

## Odokee UE268S

# Odokee UE268S Sound Machine Alarm Clock with Wireless Charger User Manual

Model: UE268S

## INTRODUCTION

This manual provides detailed instructions for the operation and maintenance of your Odokee UE268S Sound Machine Alarm Clock with Wireless Charger. Please read this manual thoroughly before use to ensure proper function and safety.

*Image: The Odokee UE268S Sound Machine Alarm Clock, a light gray oval-shaped device with a digital clock display and a wireless charging pad on top, shown with a smartphone charging wirelessly.*

## SAFETY INFORMATION

To ensure safe operation and prevent damage, please observe the following precautions:

- Always unplug the device before cleaning.
- Do not use the device in the presence of water or high humidity.
- Avoid placing the device under blankets or pillows while in use to prevent overheating.
- Do not use the device while sleeping if it is covered.
- Adhere to recommended noise exposure limits to protect your hearing.
- Keep the device away from direct sunlight, heat sources, and open flames.
- Do not attempt to disassemble or repair the device yourself. Contact qualified service personnel.

## PACKAGE CONTENTS

Verify that all items are present in the package:

- Odokee UE268S Sound Machine Alarm Clock
- Power Adapter
- User Manual (this document)

## PRODUCT OVERVIEW

Familiarize yourself with the components of your device.

### Front and Rear Views

Image: A detailed view of the Odokee UE268S, showing both its front display and the rear panel with various ports and controls, including DC IN, USB charging port, and sound/volume knobs.

### Top Panel Controls

- **Sound Machine Button:** Activates and cycles through soothing sounds.
- **Alarm Clock Button:** Sets and manages alarms.
- **Bluetooth (BT) Button:** Initiates Bluetooth pairing.
- **Snooze Button:** Temporarily silences the alarm.
- **Volume Up/Down Buttons:** Adjusts audio volume.
- **Time Set Button:** Enters time setting mode.
- **Wireless Charging Pad:** For compatible devices.

### Rear Panel Controls and Ports

- **DC IN Port:** Connects to the power adapter.
- **USB Charging Port:** For wired charging of other devices.
- **Display Dimmer Knob:** Adjusts screen brightness.
- **Volume Knob:** Adjusts overall device volume.

## SETUP

1. **Power Connection:** Connect the provided power adapter to the DC IN port on the back of the device, then plug it into a standard wall outlet. The display will illuminate.
2. **Initial Time Setting:**
  - Press and hold the **Time Set** button. The hour digits will flash.
  - Use the **Volume Up/Down** buttons to adjust the hour.
  - Press the **Time Set** button again to confirm the hour and move to minutes.
  - Use the **Volume Up/Down** buttons to adjust the minutes.

- Press the **Time Set** button once more to confirm and exit time setting.

3. **12/24-Hour Format:** Briefly press the **Time Set** button to toggle between 12-hour (with AM/PM indicator) and 24-hour formats.

## OPERATING INSTRUCTIONS

### Alarm Clock Function

# Digital Alarm Clock

Wake up with 8 wake up sound,  
30 Adjustable Volume

*Image: The Odokee UE268S showing an alarm time of 9:06 AM, surrounded by icons representing the 8 available alarm sounds: Birds Chirping, Piano, Flute, Forest, Wave, Beep, Buzzer, and Siren.*

#### 1. Setting an Alarm:

- Press the **Alarm Clock** button. The alarm time will flash.
- Use the **Volume Up/Down** buttons to adjust the alarm hour.
- Press the **Alarm Clock** button again to confirm the hour and move to minutes.
- Use the **Volume Up/Down** buttons to adjust the alarm minutes.
- Press the **Alarm Clock** button once more to confirm the alarm time.

- Immediately after setting the time, use the **Sound Machine** button to select one of the 8 available alarm sounds (Beep, Birds Chirping, Wave, Piano, Flute, Forest, Buzzer, Siren).
  - Use the **Volume Up/Down** buttons to set the alarm volume (30 adjustable levels).
  - Press the **Alarm Clock** button to save and activate the alarm. An alarm icon will appear on the display.
2. **Deactivating/Activating Alarm:** Briefly press the **Alarm Clock** button to toggle the alarm on or off. The alarm icon will appear/disappear.
  3. **Snooze Function:** When the alarm sounds, press the **Snooze** button to temporarily silence it for 9 minutes. The alarm will sound again after 9 minutes.
  4. **Stopping the Alarm:** To turn off the alarm completely when it sounds, press any button other than **Snooze**. The alarm will reset for the next day.

## Sound Machine Function

# 21 Soothing Sounds

It aids in improving sleep quality, fall asleep faster and stay asleep

Yoga

Meditation

Lullaby

Fan Sounds

White Noise

Natural Sounds

*Image: The Odokee UE268S showcasing its 21 soothing sounds, categorized into Yoga, Meditation, Lullaby, Fan Sounds, White Noise, and Natural Sounds.*

- **Playing Soothing Sounds:** Press the **Sound Machine** button to cycle through the 21 available soothing

sounds.

- **Sound Categories:** Includes 5 white noise variations (Pink and Brown noise), 4 fan sounds, 6 nature sounds (waves, rain, thunderstorms, brook, birds chirping, wind), 2 lullabies, Heart Beat, Sh Sound, Yoga, and Meditation.
- **Adjusting Volume:** Use the **Volume Up/Down** buttons on the top panel or the Volume Knob on the rear to adjust the sound level.
- **Stopping Sounds:** Press and hold the **Sound Machine** button to turn off the sound machine.

## Bluetooth Speaker Function

Bluetooth 5.0  
Ensures instant pairing,  
maintains a fast  
and seamless connection

*Image: The Odokee UE268S with a smartphone displaying a music player interface, indicating a Bluetooth 5.0 connection for seamless audio streaming.*

### 1. Pairing:

- Press the **Bluetooth (BT)** button. The device will enter pairing mode, and the Bluetooth indicator on the display will flash.
- On your smartphone or other Bluetooth-enabled device, search for "Odokee UE268S" in the Bluetooth settings.

- Select the device to pair. Once connected, the Bluetooth indicator will stop flashing and remain solid.
- 2. **Playing Audio:** Play music or audio from your connected device. The sound will output through the UE268S's 10W stereo speakers.
- 3. **Adjusting Volume:** Control volume using the **Volume Up/Down** buttons on the device or directly from your connected Bluetooth device.
- 4. **Disconnecting:** Press the **Bluetooth (BT)** button again to disconnect the current device.

## Wireless Charging

# 10W Wireless Charging & USB Charging

Simultaneously charge your phone  
and other devices

*Image: The Odokee UE268S simultaneously charging a smartphone wirelessly on its top pad and a pair of earbuds via its USB port, demonstrating its versatile power solutions.*

- **Placement:** Place your Qi-compatible smartphone or device on the wireless charging pad located on the top of the unit. Ensure the device is centered over the charging symbol.
- **Charging Indicator:** The charging indicator on your device will show when charging has begun.
- **Compatibility:** Supports 10W for Samsung, 7.5W for iPhone, and 5W standard charge for other wireless-charging-enabled devices, including wireless earbuds.

- **Important Note:** Remove any metal cases, magnetic attachments, or credit cards from your phone before placing it on the wireless charging pad. Cases thicker than 3mm may interfere with charging.

*Image: A diagram illustrating items that should not be placed on the wireless charging pad, including phones with metal cases, pop sockets, or cardholders, and indicating a maximum case thickness of 3mm.*

## USB Charging

- Connect a USB charging cable (not included) to the USB port on the rear of the UE268S and to your device.
- The device will begin charging.

## Display Dimmer

# 0-100% Display Dimmer

Get your personal most comfortable brightness

*Image: The Odokee UE268S with a visual representation of its 0-100% display dimmer function, showing various brightness levels from completely off to fully illuminated.*

- Rotate the **Display Dimmer Knob** on the rear of the unit to adjust the brightness of the digital display from 0% (off) to 100% (maximum brightness).

## Sleep Timer

# Auto-off Sleep Timer

30  
minutes

60  
minutes

90  
minutes

120  
minutes

180  
minutes

*Image: The Odokee UE268S showing the auto-off sleep timer function with options for 30, 60, 90, 120, and 180 minutes, designed to aid in sleep.*

- When a soothing sound or Bluetooth audio is playing, press the **Sleep Timer** button (often integrated with the sound machine button or a dedicated timer button).
- Cycle through the available sleep timer durations: 30, 60, 90, 120, or 180 minutes. The selected duration will appear on the display.
- The audio will automatically turn off after the set time.
- To cancel the sleep timer, cycle through the options until "OFF" is displayed, or turn off the sound machine/Bluetooth manually.

## MAINTENANCE

- **Cleaning:** Unplug the device before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use for extended periods, unplug the device and store it in a cool, dry place away from direct sunlight.

- **Handling:** Handle the device with care. Avoid dropping it or subjecting it to strong impacts.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Power adapter not connected or faulty outlet.	Ensure the power adapter is securely plugged into the device and a working wall outlet. Try a different outlet.
Wireless charging is not working.	Phone not centered, case too thick, or incompatible device.	Reposition the phone on the charging pad. Remove thick cases, metal objects, or magnetic attachments. Ensure your device supports Qi wireless charging.
Bluetooth will not pair.	Device not in pairing mode, or already connected to another device.	Press the BT button to enter pairing mode. Ensure Bluetooth is enabled on your phone. Disconnect from other Bluetooth devices.
Alarm does not sound.	Alarm not activated, volume too low, or incorrect time set.	Verify the alarm icon is displayed. Check alarm volume. Re-set the alarm time.
Sound quality is poor.	Low quality audio source or interference.	Ensure the audio source (e.g., Bluetooth device) is providing high-quality audio. Move the device away from potential interference sources.
