# AROMUSTIME Queen 5 Inch Low Profile Metal Box Spring Instruction Manual

Model: AM-BS04-5

Brand: AROMUSTIME

## INTRODUCTION

Thank you for choosing the AROMUSTIME Queen 5 Inch Low Profile Metal Box Spring. This manual provides detailed instructions for assembly, proper use, maintenance, and troubleshooting to ensure optimal performance and longevity of your product. Please read all instructions carefully before assembly and retain this manual for future reference.

## SAFETY INFORMATION

- Exercise caution around all metal edges during assembly to prevent injury.
- Ensure all bolts and screws are securely tightened before use to maintain stability.
- Do not exceed the maximum weight recommendation of 3000 pounds.
- Keep small parts away from children during assembly.

## PACKAGE CONTENTS

Before beginning assembly, verify that all components are present. All necessary parts, tools, and instructions are included in one compact box.

- Metal frame components
- Hardware (bolts, washers, nuts)
- Assembly tools (e.g., Allen wrench)
- Fabric cover
- Instruction manual

## ASSEMBLY INSTRUCTIONS

The AROMUSTIME box spring is designed for easy assembly. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, flat, and soft surface (like a carpet) to prevent scratches.
2. **Assemble the Frame:** Connect the main metal frame sections according to the diagrams provided in the included instruction sheet. Hand-tighten all screws initially to allow for minor adjustments.
3. **Insert Slats:** Place the metal slats into their designated slots on the frame. Ensure they are evenly spaced and securely seated.
4. **Final Tightening:** Once all frame components and slats are in place and the frame appears level and square, fully tighten all screws using the provided tools. Do not overtighten.
5. **Apply Fabric Cover:** Stretch the high-quality fabric jacquard cover over the assembled metal frame. The elastic band design allows for easy application and removal. This cover helps prevent the mattress from slipping.

## OPERATING INSTRUCTIONS

The AROMUSTIME Queen 5 Inch Low Profile Metal Box Spring provides a sturdy and quiet foundation for your mattress.

- **Mattress Compatibility:** This box spring is compatible with various mattress types, including innerspring, memory foam, and latex mattresses.
- **Placement:** The 5-inch low profile design is ideal for taller mattresses or for those who prefer a lower bed height. It can be placed directly on the floor or within a bed frame.
- **Weight Distribution:** The heavy-duty metal slats and reinforced steel construction are designed to evenly distribute weight and minimize mattress sagging, providing stable support.
- **Noise-Free Design:** The robust construction ensures a quiet sleep environment by preventing squeaks.

## MAINTENANCE

To ensure the longevity and cleanliness of your AROMUSTIME box spring, follow these simple maintenance guidelines:

- **Fabric Cover Cleaning:** The high-quality fabric jacquard cover is designed for easy removal and cleaning. Remove the cover and follow its specific washing instructions, typically machine wash cold on a gentle cycle and tumble dry low.
- **Frame Inspection:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten if necessary to prevent any potential noise or instability.
- **General Cleaning:** Wipe the metal frame with a damp cloth as needed to remove dust or debris. Avoid harsh chemicals that may damage the finish.

## TROUBLESHOOTING

If you encounter any issues with your box spring, refer to the following common solutions:

| Problem            | Possible Cause              | Solution                                                                                    |
|--------------------|-----------------------------|---------------------------------------------------------------------------------------------|
| Squeaking or Noise | Loose bolts or connections. | Ensure all assembly bolts and screws are fully tightened. Re-tighten any loose connections. |

| Problem           | Possible Cause                               | Solution                                                                                                                                             |
|-------------------|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mattress Slipping | Fabric cover not properly installed or worn. | Ensure the fabric cover is correctly and snugly fitted over the box spring. The cover is designed to provide a non-slip surface.                     |
| Frame Instability | Incomplete assembly or damaged components.   | Review assembly instructions to ensure all steps were followed correctly. Check for any damaged parts. If damage is found, contact customer support. |
