1. Product Overview

The BOBLOV A26 is a compact and portable body camera designed for reliable video recording in various professional and personal settings. It features 1080P HD video resolution, advanced night vision, and a long-lasting battery, making it suitable for extended use. Its rotatable lens offers flexible recording angles, and support for external memory ensures ample storage for your footage.

2. What's Included

Your BOBLOV A26 package contains the following items:

- 1 x BOBLOV A26 Video Camera
- 1 x Tripod
- 1 x Back Clip
- 1 x Lanyard
- 1 x USB-C Cable
- 1 x User Manual

What You Will Receive?

3. Setup

3.1 Charging the Battery

Before first use, fully charge the camera's built-in 1700mAh battery. Connect the provided USB-C cable to the camera's USB-C port and plug the other end into a compatible USB power adapter (not included) or a computer's USB port. A full charge typically takes approximately 3 hours and provides up to 6 hours of continuous video recording.

3.2 Inserting a Memory Card

The BOBLOV A26 supports external memory cards (Micro SD) up to 256GB. Locate the memory card slot on the side of the camera. Gently insert the Micro SD card into the slot until it clicks into place. Ensure the card is inserted correctly to avoid damage.

External Memory with Card Slot

Support 64GB, 128GB, 256GB(MAX)

Image: A close-up view of the BOBLOV A26 Body Camera showing the external memory card slot with a Micro SD card partially inserted, indicating support for up to 256GB.

3.3 Attaching Accessories

The camera comes with a tripod and a back clip for versatile mounting options. The tripod can be screwed into the 1/4" screw hole at the bottom of the camera for stable, hands-free recording. The back clip allows you to attach the camera to clothing or other surfaces.

Tripod Included for Monitoring

1/4" Screw Hole on Bottom for Multi-functional Use

4. Operating Instructions

4.1 Power On/Off

To power on the camera, press and hold the Power button until the screen illuminates. To power off, press and hold the Power button again until the device shuts down.

4.2 Video Recording

Once powered on, press the Record button to start video recording. The recording indicator light will illuminate. Press the Record button again to stop recording. Videos are saved to the inserted memory card.

4.3 Night Vision Activation

The BOBLOV A26 features advanced night vision with 6 invisible IR lights. To activate night vision, long press the designated button (refer to the camera's button layout for exact location). This enables clear recording in low-light conditions.

With Night Vision

6 Invisible IR Lights,
Capture Valuable Moments at Night

5. Maintenance

5.1 Cleaning

To clean the camera, use a soft, dry cloth. For the lens, use a specialized lens cleaning cloth. Avoid using harsh chemicals or abrasive materials, as they may damage the camera's surface or lens.

5.2 Storage

Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, ensure the battery is partially charged (around 50%) to prolong its lifespan.

5.3 Water Resistance

Please note that the BOBLOV A26 Body Camera is **not waterproof**. Avoid exposing the device to rain, splashes, or submersion in water to prevent damage.

6. Troubleshooting

6.1 Camera Not Turning On

- Ensure the battery is sufficiently charged. Connect the camera to a power source and allow it to charge for at least 30 minutes before attempting to power on again.
- Press and hold the Power button firmly for a few seconds.

6.2 Recording Issues (No Video/Audio)

- Check if a memory card is properly inserted.
- Ensure the memory card has sufficient free space. If full, transfer files or format the card (this will erase all data).
- Verify that the camera is in video recording mode.

6.3 Poor Video Quality

- Clean the camera lens with a soft, lint-free cloth.
- Ensure adequate lighting. For low-light conditions, activate the night vision feature.

6.4 Camera Freezing

- If the camera freezes, try performing a soft reset by pressing and holding the Power button for about 10-15 seconds until it powers off.
- If the issue persists, remove and reinsert the memory card.

7. Specifications

Feature	Specification
Brand	BOBLOV
Model Name	BOBLOV A26
Product Type	Handheld Camcorder
