JOYIN Dinosaur Toys with Activity Play Mat & Storage Cage Instruction Manual

Model: 16237

1. INTRODUCTION

Thank you for choosing the JOYIN Dinosaur Toys set. This manual provides essential information for the safe and enjoyable use of your new toy set. This set includes a collection of realistic dinosaur figures, trees, an activity play mat, and a convenient storage cage, designed to inspire imaginative play for children aged 36 months and older.

Included Components:

- 12 x Dinosaur Figures
- 5 x Trees
- 1 x Activity Play Mat
- 1 x Storage Cage

2. SAFETY INFORMATION

Please read and retain this information for future reference. Adult supervision is recommended during play.

- **Age Recommendation:** Suitable for children aged 36 months (3 years) and up. Small parts may pose a choking hazard for younger children.
- **Material Safety:** All components are made from high-quality, non-toxic PVC material, free from harmful chemicals such as BPA.
- **Choking Hazard:** Ensure all small parts, especially the trees and smaller dinosaur figures, are kept away from children under 3 years of age.
- **Supervision:** Always supervise children during play to prevent misuse and ensure safety.

3. SETUP

Follow these steps to set up your JOYIN Dinosaur Toys for play:

1. **Unpack Components:** Carefully remove all dinosaur figures, trees, the activity play mat, and the storage cage from their packaging. Dispose of all packaging materials responsibly.
2. **Prepare the Play Mat:** Unroll the activity play mat on a flat, clean surface. The mat provides a detailed dinosaur

park scene for immersive play.

3. **Position Trees:** Place the five tree figures around the play mat or within the play area to enhance the environment. Note that the bases of the trees may require a flat surface or slight adjustment to stand upright stably.
4. **Arrange Dinosaurs:** Distribute the 12 dinosaur figures on the play mat or within the play area as desired. The storage cage can be used as part of the play scenario or for organizing the figures.

4. OPERATING (PLAY INSTRUCTIONS)

The JOYIN Dinosaur Toys set encourages creative and imaginative play. Here are some ways to engage with the set:

- **Imaginative Play on the Mat:** Use the activity play mat as the primary setting for dinosaur adventures. Children can create stories, explore the landscape, and interact with the various dinosaur figures.
- **Dinosaur Cage Scenarios:** The storage cage can be integrated into play. Dinosaurs can be 'captured' and

'released', or the cage can serve as a habitat within the play mat's environment.

- **Role-Playing:** Encourage children to assign roles to the dinosaurs and act out different scenarios, fostering storytelling and social skills.
- **Learning:** Identify the different types of dinosaurs included in the set. The box may list their names, providing an educational opportunity.

5. MAINTENANCE

Proper care will ensure the longevity of your JOYIN Dinosaur Toys set:

- **Cleaning Figures and Cage:** Wipe dinosaur figures and the storage cage with a damp cloth and mild soap if necessary. Rinse thoroughly and air dry. Do not use harsh chemicals or abrasive cleaners.
- **Cleaning Play Mat:** The felt play mat can be spot cleaned with a damp cloth. Avoid machine washing to prevent damage. Air dry completely before storing.
- **Storage:** After play, store all components in the provided storage cage to keep them organized and prevent loss. The cage is designed for convenient storage and transport.

6. TROUBLESHOOTING

Here are solutions to common minor issues you might encounter:

- **Trees Not Standing:** The tree bases are designed to be sturdy, but may occasionally tip over on uneven surfaces. To improve stability, place a small, heavy object on the base or position them on a completely flat surface.
- **Difficulty Storing All Items in Cage:** The storage cage is designed to hold all components. If you find it difficult to fit everything back in, try arranging the larger dinosaur figures first, then filling gaps with smaller figures and trees. It may require careful placement to optimize space.
