputs.
- **Volume Control:** Use the volume buttons on the remote to adjust the audio output.
- **Zoom Function:** Adjust the screen size from 70% to 100% using the zoom feature in the settings menu, without moving the projector.

### Important Notes on Streaming Services

70% to 100% support  
Meet all your projection needs

Due to HDCP copyright limitations, direct wireless mirroring from phones for streaming services like Netflix, Amazon Prime Video, or Disney+ is not supported. To watch content from these platforms, you must use an external device such as a Fire TV Stick, Roku, Google Chromecast, or a laptop connected via HDMI.

Image: The projector alongside a TV stick, illustrating the recommended method for accessing copyrighted streaming content.

## MAINTENANCE

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses to gently wipe the projector lens. Do not use abrasive cleaners or harsh chemicals.
- **Dust Removal:** Regularly clean the projector's vents to prevent dust buildup, which can affect performance and lifespan. Use a soft brush or compressed air.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Power Off Properly:** Always turn off the projector using the power button and allow it to cool down before unplugging or moving.

## TROUBLESHOOTING

Problem	Possible Cause / Solution
No image or blurry image	<div>Check power connection.</div> <div>Adjust electric focus using the remote control.</div> <div>Ensure the projection surface is flat and the projector is stable.</div> <div>Verify the input source is correctly selected.</div>

Problem	Possible Cause / Solution
No sound or low volume	Increase volume on the projector and the connected device. Check audio cable connection (if using 3.5mm jack). If using Bluetooth, ensure proper pairing with external speakers. Note: For some content, especially from laptops, audio might default to the laptop speakers. Adjust audio output settings on your connected device.
Cannot mirror Netflix/Amazon Prime	This is due to HDCP copyright protection. Use a streaming stick (e.g., Fire TV Stick, Roku) or connect a laptop via HDMI to play content from these services.
WiFi connection issues	Ensure the projector and your device are connected to the same WiFi network. Check WiFi password. Restart the projector and your router. Ensure you are within range of the WiFi signal.
Remote control not working	Check and replace batteries. Ensure there are no obstructions between the remote and the projector's IR receiver.

SPECIFICATIONS

Feature	Detail
Brand	Lisowod
Model Number	L02
