HOROW HR-T37

HOROW HR-T37 Smart Bidet Toilet Instruction Manual

Brand: HOROW | Model: HR-T37

Introduction

This manual provides comprehensive instructions for the installation, operation, and maintenance of your HOROW HR-T37 Smart Bidet Toilet. Designed for modern bathrooms, this intelligent toilet offers advanced features for enhanced hygiene and comfort, perfectly blending into both historical and contemporary settings with its unique 10-inch rough-in design.

Key Features

- **10 Inch Rough-in Design:** The unique design allows for perfect fit in various bathroom layouts, including those with 10-inch rough-in requirements.
- **Automatic Lid:** The smart toilet lid automatically opens and closes as you approach and depart, providing a touchless experience.
- **Hands-Free Flushing:** Enjoy the convenience of off-seat and foot sensor flushing for ultimate hygiene.
- **One-piece Bidet Combo:** Features instant warm water with adjustable temperature, washing mode, and water pressure for a personalized cleaning experience.
- **Heated Seat:** The elongated toilet seat heats up quickly, ensuring comfort during use.
- **Warm Air Dryer:** Provides warm air drying with four adjustable temperature levels to enhance comfort and reduce paper consumption.
- **Night Light:** A built-in night light illuminates the bowl, preventing stumbles in the dark and offering safety.
- **Automatic Deodorization:** Integrated deodorizer helps maintain a fresh bathroom environment.
- **UV Light Sterilization:** UV light ensures enhanced personal hygiene by sterilizing the nozzle.
- **Digital Display:** Provides clear temperature visualization and status indicators.
- **Emergency Flush:** A manual knob allows for flushing even during power outages.
- **Soft-Close Seat:** The seat and lid close gently and quietly, preventing slamming.

Visual Overview

Figure 2: Illustration of the 10-inch rough-in measurement for the HR-T37 model, highlighting its compatibility.

Figure 3: Product dimensions and a list of included components such as remote control, valve, adapters, bolts, wax ring, flange, manual, and water flow bags.

Setup and Installation

Proper installation is crucial for optimal performance and safety. It is recommended to consult a professional plumber for installation if you are unsure about any steps.

Pre-Installation Checklist

- Ensure a 10-inch rough-in measurement from the wall to the center of the drain pipe.
- Verify availability of a grounded 120V AC power outlet within 30.7 inches of the toilet's power cord.
- Confirm water supply line is accessible and has a shut-off valve.

Installation Steps (Simplified)

1. Prepare the floor drain and ensure the area is clean and dry.
2. Install the provided flange and wax ring over the drain pipe.
3. Carefully position the toilet over the flange, aligning the mounting bolts.
4. Secure the toilet to the floor using the provided nuts and washers, ensuring it is stable and level.
5. Connect the water supply line to the toilet's water inlet valve.
6. Plug the toilet into the grounded power outlet.
7. Perform initial water flow test and check for any leaks.

Operating Instructions

Automatic Functions

- **Auto Open/Close Lid:** The lid automatically opens when a user approaches and closes upon departure.
- **Off-Seat Flushing:** The toilet flushes automatically when you stand up and move away from the seat.
- **Foot Sensor Flushing:** A gentle tap with your foot on the sensor at the base of the toilet will activate flushing.

Remote Control Functions

The remote control allows for personalized settings and manual operation of all smart features.

Figure 5: Overview of the remote control for the HR-T37, showing buttons for various functions and settings.

- **Rear Wash** / **Front Wash:** Activates the bidet functions for posterior or feminine cleaning.
- **Stop:** Stops any active bidet or drying function.
- **Dryer:** Activates the warm air dryer. Adjustable temperature settings are available.
- **Flush:** Manual flush button for full or half flush.
- **Strong/Weak (+/-):** Adjusts water pressure for bidet functions.
- **Seat Temp:** Adjusts heated seat temperature (4 levels).
- **Water Temp:** Adjusts bidet water temperature (4 levels).
- **Deodorizer:** Activates automatic deodorization.
- **Night Light:** Toggles the built-in night light on or off.
- **Open/Close:** Manually opens or closes the lid.
- **Front/Back Arrows:** Adjusts nozzle position for bidet functions.

Maintenance

Cleaning

- Use a soft cloth and mild, non-abrasive cleaner for all surfaces.
- Do not use harsh chemicals, abrasive pads, or strong detergents as they may damage the ceramic or plastic components.
- Regularly clean the bidet nozzle using the "Nozzle Clean" function on the remote control for optimal hygiene.

General Care

- Avoid placing heavy objects on the toilet lid or seat.
- Ensure the power cord is not pinched, kinked, or damaged.
- For extended periods of non-use, consider unplugging the unit and turning off the water supply valve.

Troubleshooting

Problem	Possible Cause	Solution
Lid does not open/close automatically	Proximity sensor obstructed or automatic function disabled.	Clear any obstructions around the sensor. Check remote settings to ensure auto-open/close is enabled.
Bidet water is cold or inconsistent temperature	Water heater off, temperature set too low, or water pressure issues.	Ensure power is supplied to the toilet. Adjust water temperature using the remote. Check water supply pressure.
Toilet does not flush (automatic or manual)	Power outage, water supply off, or sensor malfunction.	For power outages, use the manual flush knob. Check power connection and ensure water supply valve is open. If issues persist, contact support.
