SETUP GUIDE

1. Initial Keyboard Charging

Before first use, fully charge the keyboard for approximately 3 to 4 hours using the provided USB cable. The charge indicator light will turn off once charging is complete.

2. Installing Your iPad

1. Gently align your iPad Pro 12.9-inch with the transparent back shell of the case.
2. Press firmly around the edges to ensure the iPad is securely seated within the case. Ensure all cutouts align with your iPad's ports and buttons.

3. Connecting the Keyboard via Bluetooth

1. **Step 1:** Turn on the keyboard by sliding the ON/OFF switch to the "ON" position. The Power light will illuminate.
2. **Step 2:** Press the "Connect" button on the keyboard. The Bluetooth light will start blinking, indicating it's in pairing mode.
3. **Step 3:** On your iPad, go to **Settings > Bluetooth**. Turn Bluetooth on.

- Step 4:** Look for "Bluetooth 3.0 Keyboard" or a similar name in the "Other Devices" list and tap to connect.
- Step 5:** Once connected, the Bluetooth light on the keyboard will stop blinking. The next time you use the keyboard, it will automatically connect to your iPad if Bluetooth is enabled on both devices.

Image: A visual guide demonstrating the four steps to quickly connect the keyboard to your iPad via Bluetooth.

4. Connecting the Mouse via Bluetooth

1. Turn on the mouse.
2. Press the Bluetooth pairing button on the mouse (usually on the bottom) until the indicator light blinks.
3. On your iPad, go to **Settings > Bluetooth**.
4. Select the mouse from the list of available devices and tap to connect.

OPERATING INSTRUCTIONS

1. Using the 360-Degree Rotating Stand

The transparent back shell allows your iPad to rotate freely within the case. You can adjust the iPad to various viewing angles using the three deep anti-slip grooves, supporting both portrait and landscape modes for typing, viewing, or drawing.

2. Using the Detachable Keyboard

The keyboard is held in place magnetically. You can easily detach it from the case if you prefer to use your iPad without the keyboard or if you need to use the keyboard at a distance from the iPad. To reattach, simply align the keyboard with the magnetic strip in the case.

- **Function Keys:** The keyboard includes function keys for quick access to iPad features. Refer to the keyboard layout for specific shortcuts (e.g., volume control, media playback).
- **OS Switching:** To switch keyboard compatibility for different operating systems:
 - Android: Press **Fn + Q**
 - Windows: Press **Fn + W**
 - iOS: Press **Fn + E**

3. Using the Bluetooth Mouse

Once connected, the Bluetooth mouse functions like a standard computer mouse, providing precise navigation and control on your iPad's screen. Ensure the mouse is charged for optimal performance.

4. Apple Pencil Wireless Charging

The case is designed with a dedicated slot that allows for magnetic pairing and wireless charging of your 2nd generation Apple Pencil without needing to remove the iPad from the case.

MAINTENANCE

- **Cleaning the Case:** Wipe the PU leather case with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For the transparent back shell, use a microfiber cloth to prevent scratches.
- **Cleaning the Keyboard:** Use a soft, dry cloth to clean the keyboard keys. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the key gaps.
- **Battery Care:** To prolong battery life, avoid fully discharging the keyboard and mouse batteries frequently. Recharge them when the low battery indicator appears. If not in use for extended periods, charge them at least once every three months.
- **Storage:** Store the keyboard case in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Keyboard/Mouse not connecting to iPad.	Bluetooth is off on iPad or keyboard/mouse. Keyboard/Mouse battery is low. Not in pairing mode. Interference.	Ensure Bluetooth is enabled on both devices. Charge the keyboard/mouse. Put keyboard/mouse into pairing mode (press "Connect" button). Move closer to the iPad; turn off other Bluetooth devices.
Keyboard typing incorrectly or not responding.	Incorrect OS mode selected. Low battery. Connection issue.	Press Fn + E for iOS. Charge the keyboard. Disconnect and re-pair the keyboard.

Problem	Possible Cause	Solution
Mouse cursor is erratic or unresponsive.	Low battery. Dirty sensor. Uneven surface.	Charge the mouse. Clean the optical sensor on the bottom of the mouse. Use on a flat, clean surface.
Keyboard/Mouse not charging.	Faulty cable or power adapter. Charging port issue.	Try a different USB cable and power adapter. Contact customer support if the port appears damaged.
