iFLYTEK Language Translator Device User Manual

Model: AIT2221T

Introduction

This user manual provides comprehensive instructions for the iFLYTEK Language Translator Device, Model AIT2221T. This device is designed to facilitate seamless communication across language barriers, offering high-quality translation for various scenarios including travel, learning, and business. Please read this manual thoroughly to understand the device's features and ensure optimal performance.

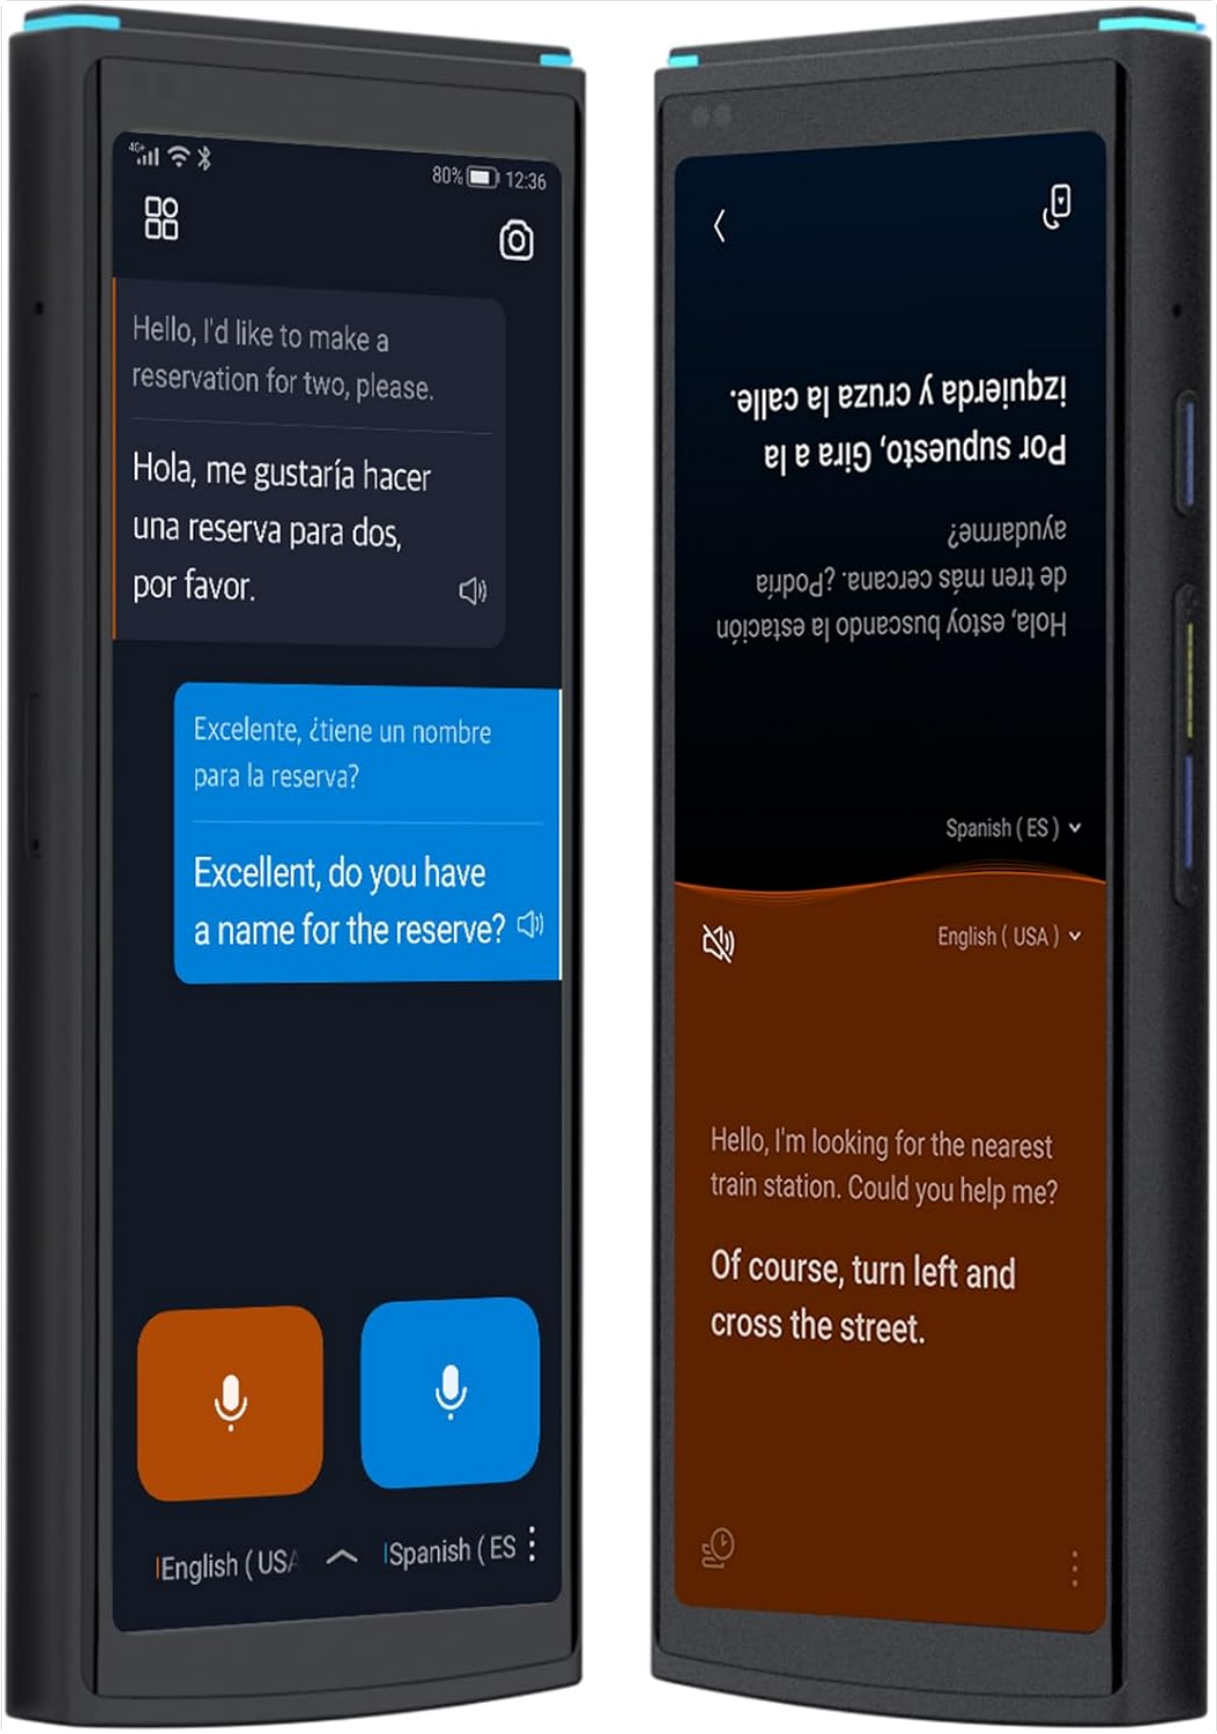

Image: Front and back view of the iFLYTEK Language Translator Device, showcasing its sleek design and display.

What's in the Box

The standard package for your iFLYTEK Language Translator Device includes the following items:

- iFLYTEK Smart Translator Device
- Type-C Charging Cable

- SIM Pin (for SIM card tray access, if applicable)
- User Guide (this document)

Please ensure all items are present upon unboxing. If any items are missing or damaged, contact customer support.

Setup

Initial Power On and Language Selection

1. **Charge the Device:** Before first use, fully charge the device using the provided Type-C cable and a compatible USB power adapter (not included). The charging indicator will show progress.
2. **Power On:** Press and hold the power button located on the side of the device until the screen illuminates.
3. **Select System Language:** Follow the on-screen prompts to select your preferred system language for the device interface.

Network Connection

The iFLYTEK translator supports multiple network connection methods to enable online translation features:

- **Wi-Fi:** Navigate to *Settings* > *Wi-Fi* and select your desired network. Enter the password if prompted.
- **Mobile Data (Built-in):** The device includes 2-year mobile data coverage for nearly 200 countries and regions. This feature is automatically active upon device setup in supported regions. No SIM card insertion is required for this built-in data.
- **Hotspot:** You can connect the device to a mobile hotspot from your smartphone or another device.
- **SIM Card (Optional):** For regions not covered by the built-in data or if you prefer to use your own data plan, you can insert a Nano-SIM card into the device. Use the provided SIM pin to open the SIM tray.

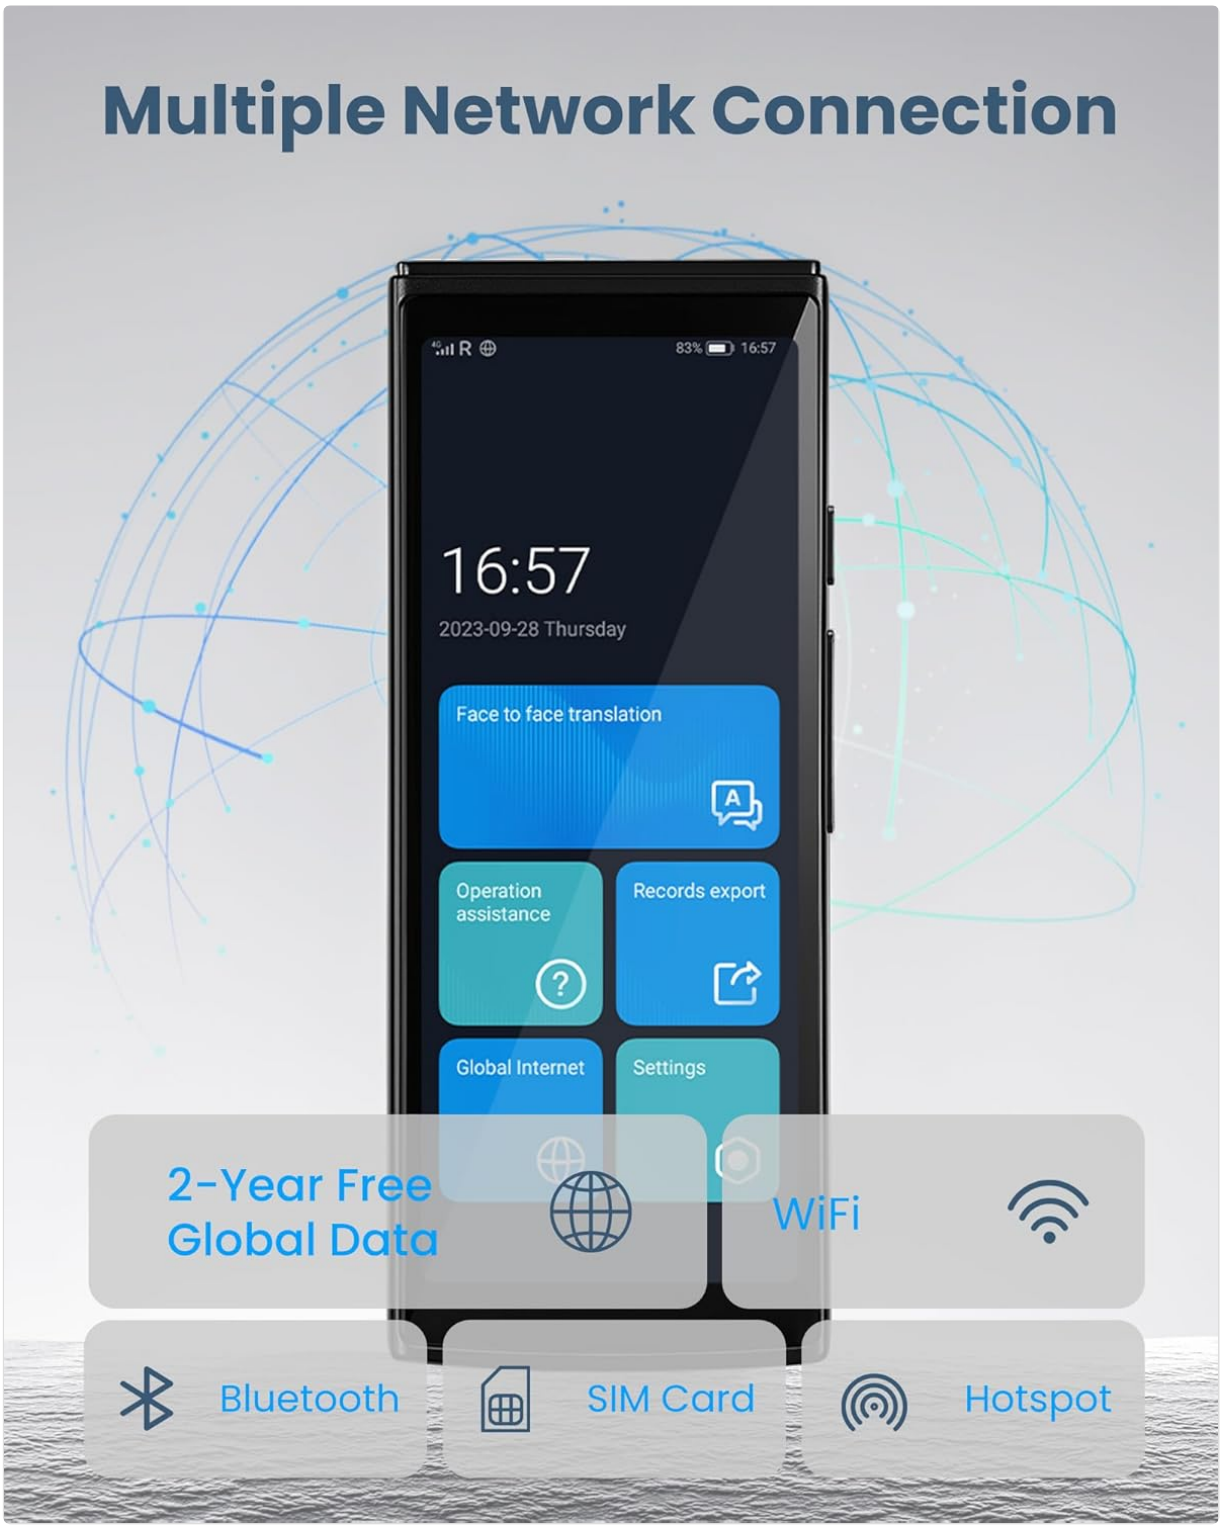

Image: The device display showing options for 2-year free global data, Wi-Fi, Bluetooth, SIM Card, and Hotspot connections.

Activating Global Network Card

For detailed instructions on activating the global network card feature, please refer to the following video:

Your browser does not support the video tag.

Video: "How to Activate The Global Network Card" - This video demonstrates the steps to activate the device's global network card for seamless international data connectivity.

Operating the Device

Voice Translation (Online & Offline)

The device supports 60 online languages and 18 pairs of offline language packages. Offline language packs require a Wi-Fi connection for initial download.

1. **Select Languages:** On the main screen, select the source and target languages for translation.
2. **Speak:** Press and hold the designated button for your language (usually indicated by a microphone icon) and speak clearly into the device. Release the button when finished.
3. **Listen & Read:** The translated text will appear on the screen, and the device will speak the translation aloud.

Image: The device displaying a voice translation interface, highlighting support for 60 languages and terminology in 16 fields.

Image: Visual representation of the 18 pairs of offline language packages available for download, useful for translation without an internet connection.

Image: The device showcasing its high translation quality with 98% accuracy, 0.5s response time, and a 5-inch touch screen.

Face-to-Face Translation

This mode is ideal for direct conversations, displaying translated text on both sides of the screen for easy viewing by two individuals.

1. **Activate Mode:** Select "Face-to-Face Translation" from the main menu.
2. **Speak:** Each person speaks into the device when it's their turn, and the translation appears on the screen facing the other person.

Image: The device demonstrating its face-to-face translation feature, showing simultaneous interpretation for two users.

Using Face-to-Face Translation Function

Learn how to effectively use the face-to-face translation feature with this instructional video:

Your browser does not support the video tag.

Video: "How to Use Face-to-Face Translation Function" - This video provides a step-by-step guide on utilizing the device's face-to-face translation mode for interactive conversations.

Photo Translation

The device supports photo translation in 50 languages, useful for menus, road signs, and other printed text.

1. **Access Camera:** Select the photo translation icon (camera icon) from the main menu.

2. **Capture Image:** Position the device camera over the text you wish to translate and tap the capture button.
3. **View Translation:** The translated text will be overlaid on the image or displayed separately.

Video: "How to Use Photo Translation Function" - This video illustrates the process of using the device's camera for translating text from images.

Maintenance

Battery Life

The iFLYTEK translator is equipped with a 2000mAh battery, providing approximately 6 hours of continuous translation use and up to 10 days of standby time on a single charge. To maximize battery life:

- Reduce screen brightness.
- Disable Wi-Fi or mobile data when not needed for online translation.
- Close unused applications running in the background.

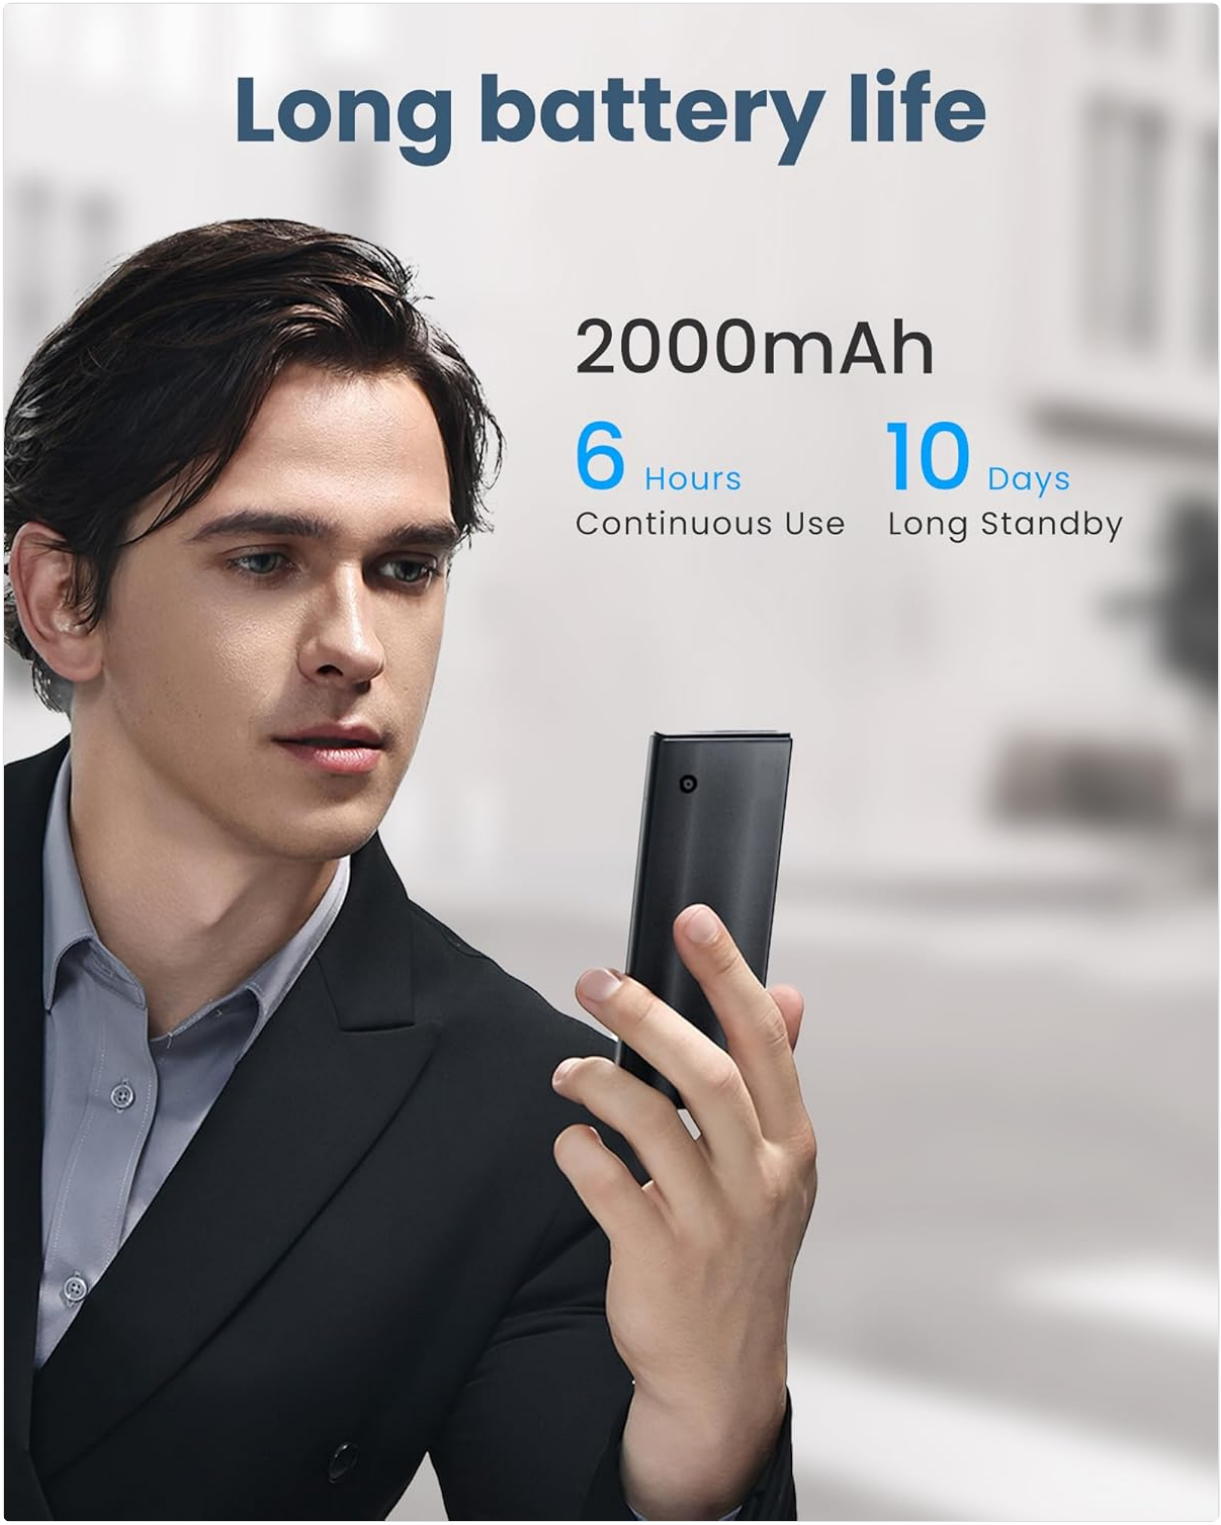

Image: A person holding the translator device, illustrating its long battery life of 6 hours continuous use and 10 days standby.

Translation Record Management

The device features 16GB of storage, supporting automatic saving and export of up to 1000 translation records. This ensures your privacy and data security.

- **Viewing Records:** Access your translation history through the "Records export" or similar option in the device menu.
- **Exporting Records:** Connect the device to a computer using the Type-C cable to export translation records for backup or further analysis.
- **Deleting Records:** You can delete individual records or clear all records from the device's settings to manage storage and privacy.

Exporting or Deleting Translation Records

For detailed instructions on managing your translation records, watch this video:

Your browser does not support the video tag.

Video: "How to Export or Delete Translation Records" - This video guides users through the process of exporting and deleting translation history from the device.

Troubleshooting

Problem	Possible Cause	Solution
Device does not power on.	Low battery; device frozen.	Charge the device for at least 30 minutes. If still unresponsive, press and hold the power button for 10-15 seconds to force a restart.
Translation is inaccurate or slow.	Poor network connection; unclear speech; complex terminology.	Ensure a stable internet connection. Speak clearly and at a moderate pace. For highly specialized terms, try rephrasing. Ensure offline packs are downloaded if using offline mode.
Cannot connect to Wi-Fi.	Incorrect password; out of range; network issue.	Double-check the Wi-Fi password. Move closer to the Wi-Fi router. Restart the device and the router.
Offline translation not working.	Offline language packs not downloaded.	Connect to Wi-Fi and download the required offline language packs via the device settings.

Specifications

- **Model:** AIT2221T
- **Dimensions:** 2.22 x 0.41 x 5.54 inches
- **Weight:** 14.9 ounces
- **Battery:** 1 Lithium Ion battery (included)
- **Online Languages:** 60
- **Offline Language Pairs:** 18
- **Photo Translation Languages:** 50
- **Internal Storage:** 16GB
- **Global Data:** 2-year coverage in nearly 200 countries (built-in)
- **Screen:** 5-inch high-definition touch screen

Warranty and Support

Warranty Information

iFLYTEK offers a **12-month worry-free warranty** for your Language Translator Device from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. Please retain

your proof of purchase for warranty claims.

Customer Service

For any questions, technical assistance, or warranty claims, please contact iFLYTEK customer service. We provide **24-hour friendly customer service** and **lifetime free product OTA upgrades** to ensure you always have access to our most advanced translation technology.
You can visit the official iFLYTEK website for support resources or contact them directly via the contact information provided in your product packaging or on their official support page.

TCB Authority to Act as Agent

Number: MS-0045317
Revision: 0
Effective date: Oct 8, 2021

Synlan Technology Pte. Ltd.

Authority to Act as Agent

Date: 2024-06-27

TUV Rheinland of North America, Inc.
1279 Quarry Lane., Suite. A
Pleasanton, CA 94566

To Whom It May Concern:

I appoint TÜV Rheinland (Shenzhen) Co., Ltd. to act as our agent in the preparation of this application for equipment certification. I certify that submitted documents properly describe the device or system for which equipment certification is sought. I also certify that each unit manufactured, imported or marketed, as defined in the FCC or Industry Canada's regulations will have affixed to it a label identical to that submitted for approval with this application.

For instances where our authorized agent signs the application for certification on our behalf, I acknowledge that all responsibility for complying with the terms and conditions for Certification, as specified by TUV Rheinland Group, still resides with Synlan Technology Pte. Ltd., 8 MARINA VIEW, #42-092, ASIA SQUARE TOWER 1, SINGAPORE (018960)

For TCB applications, We certify that we are not subject to denial of federal benefits, that includes FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 862. Further, no party, as defined in 47 CFR 1.2002 (b), to the application is subject to denial of federal benefits, that includes FCC benefits.

Thank you,

Agency Agreement Date: 2024-06-27

Agreement is valid for 12 months from the above date.
