Aioneus Aioneus 10ft iPhone Charger

Aioneus 10ft MFi Certified USB-A to Lightning Cable Instruction Manual

Brand: Aioneus | Model: 10ft iPhone Charger

INTRODUCTION

This manual provides essential information for the safe and effective use of your Aioneus 10ft MFi Certified USB-A to Lightning Cable. This cable is designed for charging and data transfer with compatible Apple devices.

KEY FEATURES

- **MFi Certified:** Equipped with an authorized chip to ensure full compatibility with all iOS versions, preventing warning messages and ensuring safe, fast charging and data transfer.
- **Fast Charging:** Supports 3A fast charging, reducing charging time for compatible devices.
- **High-Speed Data Transfer:** Capable of 480Mbps data transfer speeds.
- **Durable Construction:** Features a nylon braided exterior and laser-welded connectors for enhanced durability and resistance to wear and tear.
- **Extended Length:** The 10-foot (3-meter) length provides flexibility and convenience for charging and syncing in various environments.

SETUP AND INSTALLATION

Using your Aioneus Lightning cable is straightforward:

1. **Connect to Power Source:** Insert the USB-A end of the cable into a compatible USB wall adapter, car charger, power bank, or computer USB port. Ensure the power source provides adequate power for your device.
2. **Connect to Device:** Insert the Lightning connector end of the cable into the charging port of your iPhone, iPad, or iPod.

3. **Verify Connection:** Your device should indicate that it is charging or connected for data transfer.

OPERATING INSTRUCTIONS

Charging Your Device

Once connected to a power source and your Apple device, the cable will automatically begin charging. For optimal fast charging, use a power adapter that supports 3A output.

Data Transfer

To transfer data (e.g., photos, videos, music) between your Apple device and a computer:

1. Connect the USB-A end of the cable to a USB port on your computer.
2. Connect the Lightning end to your Apple device.
3. Your computer should recognize the device. Follow on-screen prompts or use iTunes/Finder to manage data transfer.

MAINTENANCE

To ensure the longevity and optimal performance of your Aioneus Lightning cable:

- **Avoid Extreme Bending:** Do not excessively bend the cable, especially near the connectors, to prevent internal wire damage.
- **Keep Dry:** Protect the cable and connectors from moisture and liquids.
- **Clean Connectors:** If necessary, gently clean the metal contacts of the connectors with a dry, soft cloth to

remove dust or debris.

- **Store Properly:** When not in use, coil the cable loosely and store it in a clean, dry place to prevent tangling and damage.

TROUBLESHOOTING

Issue	Possible Solution
Device not charging	Ensure both ends of the cable are securely connected. Try a different power adapter or USB port. Check if the device's charging port is clean and free of debris. Restart your device.
Slow charging speed	Ensure you are using a power adapter that supports fast charging (e.g., 3A output). Avoid using your device heavily while charging. Close background applications on your device.
Device not recognized by computer	Ensure the cable is securely connected to both the device and the computer. Try a different USB port on your computer. Update your computer's drivers or operating system. Restart both your device and computer.
Warning message about accessory not supported	This cable is MFi certified, so this message is unlikely. If it occurs, ensure the cable is genuine and try reconnecting. Clean the Lightning connector on your device.

SPECIFICATIONS

Specification	Detail
Brand	Aioneus
