

## iWALK MXB010

# iWALK Magnetic Power Bank 10000mAh User Manual

Model: MXB010

Brand: iWALK

## 1. INTRODUCTION AND OVERVIEW

The iWALK Magnetic Power Bank 10000mAh is a versatile portable charging solution designed for modern mobile devices. It features both high-speed wired (30W PD) and efficient wireless (15W Qi2 certified) charging capabilities, ensuring your devices stay powered throughout the day. Its compact design, integrated detachable USB-C cable, and intelligent features like an LED display and advanced cooling system make it an ideal companion for daily use, travel, and work.

## 2. KEY FEATURES

- **30W PD Fast Charging:** Experience rapid charging with 30W Power Delivery output and input. This allows for significantly faster charging of compatible devices, reaching up to 60% on an iPhone 15 Pro in just 30 minutes. The integrated detachable USB-C cable provides convenient wired charging.
- **Qi2 Certified 15W Wireless Charging:** Enjoy efficient and safe wireless charging with Qi2 certification, delivering up to 15W. The strong magnetic attachment ensures secure alignment for optimal wireless power transfer.
- **10000mAh High Capacity:** The substantial 10000mAh battery capacity provides multiple charges for your devices, such as up to 1.5 charges for an iPhone 15 Pro Max or 2.0 charges for an iPhone 15/14/13/12 series.

- **iWALK MagCool 2.0 Cooling System:** Equipped with iWALK's self-developed circuit cooling system, MagCool 2.0, this power bank protects against overheating during charging, ensuring a safer and more stable charging experience.
- **Ergonomic Grip Sense:** Designed with user comfort in mind, the power bank features an ergonomic shape that provides a comfortable and secure grip during use.
- **Digital LED Display:** A clear digital display shows the remaining battery percentage of the power bank, allowing you to monitor its charge level at a glance.
- **Wide Compatibility:** Compatible with a broad range of devices including iPhone 12, 13, 14, 15, 16 series, Samsung Galaxy S20, S21, S22, S23 series, iPads, AirPods, and other USB-C enabled electronic devices.

### 3. WHAT'S INCLUDED

---

Upon opening the package, you will find the following items:

- iWALK Magnetic Power Bank 10,000mAh (Model: MXB010)
- Detachable USB-C cable (integrated into the power bank)
- USB-C to USB-C cable (20-inch)
- User Manual

## 4. SETUP

---

### 4.1 Charging the Power Bank

Before initial use, fully charge your iWALK Magnetic Power Bank. The power bank supports 30W PD fast charging input.

1. Locate the USB-C input/output port on the power bank.
2. Connect the provided USB-C to USB-C cable to the power bank's USB-C port.
3. Connect the other end of the cable to a compatible USB-C power adapter (not included) with 30W PD or higher output.

- The LED display will show the charging progress. The power bank is fully charged when the display shows 100%.

## 5. OPERATING INSTRUCTIONS

### 5.1 Wireless Charging (15W Qi2)

For wireless charging, ensure your device is compatible with Qi2 wireless charging and has magnetic capabilities (e.g., iPhone 12-16 series). If your phone does not have built-in magnetic capabilities, a MagSafe-compatible case is required.

- Align the back of your compatible smartphone with the magnetic charging area on the power bank. The magnets will snap into place, ensuring proper alignment.
- The power bank will automatically begin wireless charging. The LED display may indicate active charging.

## 5.2 Wired Charging (30W PD)

For wired charging, use the integrated detachable USB-C cable or the included 20-inch USB-C to USB-C cable.

1. **Using the Detachable Cable:** Gently pull out the integrated USB-C cable from its slot on the power bank. Connect the USB-C end to your device's charging port.
2. **Using the Included Cable:** Connect one end of the 20-inch USB-C to USB-C cable to the power bank's USB-C port and the other end to your device's USB-C port.
3. The power bank will automatically begin wired charging at up to 30W PD, depending on your device's compatibility.

## 5.3 Simultaneous Charging

The iWALK Magnetic Power Bank allows for simultaneous charging of two devices: one via wireless charging and another via the wired USB-C connection.

## 6. MAINTENANCE

---

- **Cleaning:** Use a soft, dry cloth to clean the power bank. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight, extreme temperatures, and humidity.
- **Battery Care:** To prolong battery life, avoid fully discharging the power bank frequently. Recharge it regularly, even if not in constant use.
- **Handling:** Do not drop, disassemble, or attempt to repair the power bank yourself. This may void the warranty and cause damage.

## 7. TROUBLESHOOTING

---

- **Power Bank Not Charging:**
  - Ensure the USB-C cable is securely connected to both the power bank and the power adapter.
  - Verify that the power adapter is functioning correctly and is a compatible PD charger (30W or higher recommended).
  - Try a different USB-C cable or power adapter.
- **Device Not Charging (Wired):**
  - Check if the detachable USB-C cable or the external USB-C cable is fully inserted into both the power bank and your device.
  - Ensure your device's charging port is clean and free of debris.
  - Verify your device is compatible with USB-C charging.
- **Device Not Charging (Wireless):**
  - Ensure your device is Qi2 wireless charging compatible and has magnetic alignment (e.g.,

iPhone 12-16 series).

- If using a case, ensure it is MagSafe-compatible and not too thick, as this can interfere with magnetic alignment and wireless charging efficiency.
- Remove any metal objects or credit cards between your device and the power bank.
- Ensure the power bank has sufficient charge.

- **Slow Charging:**

- For fast charging, ensure both the power bank and your device support PD (Power Delivery) for wired charging, or Qi2 for wireless charging.
- Check the power adapter's output for charging the power bank; a lower wattage adapter will result in slower charging.
- Ensure no background apps are consuming excessive power on your device while charging.

- **Overheating:**

- The iWALK MagCool 2.0 system is designed to prevent overheating. However, if the power bank or your device feels excessively hot, discontinue use immediately.
- Ensure there is adequate ventilation around the power bank and device during charging.
- Avoid charging in direct sunlight or hot environments.

- **LED Display Not Working:**

- Press the power button firmly.
- If the power bank is completely drained, the display may not light up until it receives some charge.

## 8. SPECIFICATIONS

---

Attribute	Detail
Model Number	MXB010
Battery Capacity	10000mAh (3.85V/38.5Wh)
USB-C Port Input	5V=3A, 9V=3A, 12V=2.5A, 15V=2A, 20V=1.5A (Max 30W)
USB-C Cable Input	5V=3A, 9V=3A, 12V=2.5A, 15V=2A, 20V=1.5A (Max 30W)
USB-C Cable Output	5V=3A, 9V=3A, 12V=2.5A, 15V=2A, 20V=1.5A (Max 30W)
Wireless Charging Output	5W/7.5W/10W/15W (Qi2 Certified)
Product Dimensions	4.17 x 2.6 x 1 inches
Item Weight	12 ounces
Manufacturer	U2O GLOBAL CO.,LTD.
Country of Origin	China
