Generico Trampoline Replacement Mat/Padding Instruction Manual

Models: 183cm, 244cm, 305cm

1. INTRODUCTION

This instruction manual provides essential information for the safe and effective use of your Generico Trampoline Replacement Mat/Padding. Please read this manual thoroughly before installation and retain it for future reference. This product is designed to cover the springs and frame of round trampolines, enhancing safety and extending the life of your trampoline.

2. SAFETY INFORMATION

The Generico Trampoline Replacement Mat/Padding is a safety accessory designed to prevent contact with the

trampoline's springs and frame. Adherence to these safety guidelines is crucial for preventing injuries:

- Always ensure the padding is securely installed and covers all exposed springs and the trampoline frame before use.
- Regularly inspect the padding for any signs of wear, tears, or damage. Replace immediately if significant damage is observed.
- Supervise children at all times when the trampoline is in use.
- Do not allow more than one person on the trampoline at a time, unless the trampoline manufacturer's guidelines permit otherwise.
- Ensure the trampoline is placed on a level surface and away from obstacles.

3. PRODUCT FEATURES

Your Generico Trampoline Replacement Mat/Padding offers the following key features:

- **Enhanced Safety:** Provides a protective barrier over trampoline springs and frame edges, reducing the risk of

injury.

- **Durable Construction:** Made from high-quality PVC and PE materials, ensuring resistance to tears and wear.
- **Weather Resistant:** Designed to be waterproof, protecting against rain and sun damage for extended outdoor use.
- **Soft Cushioning:** Features soft foam inserts for additional comfort and impact absorption.
- **Easy Installation:** Designed for straightforward attachment to round trampoline frames.
- **Versatile Sizing:** Available to fit various round trampoline frame sizes, including 183cm (6ft), 244cm (8ft), and 305cm (10ft).

4. PACKAGE CONTENTS

The package includes:

- 1 x Generico Trampoline Replacement Mat/Padding (in your selected size)

5. SETUP AND INSTALLATION

Follow these steps to install your Generico Trampoline Replacement Mat/Padding:

1. **Prepare the Trampoline:** Ensure the trampoline is stable and on a level surface. If replacing an old padding, carefully remove it.
2. **Unfold the Padding:** Gently unfold the new Generico Replacement Mat/Padding.
3. **Position the Padding:** Place the padding over the trampoline frame, ensuring it is centered and covers all the springs and the metal frame edge.
4. **Secure the Padding:** Attach the padding to the trampoline frame using the integrated straps, elastic bands, or ties. Ensure each attachment point is securely fastened to prevent the padding from shifting during use. Work your way around the trampoline, ensuring a snug and even fit.
5. **Final Check:** Verify that all springs and the entire frame edge are completely covered by the padding. There should be no exposed gaps.

Image 5.1: The trampoline padding ready for installation and in use.

6. MAINTENANCE

Proper maintenance will extend the life of your Generico Trampoline Replacement Mat/Padding:

- **Cleaning:** Clean the padding regularly with a soft cloth, mild soap, and water. Avoid harsh chemicals or abrasive cleaners, as these can damage the material.
- **Rinsing:** Rinse thoroughly with clean water to remove all soap residue.
- **Drying:** Allow the padding to air dry completely before prolonged storage or continued use.
- **Inspection:** Periodically inspect the padding for any signs of wear, tears, fading, or damage to the securing straps. Address minor issues promptly or replace the padding if damage compromises safety.
- **Weather Protection:** While the padding is waterproof, prolonged exposure to extreme weather conditions (e.g., heavy snow, intense UV) can affect its lifespan. Consider covering the trampoline during harsh weather if possible.

Image 6.1: The waterproof design of the padding protects against moisture.

7. TROUBLESHOOTING

If you encounter issues with your trampoline replacement padding, consider the following:

- **Padding does not fit correctly:**

Solution: Verify that the size of the purchased padding (183cm, 244cm, or 305cm) matches the diameter of your trampoline frame. Measure your trampoline frame from outer edge to outer edge.

- **Padding is loose or shifts during use:**

Solution: Ensure all securing straps or elastic bands are properly attached and tightened around the trampoline frame. Re-adjust for a snug fit.

- **Water pooling on the padding:**

Solution: While the padding is waterproof, excessive pooling can occur if the trampoline surface is not level or if the padding is not taut. Ensure the trampoline is on a flat surface and the padding is installed without significant sags.

- **Signs of wear or damage:**

Solution: Regular inspection is key. If the padding shows significant tears, holes, or degradation that compromises safety, it should be replaced.

8. SPECIFICATIONS

Product Name	Generico Trampoline Replacement Mat/Padding
Brand	Generico
Model Number	TR33Q6UN30MACVIE20W3
Material	PVC and PE
Available Sizes (Diameter)	183cm (6ft), 244cm (8ft), 305cm (10ft)
Weight (approx.)	649g (for 8ft model)
Features	Waterproof, Tear-resistant, Soft foam inserts, Easy installation
