LQWELL 90376

LQWELL® LED Ceiling Light Instruction Manual

Model: 90376

Product Overview	Safety Information	Package Contents	Setup & Installation
Operating Instructions	Maintenance	Troubleshooting	Specifications

1. PRODUCT OVERVIEW

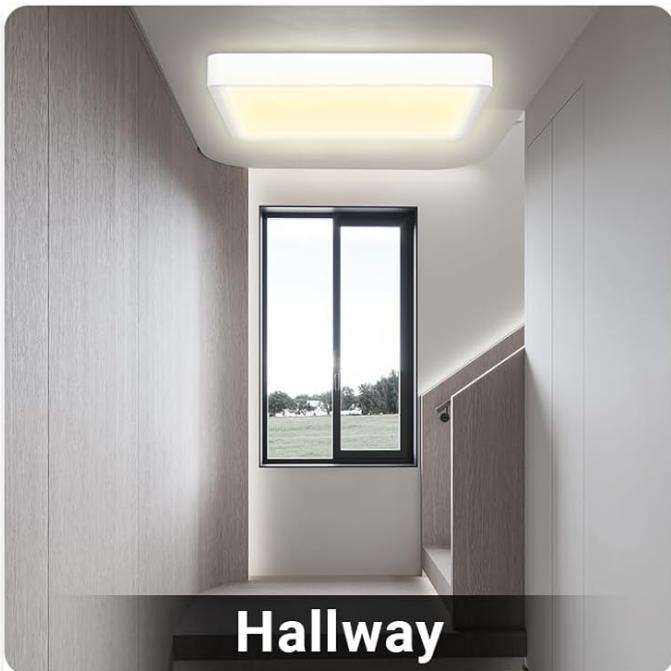

The LQWELL® LED Ceiling Light is a modern and slim lighting fixture designed for various indoor environments. This square flat light, model 90376, provides 3000K warm white light with a brightness of 1600 lumens and operates at 18 watts. Its IP44 waterproof rating makes it suitable for areas prone to moisture, such as bathrooms and balconies. The design emphasizes ease of installation, natural color rendering, and eye protection.

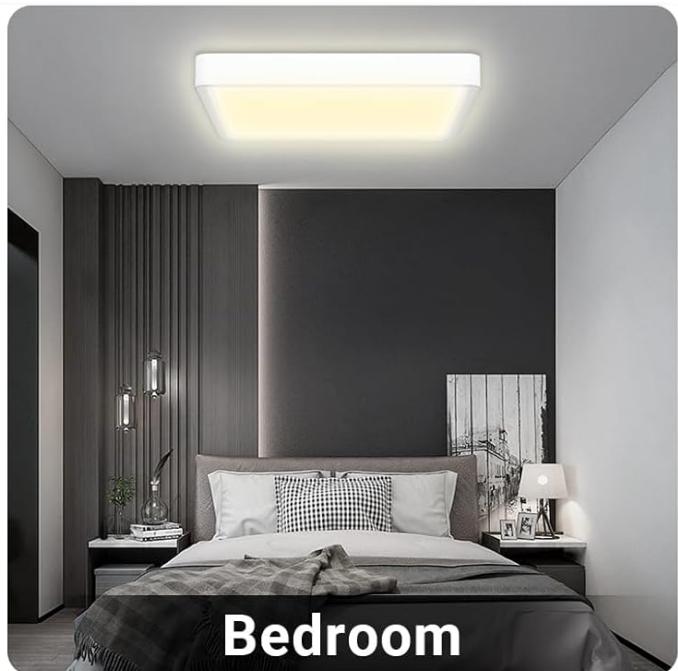

Figure 1.1: The LQWELL LED Ceiling Light, showcasing its square, flat design and warm illumination.

Key Features:

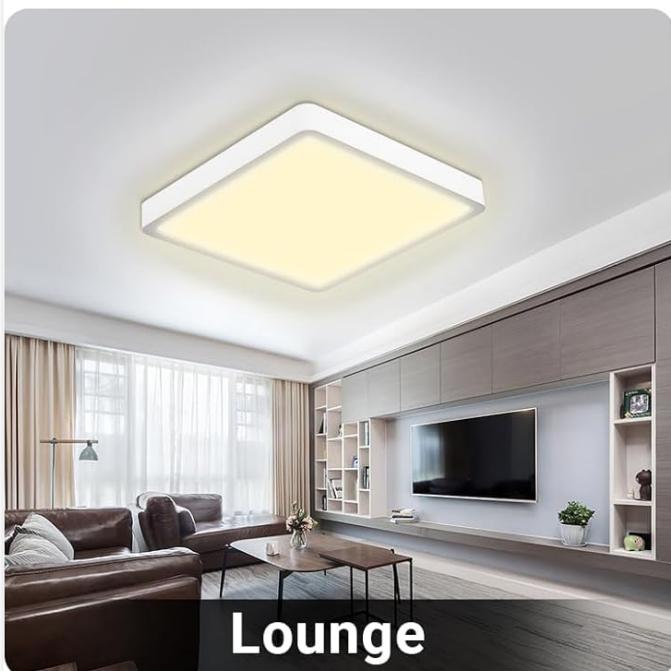

- **Versatile Lighting:** Provides 3000K warm white light, suitable for living rooms, bedrooms, kitchens, bathrooms, corridors, basements, and offices.
- **IP44 Waterproof Design:** Ensures water resistance, making it ideal for moist environments. The sealed structure prevents insect and dust ingress, maintaining cleanliness over time.
- **Easy & Quick Installation:** Features a user-friendly design with an adjustable connection clamp for simple, single-person installation.
- **Natural Color & Eye Protection:** A Color Rendering Index (CRI) of over 92 ensures light is closer to natural colors, reducing eye strain with soft, evenly distributed illumination.
- **Excellent Craftsmanship:** Slim profile of 2.4 cm saves space. Frosted lampshade provides an elegant aesthetic and efficient light transmission.

2. SAFETY INFORMATION

Please read all safety instructions carefully before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Electrical Safety:** Ensure the main power supply is turned off at the circuit breaker before attempting any installation, maintenance, or troubleshooting.
- Qualified Electrician:** If you are unsure about the installation process, consult a qualified electrician.
- Voltage Compatibility:** This light fixture is designed for AC220-240V input voltage. Verify your electrical system's voltage before installation.
- IP44 Rating:** The IP44 rating indicates protection against solid objects larger than 1mm and splashes of water from any direction. While suitable for damp locations like bathrooms, it is not designed for submersion or direct water jets.
- Mounting Surface:** Mount the fixture only on surfaces that can support its weight and are free from obstructions.

- **Heat Dissipation:** Do not cover the light fixture with insulating material or any other material that could impede heat dissipation.
- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth. Do not use abrasive cleaners or solvents.

3. PACKAGE CONTENTS

Carefully unpack the box and ensure all items are present and undamaged. If any items are missing or damaged, contact LQWELL customer support.

- LQWELL LED Ceiling Light Fixture (Model 90376)
- Mounting Hardware (screws, wall anchors, etc.)
- Instruction Manual (this document)

4. SETUP & INSTALLATION

The LQWELL LED Ceiling Light is designed for easy and quick installation. Follow these steps carefully:

1. **Turn Off Power:** Before starting, ensure the main power supply to the installation area is turned off at the circuit breaker to prevent electric shock.
2. **Prepare Mounting Surface:** Identify the desired mounting location on the ceiling. Ensure the surface is clean, dry, and structurally sound.
3. **Attach Mounting Bracket:** Secure the mounting bracket (if separate) to the ceiling using the provided screws and wall anchors. Ensure it is firmly attached.
4. **Connect Wiring:** Connect the electrical wires from the ceiling to the light fixture's terminals. Typically, this involves connecting the live (L), neutral (N), and ground (GND) wires. Ensure all connections are secure and insulated.
5. **Mount the Fixture:** Align the light fixture with the mounting bracket. The user-friendly adjustable connection clamp allows for easy sliding and securing of the fixture onto the base. Push the fixture firmly into place until it clicks or is securely fastened.
6. **Restore Power:** Once the fixture is securely installed and all connections are checked, restore power at the circuit breaker.
7. **Test Light:** Turn on the light switch to verify proper operation.

Note: The light is designed for single-person installation without the need for an electrician, but professional assistance is recommended if you are unfamiliar with electrical installations.

5. OPERATING INSTRUCTIONS

Operating the LQWELL LED Ceiling Light is straightforward:

- **Turning On/Off:** Use the standard wall light switch connected to the fixture to turn the light on or off.
- **Light Color:** This specific model (90376) provides a fixed 3000K warm white light. There are no adjustable color temperature settings on this model.

Figure 5.1: The LQWELL LED Ceiling Light demonstrating its key specifications: 3000K color temperature, 18W power consumption, 1600 lumens brightness, CRI \geq 92, and IP44 waterproof rating.

Eye Protection Features:

The LQWELL ceiling light is designed with eye comfort in mind:

- **High CRI:** With a Color Rendering Index (CRI) of over 92, the light accurately renders colors, making objects appear more natural and vibrant.
- **No Flicker:** The advanced design ensures no visible flickering, which can cause eye strain and discomfort.
- **No Dizziness:** The stable and uniform light output prevents the sensation of dizziness often associated with poor quality lighting.

Figure 5.3: This image demonstrates the superior color rendering of the LQWELL light ($\text{CRI} \geq 92$) compared to lights with a lower CRI (<80), showing how colors appear more natural and vibrant under high CRI illumination.

6. MAINTENANCE

The LQWELL LED Ceiling Light requires minimal maintenance due to its sealed design.

- **Cleaning:** To clean the exterior of the fixture, first ensure the power is turned off at the circuit breaker. Use a soft, dry, or slightly damp cloth to wipe the surface. Do not use harsh chemicals, abrasive cleaners, or solvents, as these can damage the finish.
- **Dust and Insect Prevention:** The sealed and compact lamp body structure is designed to effectively prevent mosquitoes and dust from entering the light fixture. This feature reduces the need for internal cleaning and helps maintain the light's aesthetic and performance over time.
- **No User-Serviceable Parts:** The LED components are integrated and not user-replaceable. Do not attempt to disassemble the fixture.

7. TROUBLESHOOTING

If you encounter issues with your LQWELL LED Ceiling Light, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power supply. Loose wiring connection. Faulty wall switch.	Check if the circuit breaker is tripped. Ensure power is on. Turn off power and check all wiring connections are secure. Test the wall switch with another device or consult an electrician.
Light flickers or dims.	Unstable power supply. Loose wiring. Incompatible dimmer switch (if applicable, though this model is not specified as dimmable).	Ensure stable power. Check household wiring. Turn off power and re-secure all wiring connections. If a dimmer is used, ensure it is LED-compatible. If not, remove the dimmer.
Light is not bright enough.	Incorrect light chosen for room size. Dust accumulation on diffuser.	Verify the light's lumen output (1600 LM) is suitable for your room's requirements. Clean the diffuser surface as per maintenance instructions.
Water or insects inside the fixture.	Improper installation or damaged seal.	Ensure the fixture is correctly installed and sealed against the mounting surface. Check for any visible damage to the fixture's body or seals. If damage is present, contact customer support.

If the problem persists after attempting these solutions, please contact LQWELL customer support for further assistance.

8. SPECIFICATIONS

Detailed technical specifications for the LQWELL LED Ceiling Light (Model 90376):

Attribute	Value
Brand	LQWELL
Model Number	90376
Product Dimensions	8.66" L x 8.66" W x 0.94" H (22 x 22 x 2.4 cm)
Item Weight	1.98 pounds
Wattage	18 watts
Luminous Flux	1600 lumens
Color Temperature	3000K (Warm White)
Color Rendering Index (CRI)	>92
Voltage	AC220-240V
IP Rating	IP44 (Waterproof)
Number of Light Sources	1

Attribute	Value
Assembly Required	No
Batteries Required	No
Energy Efficiency Class	E (as per 2019/2015 EU regulation)
