3. PRODUCT OVERVIEW

Familiarize yourself with the components of your Nimble Champ Portable Charger.

PASS-THROUGH CHARGING

Fully Recharge your Portable Charger in 1.85hrs

Power On/Off Button
4 LED Power Indicator
10,00mAh Capacity

Supports Pass-Through Charging: Charge your device and recharge your power bank— all at once

Image: A diagram illustrating the Nimble Champ portable charger, highlighting the Power On/Off Button, 4 LED Power Indicator, and 10,000mAh Capacity.

- **Power Button:** Activates the power bank and displays battery level.
- **LED Indicators:** Four LEDs indicate the remaining battery capacity.
- **USB-C Ports (x2):** Used for both charging devices and recharging the power bank.
- **Lanyard Loop:** For convenient carrying.

SLIM AND COMPACT DESIGN

Small, Light-Weight and Easy To Carry

Image: The Nimble Champ portable charger displayed next to a credit card for size comparison, showing its compact dimensions of 3.38 inches by 2.28 inches by 0.98 inches and a weight of 6.2 oz / 175g.

4. SETUP

Initial Charging

Before first use, fully charge your Nimble Champ Portable Charger.

1. Connect the included USB-C cable to one of the USB-C ports on the power bank.
2. Connect the other end of the USB-C cable to a compatible USB wall adapter (not included).
3. The LED indicators will illuminate to show charging progress. All four LEDs will be solid when fully charged.

A full charge typically takes approximately 1.85 hours with a 20W power adapter.

5. OPERATING INSTRUCTIONS

Charging Your Devices

1. Connect your device's charging cable to one of the USB-C ports on the Nimble Champ.

2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. If not, press the power button once.
4. The LED indicators will show the remaining battery level of the power bank.

CHARGE TWO DEVICES AT ONCE

20W FAST CHARGING MAX OUTPUT
Charge your device from 0-50% in 30mins

Image: The Nimble Champ portable charger simultaneously charging two smartphones via its dual USB-C ports, demonstrating its 20W fast charging capability.

Recharging the Power Bank

To recharge the Nimble Champ:

1. Use the included USB-C cable.
2. Connect one end to a USB-C port on the power bank.
3. Connect the other end to a USB-C wall charger.
4. The LED indicators will flash to show charging status and remain solid when fully charged.

Pass-Through Charging

The Nimble Champ supports pass-through charging, allowing you to charge a device while simultaneously recharging the power bank itself.

1. Connect the power bank to a wall charger.
2. Connect your device to the power bank.
3. Both the power bank and your device will charge.

6. SAFETY INFORMATION

- Do not expose the power bank to extreme temperatures, direct sunlight, or fire.
- Do not disassemble, modify, or repair the device.
- Keep away from water and liquids.
- Use only certified charging cables and adapters.
- Dispose of the product responsibly according to local regulations.

Image: The Nimble Champ portable charger highlighting its advanced 6-layer protection features, including TSA approval, temperature protection, certified charging components, overcharge protection, adaptive charging rates, and short circuit

protection.

7. MAINTENANCE

- Clean the power bank with a soft, dry cloth. Avoid harsh chemicals.
- Store in a cool, dry place when not in use.
- Recharge the power bank at least once every three months to maintain battery health.

ECO-FRIENDLY DESIGN

Shaping a Cleaner, Greener Future

**90%**
Certified Recycled Plastic

**-7.4LB**
Average CO2e Savings Per Unit

Image: The Nimble Champ portable charger emphasizing its eco-friendly design, made from 90% certified recycled plastic, contributing to an average CO2e savings of 7.4 lbs per unit.

8. TROUBLESHOOTING

Power Bank Not Charging

- Ensure the charging cable is securely connected to both the power bank and the wall adapter.
- Try a different USB-C cable or wall adapter.
- Verify the wall adapter is functioning correctly.

Device Not Charging

- Press the power button on the power bank to activate charging.
- Ensure your device's charging cable is securely connected to both the power bank and your device.

- Check if the power bank has sufficient charge (indicated by the LEDs).
- Try a different charging cable for your device.

Slow Charging

- Ensure you are using a 20W or higher power adapter for optimal charging speed of the power bank.
- Verify your device supports fast charging and that you are using a compatible cable.
