Xech X-611

Xech Hue Alarm Clock with Speaker and Dynamic RGB Lighting

Model: X-611

Brand: Xech

1. PRODUCT OVERVIEW

The Xech Hue Alarm Clock is a versatile device designed to enhance your daily routine. It combines a loud alarm clock for heavy sleepers with a wireless Bluetooth speaker, dynamic RGB lighting, and a convenient pen stand with a smartphone holder. Its compact and portable design makes it suitable for various settings, including bedrooms, study tables, and office desks.

2. PACKAGE CONTENTS

- Xech Hue Alarm Clock (Model X-611)
- USB-C Charging Cable
- Integrated Lithium Ion Battery (pre-installed)
- User Manual (this document)

3. SETUP

3.1. Charging the Device

Before first use, fully charge the alarm clock. Connect the provided USB-C cable to the charging port on the back of the device and plug the other end into a compatible USB power adapter (not included).

Image: Close-up view of the Xech Hue Alarm Clock's rear, showing the USB-C charging port and the device connected to a power source, indicating continuous power supply.

3.2. Initial Power On

Press and hold the Power/Function button (usually indicated by a power icon) on the front panel to turn on the device. The LED display will illuminate.

3.3. Setting the Time

To set the time, press the 'Clock' button (often represented by a clock icon). Use the '+' and '-' buttons to adjust the hours and minutes. Press the 'Clock' button again to confirm and switch between hour/minute settings. The clock supports 12/24-hour format, which can typically be toggled by pressing and holding the 'Clock' button.

Image: The Xech Hue Alarm Clock displaying a bright LED time, highlighting its 12/24H format capability and the clear visibility of the display when held in hand.

3.4. Setting the Alarm

Press the 'Alarm' button (bell icon) to enter alarm setting mode. Use the '+' and '-' buttons to set the desired alarm time. Press the 'Alarm' button again to confirm. You can cycle through 5 different alarm tones: Ambient Tone, Fun Mornings, Classic Alarm, Morning Chirp, and Calm Chirp. Select your preferred tone using the 'Mode' button or a dedicated tone selection button if available.

3.5. Bluetooth Pairing

To use the wireless speaker function, press the 'Mode' button until you hear an audible prompt indicating Bluetooth pairing mode. On your smartphone or audio device, search for 'Xech Hue' (or similar name) in the Bluetooth settings and connect. Once paired, you can play music wirelessly through the clock's speaker.

4. OPERATING INSTRUCTIONS

4.1. Alarm Functions

- **Snooze:** When the alarm sounds, press any button (except power off) to activate the snooze function. The alarm will sound again after a short interval.
- **Disabling Alarm:** To turn off the alarm for the day, press the 'Alarm' button when it is sounding.
- **Alarm Tones:** Choose from 5 distinct alarm tones for a personalized wake-up experience.

4.2. Speaker Functions

- **Volume Control:** Use the '+' and '-' buttons to adjust the speaker volume during music playback or alarm sounds.
- **Music Playback:** Once paired via Bluetooth, control music playback (play/pause, next/previous track) directly from your connected device.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the alarm clock. Do not use abrasive cleaners or solvents.
- **Liquid Exposure:** Avoid exposing the device to water or excessive moisture. This product is not waterproof.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight.

6. TROUBLESHOOTING

Issue	Possible Cause	Solution

Issue	Possible Cause	Solution
Device does not power on.	Low battery or no power connection.	Ensure the device is fully charged or connected to a power source via USB-C.
Alarm does not sound.	Alarm not set or volume too low.	Verify alarm settings and increase alarm volume using the '+' button.
Bluetooth not connecting.	Device not in pairing mode or too far from source.	Ensure the clock is in Bluetooth pairing mode. Move the connected device closer to the clock. Try unpairing and re-pairing.
RGB lights not working.	Light function is off or malfunction.	Press the 'Ambient Light' button to activate and cycle through light modes. If issue persists, contact support.
