3. SETUP

3.1 Connecting to Devices

The monitor supports connection via USB Type-C or standard HDMI.

USB Type-C Connection:

Use the provided USB Type-C cable to connect the monitor to your device (smartphone, PC, etc.). Ensure your device's USB Type-C port supports DisplayPort Alt Mode for video output. A single USB Type-C cable can transmit both video and power.

Note: If the display brightness or volume is low, connect an external 15W or higher power adapter (not included) to the monitor's power input port.

6. TROUBLESHOOTING

If you encounter issues with your monitor, please refer to the following common solutions:

- **No Signal / Flickering Screen:**

- Ensure all cables (USB-C or HDMI) are securely connected.
- If using USB-C, verify that your device's USB-C port supports DisplayPort Alt Mode.
- Connect an external power adapter (15W or higher, not included) to the monitor.
- Try a different cable or port on your device.

- **Dim Display / Low Volume:**

- Connect an external power adapter (15W or higher, not included) to provide sufficient power.
- Adjust brightness and volume settings using the monitor's menu buttons.

- **Monitor Not Turning On:**

- Ensure the monitor is receiving power from your device or an external power adapter.
- Press and hold the power button for a few seconds.

If the issue persists after trying these steps, please contact customer support.
