

## Mama Store ER005KQUBI

# Mama Store Atena Cubotto Wall Shelf Instruction Manual

MODEL: ER005KQUBI

## 1. Product Overview

The Mama Store Atena Cubotto is an individual, reversible wall-mounted cube shelf designed to enhance the decor of various rooms, including bathrooms, living rooms, entryways, or bedrooms. This functional and modern unit features a reversible door that can open from either the right or left side, utilizing a convenient push-and-pull opening system. It is ideal for optimizing space, even in smaller environments. The unit is entirely manufactured in Italy from engineered wood with a white oak laminate finish.

### Key Features:

- Compact Dimensions: 30 cm (Length) x 22 cm (Depth) x 30 cm (Height).
- Reversible Door: Allows for left or right-hand opening.
- Push-and-Pull Mechanism: Modern and handle-free door operation.
- Durable Material: Constructed from high-quality engineered wood panel.
- Easy to Clean: Smooth surfaces for simple maintenance.
- Modular Design: Can be combined with other units to create custom storage solutions.

## **2. Safety Information**

Please read and follow all safety warnings and instructions carefully to ensure safe assembly and use of your furniture. Failure to do so may result in injury or damage to the product.

- **Assembly:** Assemble the furniture strictly according to the provided instructions. Do not force any fixings.
- **Installation Surface:** Install the unit on horizontal, even surfaces. Uneven surfaces can create tension, leading to deformation and failure of closing mechanisms.
- **Wall Mounting:** This furniture must be properly fixed to the wall to prevent tipping or falling, which can cause serious, even fatal, injuries. The type of wall plugs, hooks, or screws required depends on your specific wall type and strength. **Wall fixing materials are not included** and must be purchased separately based on your wall's requirements.
- **Moisture and Heat:** Do not place wet or hot objects directly on the furniture surface. In case of contact with water or other substances, clean immediately with soft, absorbent textile materials.
- **Environment:** Install the furniture in ventilated rooms, away from direct sunlight and direct water contact. It is not designed for outdoor installation. While it can withstand normal humidity (steam, accidental splashes), prolonged exposure to high humidity will cause deterioration (swelling) not

covered by warranty.

- **Heat Sources:** Place the unit at a minimum distance of 30 cm from heat sources.
- **Cleaning:** Grease or liquid residue should only be cleaned with a dry cloth.
- **Manufacturing Notes:** The possible presence of drilled holes with non-linear edges or glue residue along the edge of semi-finished products does not indicate a manufacturing defect. These areas will be covered during assembly by other components, hinges, or hole covers. Remove any glue residue with a slightly damp cloth.

### 3. Package Contents

---

Your Atena Cubotto Wall Shelf kit includes all necessary components for assembly, except for wall mounting hardware. Please verify that all parts are present before beginning assembly.

- Engineered wood panels (sides, top, bottom, back, door)
- Hinges for the door
- Push-and-pull mechanism
- Assembly screws and dowels
- Assembly instructions

**Note:** Wall plugs, hooks, or screws for mounting the unit to your specific wall type are **not included** and must be purchased separately.

### 4. Assembly Instructions (Setup)

---

The Atena Cubotto Wall Shelf is designed for straightforward assembly. Follow these general steps, referring to the detailed instructions included in your package for specific diagrams and part identification.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Compare them with the parts list in your instruction manual to ensure everything is present.
2. **Assemble the Frame:** Connect the side panels to the top and bottom panels using the provided screws and dowels. Ensure all connections are secure but do not overtighten.
3. **Attach the Back Panel:** Secure the back panel to the assembled frame.
4. **Install Hinges and Door:** Attach the hinges to the door and the main unit frame. The door is reversible, allowing you to choose whether it opens to the left or right. Install the push-and-pull mechanism according to the instructions.
5. **Adjust Hinges:** Once the door is installed, adjust the hinges to ensure proper alignment and smooth operation of the push-and-pull mechanism.
6. **Prepare for Wall Mounting:** Identify the desired location on your wall. Using appropriate wall plugs and screws (**not included**), secure the unit to the wall. Ensure the wall fixings are suitable for your wall type and can support the weight of the shelf and its contents.

Figure 5: The Atena Cubotto Wall Shelf installed on a wall, demonstrating its intended use.

## 5. Operation (Usage)

The Atena Cubotto Wall Shelf is designed for simple and convenient use.

- **Door Operation:** The door features a push-and-pull mechanism. To open, gently push the door inward, and it will spring open slightly. To close, push the door firmly until it latches securely.
- **Reversible Door:** During assembly, you can choose to install the door to open from either the left or the right side, depending on your preference and room layout.
- **Storage:** Use the internal space for storing various items such as tools, towels, or decorative objects. Ensure that the weight of the contents does not exceed the unit's capacity or compromise its wall mounting.

## 6. Maintenance and Care

Proper care will help maintain the appearance and longevity of your Atena Cubotto Wall Shelf.

- **General Cleaning:** For routine cleaning, wipe surfaces with a soft, dry cloth.
- **Spills:** In case of spills (water, liquids, grease), clean immediately with a soft, absorbent dry cloth. Avoid abrasive cleaners or materials that could scratch the laminate finish.
- **Avoid Harsh Chemicals:** Do not use strong chemical cleaners, solvents, or polishes that may damage the surface.
- **Humidity Control:** While the unit is designed for normal humidity, avoid prolonged exposure to high moisture levels to prevent swelling or damage.
- **Heat Protection:** Do not place hot items directly on the surface. Use coasters or protective pads if necessary.

## 7. Troubleshooting

If you encounter any issues with your Atena Cubotto Wall Shelf, consider the following common solutions:

- **Door Not Closing Properly:** Check the alignment of the hinges. Adjust them as per the assembly instructions. Ensure the push-and-pull mechanism is correctly installed and not obstructed.
- **Unit Appears Unstable:** Verify that the unit is securely mounted to the wall using appropriate fixings for your wall type. Ensure all internal assembly screws are tightened. If installed on an uneven surface, reposition the unit.
- **Scratches or Dents:** Minor surface imperfections can sometimes be touched up with furniture repair pens or waxes matching the white oak laminate finish.
- **Water Damage/Swelling:** If the unit has been exposed to excessive moisture, swelling may occur. This type of damage is typically not covered under warranty. Ensure the unit is in a suitable environment as described in the Safety Information.

## 8. Specifications

Feature	Specification
Model Number	ER005KQUBI
Dimensions (L x D x H)	30 cm x 22 cm x 30 cm
Weight	Approximately 4 kg
Material	Engineered Wood Panel

Finish	White Oak Laminate
Color	White
Mounting Type	Wall Mount (fixings not included)
Door Style	Reversible, Push-and-Pull
Country of Origin	Italy
