

XIAOMI 46068

Xiaomi Smart Doorbell 3S User Manual

Model: 46068

INTRODUCTION

This manual provides detailed instructions for the installation, operation, maintenance, and troubleshooting of your Xiaomi Smart Doorbell 3S. Please read this manual thoroughly before using the product to ensure proper function and safety. The Xiaomi Smart Doorbell 3S features ultra-clear 2K resolution, AI human recognition, a 5200mAh battery, an electronic chime, and two-way audio communication.

WHAT'S IN THE BOX

Verify that all components are present in the packaging:

- Xiaomi Smart Doorbell 3S (Main Unit)
- Indoor Chime Unit
- Mounting Bracket
- Mounting Screws and Wall Plugs
- Charging Cable (Type-C)
- User Manual

SETUP

1. Physical Installation

1. **Choose a Location:** Select a suitable location near your door, ensuring a clear view and good Wi-Fi

signal.

2. **Mount the Bracket:** Use the provided screws and wall plugs to securely attach the mounting bracket to the wall.
3. **Power Connection:**
 - **Battery Power:** Ensure the doorbell's internal 5200mAh battery is charged.
 - **Hardwired Power:** If using hardwired power, connect the doorbell to your existing doorbell wiring according to local electrical codes.

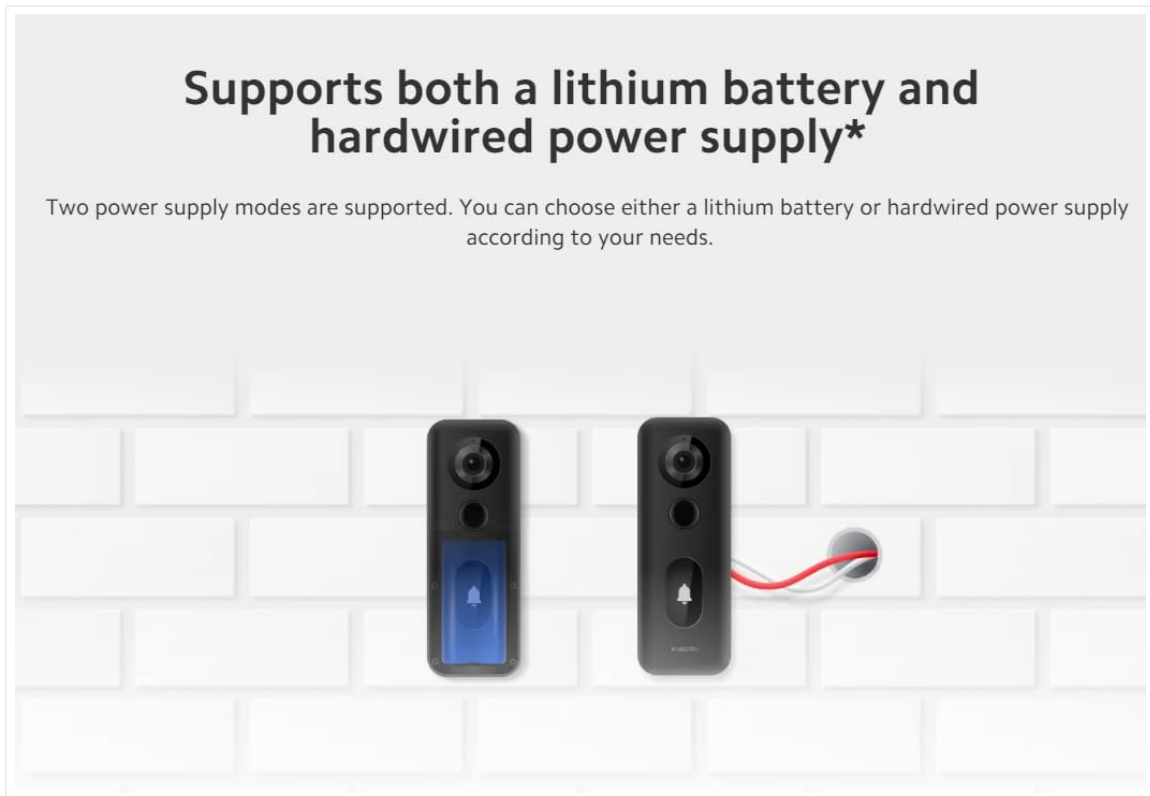

Image: Illustration showing the two power supply options for the doorbell: internal battery or hardwired connection.

4. **Attach the Doorbell:** Slide the Xiaomi Smart Doorbell 3S onto the mounted bracket until it clicks into place.

2. App Pairing

1. **Download the App:** Download the Xiaomi Home app from your device's app store.
2. **Create/Log In:** Open the app and create a new account or log in to an existing one.
3. **Add Device:** Follow the in-app instructions to add the Xiaomi Smart Doorbell 3S. This typically involves scanning a QR code on the device or selecting it from a list of nearby devices.
4. **Connect to Wi-Fi:** Connect the doorbell to your home Wi-Fi network (supports Wi-Fi 6).
5. **Pair Chime:** Follow the app's instructions to pair the indoor chime unit with the doorbell.

OPERATING INSTRUCTIONS

1. Live View and Two-Way Audio

Access the Xiaomi Home app to view a live feed from your doorbell. Use the two-way audio feature to communicate with visitors at your door.

2. Motion Detection and Notifications

The doorbell features 24-hour smart motion detection with AI human recognition. When motion is detected, especially human presence, the doorbell will automatically record video and send notifications to your smartphone.

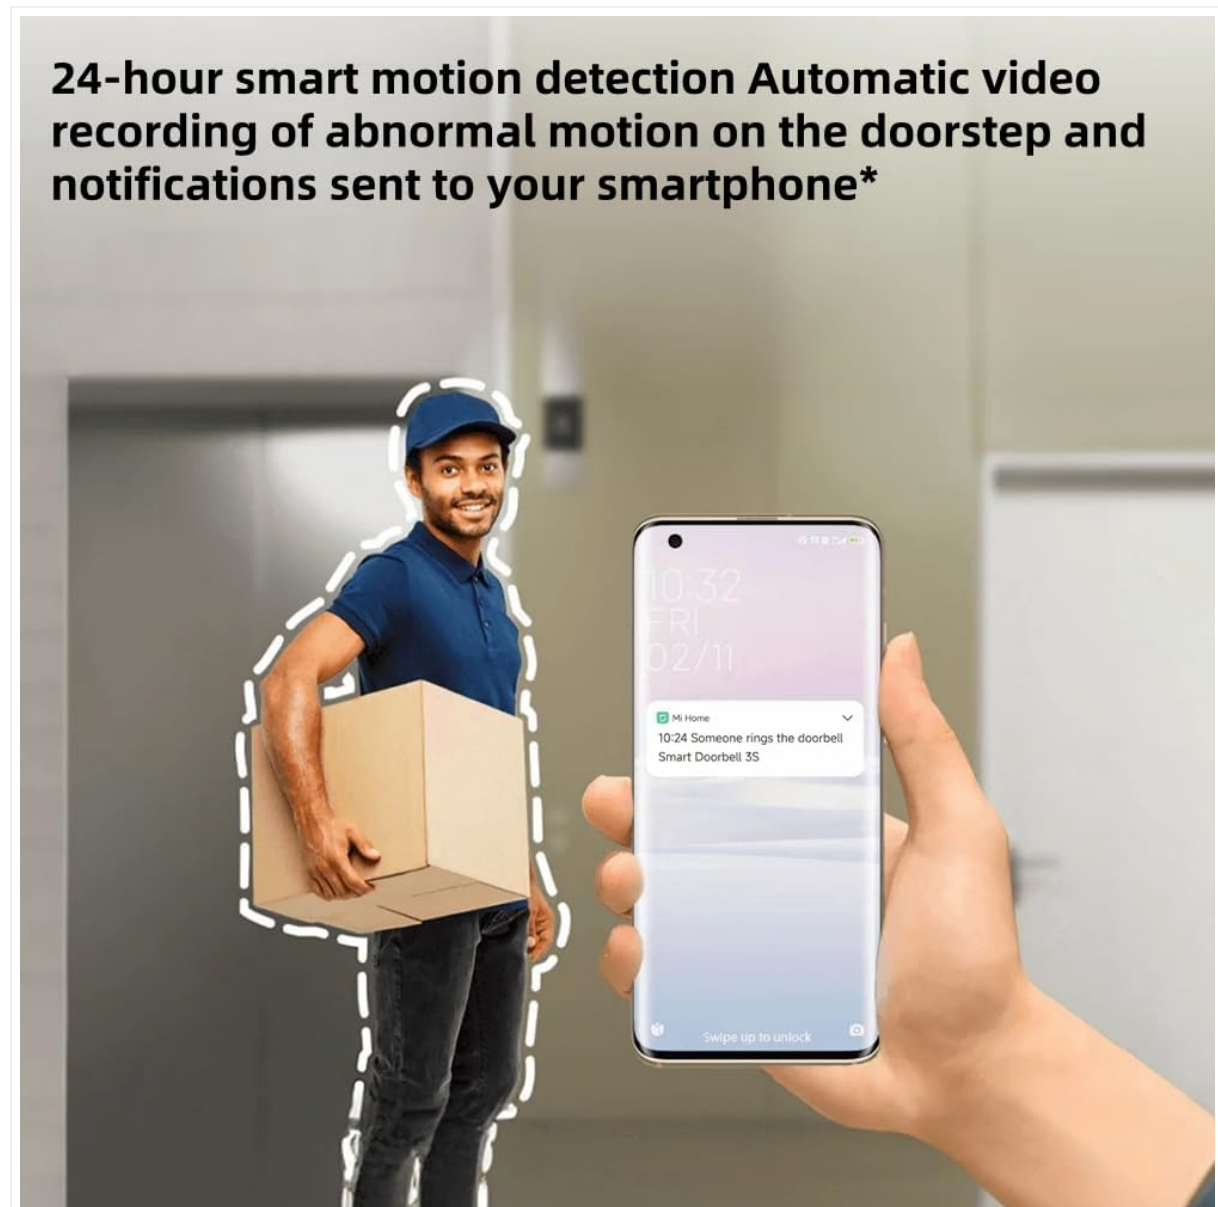

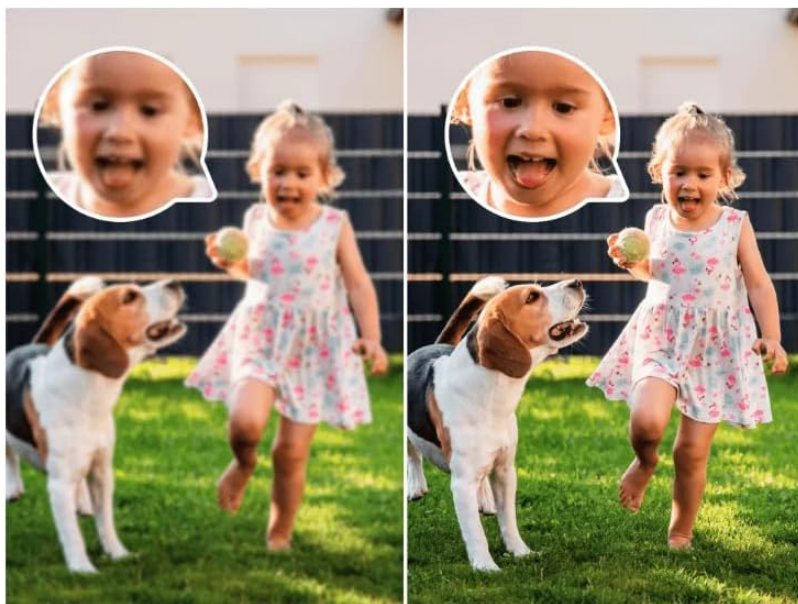

Image: A smartphone displaying a notification indicating motion detection by the Smart Doorbell 3S, showing a delivery person at the door.

3. Video Resolution

The doorbell records in ultra-clear 2K resolution, providing clearer and more detailed images compared to 1080p, allowing for better identification of visitors.

Ultra-clear vision with 2K resolution, clearer than 1080P

2K resolution images are higher quality and record more details than 1080P images, allowing you to see visitors' faces more clearly.

1080p

2K ✓

Image: A visual comparison demonstrating the superior clarity and detail of 2K resolution over 1080p in a doorbell camera feed.

4. Cloud Storage

The device includes free, rolling 72-hour cloud storage for recorded events.

MAINTENANCE

1. Battery Charging

The built-in 5200mAh lithium battery offers extended usage. When the battery level is low, charge the doorbell using the provided Type-C charging cable. The charging port is typically located on the back or bottom of the doorbell unit. Frequent charging is minimized due to the large battery capacity.

Ultra-high capacity lithium battery Only needs charging 3 times a year*

The built-in 5200mAh high-capacity lithium battery makes frequent charging and battery replacement unnecessary. The Type-C charging port enables faster and easier charging*.

5200mAh

Image: An illustration showing the internal 5200mAh battery of the doorbell and its Type-C charging port.

2. Cleaning

To maintain optimal performance, periodically clean the doorbell's camera lens and body with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the device. The doorbell has an IP65 waterproof rating, providing protection against dust and water splashes.

TROUBLESHOOTING

- **No Power:** Ensure the battery is charged or the hardwired connection is secure and providing power.
- **No Wi-Fi Connection:** Check your router and ensure the doorbell is within range. Re-pair the device through the Xiaomi Home app if necessary.
- **Poor Video Quality:** Ensure the camera lens is clean and free from obstructions. Check your Wi-Fi signal strength.
- **Motion Detection Issues:** Adjust the motion detection sensitivity and customizable monitoring area settings within the Xiaomi Home app.
- **Chime Not Ringing:** Verify the indoor chime is powered and properly paired with the doorbell via the app.
