

Nilox Trailband

Nilox Trailband Smartwatch User Manual

Model: Trailband (8050162353751)

1. INTRODUCTION

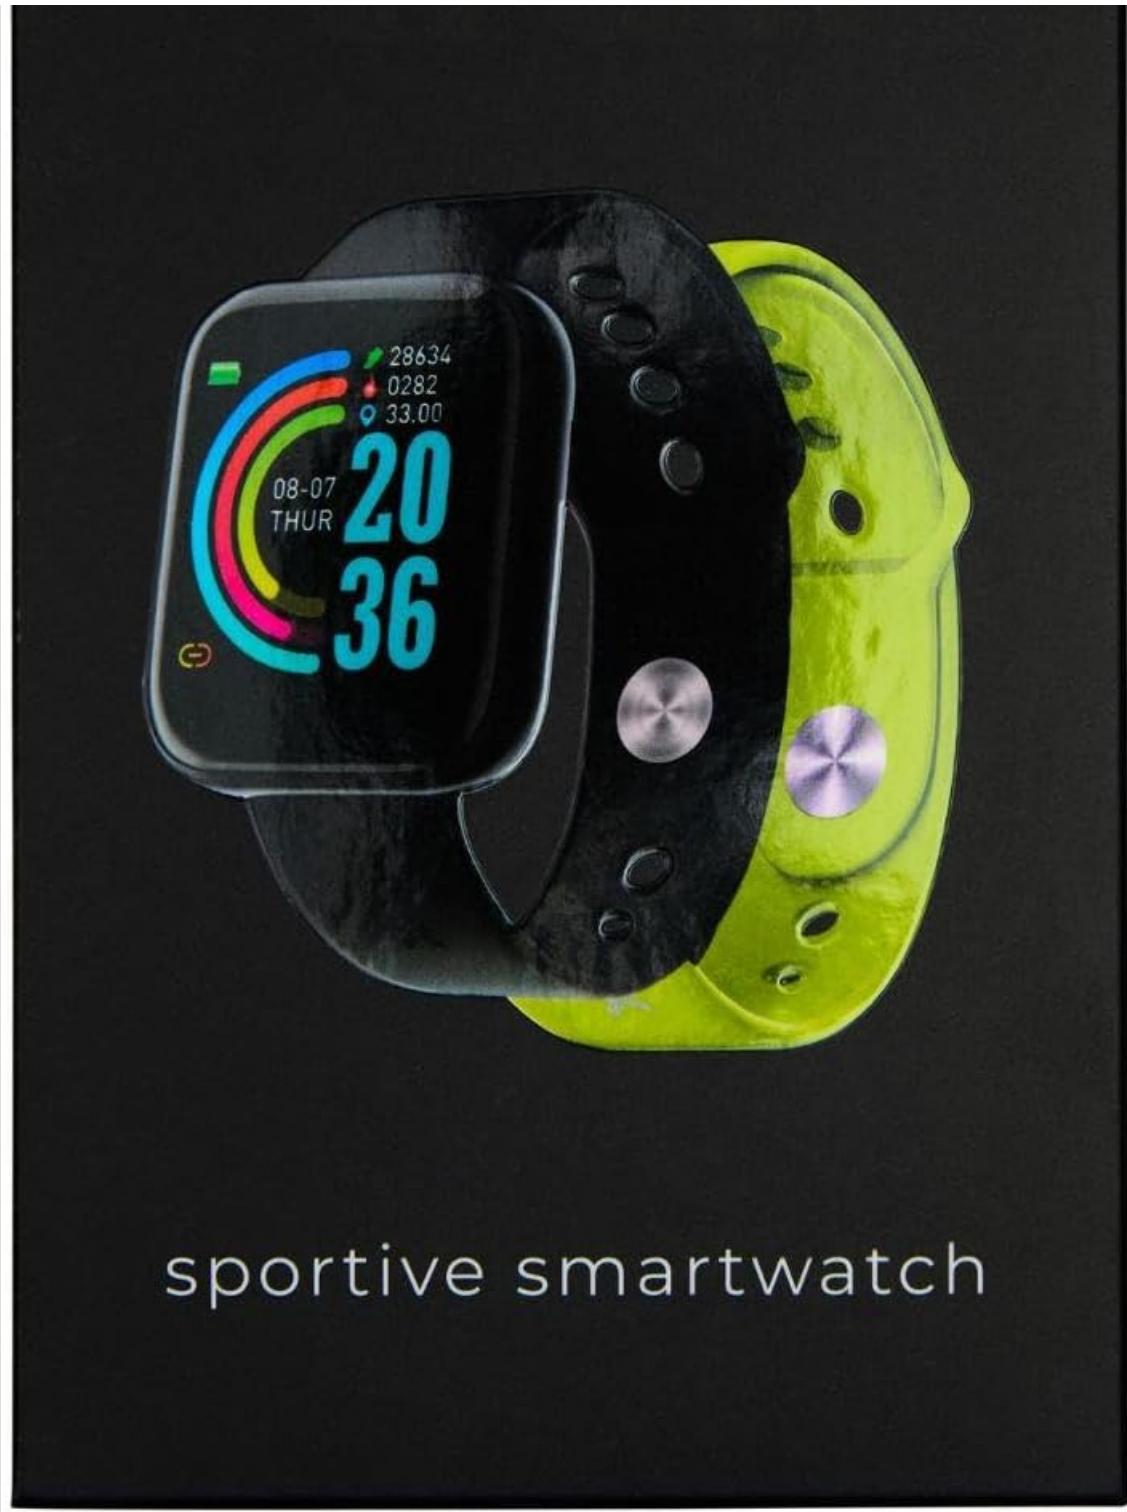

The Nilox Trailband Smartwatch is designed to be a versatile companion for your daily life, offering comprehensive health and fitness monitoring, along with smart notifications. This manual provides detailed instructions on how to set up, operate, and maintain your smartwatch to ensure optimal performance.

Key features include a 1.44-inch display, heart rate, blood pressure, and blood oxygen saturation monitoring, sleep phase detection, and tracking of calories, steps, and distance. It is compatible with both Android and iOS smartphones, allowing you to receive notifications and control music and camera functions remotely. The device boasts a battery life of up to 5 days.

2. WHAT'S IN THE Box

- Nilox Trailband Smartwatch
- 2 Colored Straps (one pre-attached, one additional)
- USB Charging Cable
- User Manual (this document)

3. SETUP

3.1. Charging the Device

Before initial use, fully charge your Nilox Trailband Smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the smartwatch and plug the USB end into a standard USB power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

3.2. App Installation and Pairing

- 1. Download the App:** Search for and download the "Fitpro" app from your smartphone's app store (Google Play Store for Android or Apple App Store for iOS).
- 2. Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
- 3. Open App and Pair:** Open the Fitpro app, create an account if prompted, and follow the on-screen instructions to search for and connect to your Nilox Trailband Smartwatch. The app will guide you through the pairing process.
- 4. Grant Permissions:** Allow necessary permissions (e.g., notifications, location) for the app to function correctly.

Image: The Nilox Trailband Smartwatch displaying the current time, date, and various activity metrics such as steps and calories burned.

4. OPERATING INSTRUCTIONS

4.1. Display Navigation

- **Touchscreen:** The smartwatch features a touch-sensitive display for navigation.
- **Swipe Up/Down:** Scroll through menus and notifications.
- **Swipe Left/Right:** Access different functions or widgets (e.g., heart rate, steps).
- **Tap:** Select an item or confirm an action.
- **Side Button:** Typically used to wake the screen, return to the home screen, or access the main menu.

4.2. Health Monitoring

The Nilox Trailband Smartwatch provides several health monitoring features:

- **Heart Rate:** Measures your heart rate in beats per minute (BPM).
- **Blood Pressure:** Estimates your blood pressure.
- **Blood Oxygen Saturation (SpO2):** Monitors the oxygen level in your blood.
- **Sleep Monitoring:** Automatically detects and analyzes your sleep phases (deep sleep, light sleep, awake time).

Access these features by swiping through the watch interface or selecting them from the main menu. For accurate readings, ensure the watch is worn snugly on your wrist.

Image: The smartwatch display showing various health metrics, including heart rate, blood pressure, and blood oxygen levels.

4.3. Fitness Tracking

Track your physical activity with the following functions:

- **Steps:** Counts your daily steps.
- **Distance:** Estimates the distance covered based on your steps.
- **Calories:** Calculates calories burned during activity.
- **Exercise Time:** Records the duration of your workouts.

These metrics can be viewed directly on the watch or in more detail within the Fitpro app.

4.4. Notifications and Remote Control

Once paired with your smartphone, the smartwatch can display:

- **Call Alerts:** Incoming call notifications.
- **Message Notifications:** SMS and app messages.
- **App Alerts:** Notifications from various social media and other applications.

Additionally, you can use the smartwatch to remotely control your smartphone's music playback and camera shutter, typically found in the app's settings or a dedicated watch menu.

5. MAINTENANCE

5.1. Cleaning

Regularly clean your smartwatch and strap to prevent skin irritation and maintain functionality. Use a soft, damp cloth to wipe the device. Avoid harsh chemicals or abrasive materials.

5.2. Water Resistance (IP67)

The Nilox Trailband Smartwatch has an IP67 rating, meaning it is protected against dust ingress and can withstand immersion in water up to 1 meter for up to 30 minutes. It is suitable for everyday use, such as washing hands or light rain. However, it is not recommended for swimming, showering, or prolonged water immersion, especially in hot water or saltwater, as this may compromise the seal.

5.3. Battery Care

To maximize battery life and longevity:

- Avoid extreme temperatures.
- Charge the device regularly, but avoid leaving it fully discharged for extended periods.
- If not using the watch for a long time, charge it to about 50% before storing.

6. TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.
- **Cannot pair with smartphone:** Check that Bluetooth is enabled on your phone and the smartwatch. Ensure the Fitpro app is open and attempting to connect. Try restarting both the watch and your phone.
- **Inaccurate health/fitness data:** Ensure the watch is worn snugly on your wrist, not too loose or too tight. Clean the sensors on the back of the watch. Note that these devices are not medical instruments and provide data for reference only.
- **Notifications not appearing:** Verify that notification permissions are granted to the Fitpro app on your smartphone. Check the app settings to ensure notifications are enabled for the desired applications.
- **Short battery life:** Reduce screen brightness, limit frequent heart rate monitoring, and disable unnecessary notifications to extend battery life.

7. TECHNICAL SPECIFICATIONS

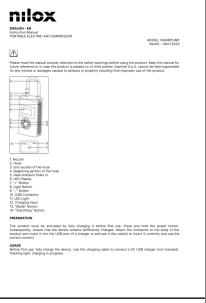

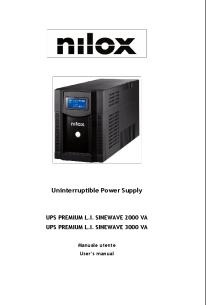

Feature	Specification
Model Name	Trailband
Item Model Number	8050162353751
Brand	Nilox

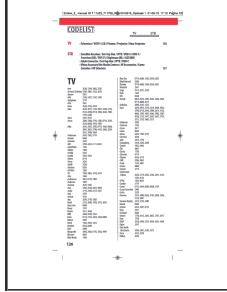

Screen Size	1.44 Inches
Connectivity Technology	Bluetooth
Wireless Communication Standard	Bluetooth
Battery Cell Composition	Lithium Polymer
Battery Life	Up to 5 days (typical usage)
Water Resistance	IP67
Operating System	Android Wear 2.6 (compatible with Android and iOS)
Item Weight	4.6 ounces

A IFA 2024 Nilox fa il suo ingresso nel mondo Wearable

Tra le novità presentate in anteprima al salone berlinese trovi la tecnologia indossabile, per portare sempre con sé il meglio del digitale.

Hall 4.2 - Stand 305

Milano, 3 settembre 2024 - Nilox, brand di tecnologia per lo sport e lo stile di vita aperto da Gruppo Sipario, annuncia in occasione di IFA il suo ingresso in una nuova categoria innovativa: il trice indossabile, per la prima volta in esecuzione trasmessa dal suo spot "Master Your Move". Scatta nel mondo dei dispositivi indossabili, dove la tecnologia digitale incontra il design e la funzione per un mondo di well-being e considerato sempre più come fondamentale per il benessere quotidiano delle persone.

Per reintraprendere la politica e nello stimolare uno stile di vita sano, la tecnologia è ormai un elemento chiave, tale da essere "indispensabile" e interpretato quotidianamente, diventando così indispensabile per il benessere quotidiano. Nilox Trailband nasce per soddisfare questo bisogno, creando un dispositivo che risponde alle crescenti domande di prodotti wearables con una nuova linea che combina design, innovazione e accessibilità, pensato per chi cerca soluzioni sempre più versatili e snello per il proprio benessere e per l'attività fisica.

A IFA 2024 Nilox ha esibito la nuova gamma Wearable di marchio italiano, composta da tre diverse linee di wearables e due auricolari sportivi. Alla novità 2024 è affiancato il nuovo Trailband, la gamma aggiornata di action cam, gli ultimi modelli di monopattini elettrici performance compatibili con la nuova narrativa stradale e le recenti linee X e Corgi, e integrato nella famiglia di e-bike firmata filos.

NILOX TRAILWATCH

Con il suo display da 1,31 pollici, TRAILWATCH è pensato per la durata di un'intera giornata. È dotato di una batteria ricaricabile da 1000 mAh, con una durata di 10 ore. È dotato di un sensore di pressione arteriosa e di un sensore di saturazione di ossigeno nel sangue, entrambi cardini, quindi un cronografo fino a quella dedicata al monitoraggio della frequenza cardiaca. È resistente all'acqua e può essere indossato per nuotare. È resistente alla polvere e agli schizzi d'acqua, garantisce un'autonomia di 10 giorni, è associato allo smartphone e al dispositivo di controllo per monitorare la durata percorsa, ascoltare musica, rispondere a chiamate e ricevere notifiche.

On/Off della connessione dati dei migliori produttori di smartwatch e tablet: Apple, Samsung, Motorola, Xiaomi, OPPO, Huawei, TCO, Alcatel, Vivo, Realme, Honor.

Compatibile con app Smart Time Pro, disponibile sia su iOS che su Android.

Prezzo consigliato al pubblico: €49,99
