Care and Maintenance

Proper care and regular maintenance will extend the life and preserve the aesthetic appearance of your Kappesberg N560 Wardrobe.

- **Cleaning:** Wipe all surfaces with a soft, slightly damp cloth. For stubborn marks, use a mild, non-abrasive cleaner specifically designed for furniture. Avoid harsh chemicals, abrasive materials, or excessive moisture.
- **Dusting:** Regularly dust all surfaces with a dry, soft cloth to prevent dust buildup.
- **Moisture and Sunlight:** Protect the wardrobe from excessive moisture, humidity, and direct sunlight to prevent warping, discoloration, or fading of the finish.
- **Hardware:** Periodically check and tighten all screws, bolts, and fasteners to ensure the wardrobe remains stable and secure.
- **Drawer Slides:** If drawers become stiff or difficult to operate, apply a small amount of silicone lubricant to the metallic slides.

Troubleshooting Common Issues

Issue	Solution
Doors do not align properly or rub against each other.	Adjust the door hinges. Most hinges allow for vertical, horizontal, and depth adjustments using a Phillips head screwdriver. Refer to the hinge manufacturer's instructions if available.
Drawers are difficult to open or close, or they stick.	Check for any obstructions inside the drawer or along the slides. Ensure the metallic slides are clean and free of debris. Apply a small amount of silicone lubricant to the slides if necessary. Verify that the drawer box was assembled correctly and is not warped.
Wardrobe feels wobbly or unstable.	Ensure all assembly screws and fasteners are securely tightened. Check that the wardrobe is placed on a level surface; use shims under the base if the floor is uneven. Confirm that the anti-tip hardware (if installed) is properly secured to the wall.
